ARRESTS DIPHTHERIA.

State's Free Distribution of Anti-Toxin Cuts Death Rate Away Down.

The state department of health, operating from Harrisburg, continues to save the lives of hundreds of poor children throughout Pennsylvania by the free distribution of anti-toxin for diphtheria. This is given out both for curative purposes and for immunizing other members of the household which has been exposed to the disease.

From October 10 to November 10 clinical reports returned to the department by physicians for 478 cases treated with the state's free anti-toxin, recorded only 43 deaths. This gives the very low rate of 8 per cent, an evidence of the splendid results State Health Commissioner Dixon's free distribution of anti toxin among the poor is securing.

During that period clinical reports show that 418 persons were immunized, in other words vaccinated against the disease. Nearly all of these were little children who might have contracted diphtheria but for the state's charity.

The anti toxin division of the department of health, acting through its 503 distributing depots, is kept especially busy at this time of the year, for not only is this the season when diphtheria flourishes, but more and more anti toxin is being used, as its benefits are tried and approved.

Health Commissioner Dixon is loud in his praise of the co operation he has received from the physicians of this state and the distributors. There have been few if any attempts to impose upon the free distribution of the anti-toxin for the poor. Physicians of Pennsylvania, Dr. Dixon says, have shown themselves well worthy of the confidence placed in them. He also praises the faithful manner in which the distributors have performed their duty by arranging to have depots accessible to physicians at all hours.

The new Pure Food and Drug Law will mark it on the label of every cough cure containing opium, chloroform, or any other stupefying or poisonous drug. But it passes Dr. Shoop's cough cure as made for 20 years, entirely free. Dr. Shoop all along has bitterly opposed the use of all opiates or narcotics. Dr. Shoop's Cough Cure is absolutely safe even for the youngest babe—and it cures, it does not simply suppress. Get a safe and reliable cough cure, by simply insisting on having Dr. Shoop's. Let the law be your protection. We cheerfully recommend and sell it. Dickson's drug store.

ANNUAL REPORT

Of the Buck Valley Hunting Club. Successful Season.

On Wednesday, November 14th the members of the B. V. H. C. pitched their tent on Uncle Jacob Hess. All were feeling fine, when on the following morning the ground was covered with snow.

The first day's hunt was spent principally in locating the deer, and noting the crossings, while the second was attended with much better success. The men being at their respective posts, we were somewhat startled to hear the keen report of the rifle break the stillness of the morning air, and when we got together we found that Bruce Hendershot had succeeded in killing an old doe, a 11 Gilbert Dudley, a spike buck. After getting them to the tent, we were all well pleased with the success of the second day's hunt. Thursday, during the next week, Uncle Jake succeeded in springing the trigger on an old doe bringing her to the ground never to rise again.

Saturday morning, November 24th, the club broke camp and returned home—all feeling well pleased with the success of the season, having killed three does, and all reported that they had enjoyed the hunt. Following are the names of the people who took part in the hunting:
