

NOVEMBER AILMENTS

THEIR PREVENTION AND CURE.

November is the month of falling temperatures. Over all the temperate regions the hot weather has passed and the first rigors of winter have appeared. As the great bulk of civilized nations is located in the Temperate Zones, the effect of changing seasons is the highest importance. When the weather begins to change from warm to cold, when cold nights succeed hot nights, when clear, cold days follow hot, sultry days, the human body must adjust itself to this changed condition or perish.

The preparation incident to warm weather has been checked. This detains within the system poisonous materials which have heretofore found escape through the perspiration.

Most of the poisonous materials retained in the system by the checked perspiration find their way out of the body, if at all, through the kidneys. This throws upon the kidneys extra labor. They become charged and overburdened with the poisonous excretory materials. This has a tendency to inflame the kidneys, producing functional disease of the kidneys and sometimes Bright's Disease.

Peruna acts upon the skin by stimulating the excretory glands and ducts, thus preventing the detention of poisonous materials which should pass out of the body.

Peruna has been used by Dr. Hartman in his private practice for many years with notable results. Its efficacy has been proven by decades of use by thousands of people and has been substantiated over and over by many thousands of homes.

New York Mecca For Criminals.
There are 10,000 professional criminals at large in New York City today, according to police estimates. They include bank robbers, burglars, flat thieves, commercial swindlers, confidence men, pickpockets and shoplifters. A large percentage are ex-convicts whose pictures are in the Rogues' Gallery and who are known personally to the detectives of the Central Office. As many as one hundred of these professionals have been picked up on the streets as "suspicious persons" in a single night by Inspector McLaughlin's detectives only to be set at liberty in the morning.

COMMERCIAL COLUMN.

Weekly Review of Trade and Latest Market Reports.

New York.—R. G. Dun & Co.'s weekly Review of Trade says:

"Trade expands under the stimulating influence of colder weather and mercantile collections improve, although rates for money continue high. Traveling salesmen send in large orders to leading distributing points, but movements of merchandise is still retarded by inadequate transporting facilities. Seasonable lines of wearing apparel and holiday goods attract most attention, while staple articles of every description are in steady demand. Current business is good and prospects for the future were never brighter. Labor disputes reach amicable settlement in most cases, wages being advanced in numerous transporting and manufacturing industries. The most striking development of the week was the unprecedented output of pig iron in conjunction with large imports and advancing prices, indicating the greatest activity ever attained by steel mills. Other industrial reports were scarcely less gratifying.

"Leading commodity markets have developed strength during the past week, especially those in which speculative operations for the short account had been carried to extremes. Recovery in wheat had the additional support of unsatisfactory receipts at the Northwest, and although the small movement was probably due in large measure to the car shortage, it gave rise to smaller estimates of the crop in spring wheat States.

"Liabilities of commercial failures thus far reported for November amounted to \$2,376,428, of which \$883,561 were in manufacturing, \$1,362,346 in trading and \$80,581 in other commercial pursuits."

Three Months' Suicide Record.
One hundred and ninety-one persons committed suicide in New York City during the three months previous to July 1 last, says the report of Health Commissioner Darlington, just sent to Mayor McClellan.

Of this number 20 died by carbolic acid, 55 by gunshot, 17 took gas, 20 hanged themselves, one died from Paris green, 9 by jumping, one by chloroform and one by leaping in front of a train. Only 3 women hanged themselves, while 17 men died by this means.

Sixty-seven persons were killed by electric cars during the quarter, 41 of the total number being in Brooklyn.

The total number of deaths by accident and negligence during the three months was 965.

Abbie, 'At Rest.'
Friends of Henry Dreyer, a middle-aged bachelor and one of the proprietors of the Idle Rest Hotel, Bensonhurst, have frequently expressed surprise at the affection which Mr. Dreyer has lavished upon an aged Maltese cat, Abbie. A day or so ago Abbie died. Mr. Dreyer, intensely grieved, invited his intimate friends to call upon him. There, in the middle of the room, they saw a tiny white casket. Laid within it was the body of Abbie. At the head of the casket stood four lighted candles and upon a silver plate on the cover was inscribed "At Rest." A wake was held, and with meats and drinks the company mourned. Mr. Dreyer declared that Abbie should be given burial the same as a human being.

"THE MARRYING SQUIRE."

Justice Geo. E. Law, of Brazil, Ind., Has Married 1400 Couples.

Justice Geo. E. Law, of Brazil, Ind., has fairly earned the title "The Marrying Squire," by which he is known far and wide, having already married some 1400 couples. Ten years ago he was Deputy County Treasurer. "At that time," said Justice Law, "I was suffering from an annoying kidney trouble. My back ached, my rest was broken at night, and the passages of the kidney secretions were too frequent and contained sediment. Three boxes of Doan's Kidney Pills cured me in 1897, and for the past nine years I have been free from kidney complaint and backache."

Handsomest Woman in World.
"She is the handsomest woman in the world," said Herr Direktor Corried, as he came down the gangplank of the French liner La Savoie, yesterday, when he arrived in this country to sing "Polora."

Mme. Cavalleri is one of the many famous operatic stars who will appear at the Metropolitan Opera House this season. When the huge liner came into port, Herr Corried, who was standing on the dock, waved his hand to Mme. Cavalleri, who was sitting on a camp chair on the promenade deck.

She was attired in a dark blue gown over which she wore a magnificent sealskin robe. The singer's dark eyes sparkled, and she blushed as she walked down the gangplank with Herr Corried.

She speaks in English and when interviewers gathered around her, she said through her brother, who accompanied her:

"I am very glad to be in America and with American people."
Herr Corried drove Mme. Cavalleri to her hotel in a cab.—N. Y. American.

Nat Goodwin's Bonanza.
Nat C. Goodwin invested in a wheelbarrow load of Western mining stock a few weeks ago. Yesterday it was rumored on Broadway that he had made no less than \$60,000 by the speculation. In the star's dressing-room at the Grand Opera House, last night, he solemnly confirmed this report and declared it told of being a full-fledged director in a mining company.

"I bought a good deal of that stock," said Mr. Goodwin, squinting critically at one of his sketch "masterpieces," which hung on the wall to recall a former performance of "The Genius," which he bought so much of it at 2 cents a share that I found myself \$60,000 on the curb when it closed on the night at 59 cents."

Mr. Goodwin seemed pleased with his paper fortune, though he mentioned with regret the investment in "a dress suitcase full of another stock at 40 cents a share, and its sale at 96," when now it's quoted at \$8." There are equally attractive quotations on the curb—till somebody desires to sell.

After realizing on his profits, the genial comedian is maybe going to build a hotel in Goldfield, he says.—N. Y. Sun.

Papa's Head Must Have Ached.
Mary Larene, ten years old, saw her dear papa take a long drink from a bottle marked "Gin" a few days ago.

"When I grow up to be a lady I will drink gin, too, just like papa," little Mary said to her mamma.

Without waiting to grow up Mary took a favorable opportunity to follow her papa's example yesterday. She drank half a bottle of gin. Her mother found poor Mary in alcoholic coma; gin had nearly extinguished her small life flame.

Mrs. Larene rushed from the house screaming "Help! Help!" Dr. J. B. Doan's Kidney Pills, however, promptly and heroic measures to revive Mary, but she was not out of danger for several hours. Then recovering her senses, her first pathetic words were:

"Oh, mama, how my head aches! Does papa's?"—N. Y. World.
