Vicarious Revenge

A gymnastic instructor who had retired from the army gave boxing lessons now and then to eke out his pension. He was a good master, but it required no little fortitude to be his would be his pupil.

A young man once arranged for a course of 10 lessons. At the end of the second, when he was feeling "done," the pupil said he thought he had had enough. "Enough?" said the instructor in astonishment. "Why, you haven't learned..."

learned-"

learned—" "I know," the young man inter-rupted. "But I'll tell you how it is, Mr. M. There's a fellow I disilke, and I arranged to come to you so as to beat him in a fight. But on second thought I have decided it will be just as well to send him down here to you to take the rest of the lessons."—From Tit-Bits. We knew the dead man off and on for 30 years. He was always a

for 30 years. He was always a would-be bad man, although in later for years as a peace officer he had to hold in check his naturally villainous disposition, but just how he es-caped the killer's buffet or the penitentiary so many years we can't just figure out. He was never a gun-fighter, but as a rough-tumble scrapper he was hard to beat. He would gouge and bite, and he always carried brass knucks and a shot billy so in making a gun play and getting killed he simply got his a little later in life than those of us who knew him best expected.—Neosho Democrat.

### After Fifty-three Years.

Thomas Ball, the sculptor and painter of Montelair, N. J., has just completed a painting that is four and one-half by five and one-half feet, after working upon it 53 years, probably the world's record. It was commenced in Boston in

1853. Only one square foot of space was completed in the first two years. The painting depicts a scene from the life of Christ, the subject being chosen from of Gospel of St. Luke. Mr. Ball is 87 years of age and has contributed much statuary to

public parks and buildings. One of his masterpieces, the statute of Daniel, is in Central Park in this city. N. Y. American.

### Redeeming Waste Land.

serious attempt is being made to bring back into cultivation a large tract of land in the south of Portugal. Some energetic men in the dis-trict of Serpa, in combination with the municipal authorities, have set to work on 100,000 acres, dividing it up into allotments of 15 acres each and letting it at a nominal rent, free of local rates and taxes for 10 years A heterogeneous mixture of settlers has already taken possession of the tenements. # THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies; those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many Ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character,

There are two classes of purchasers; those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

## Genuine-Syrup of Figs manufactured by the California Fig Syrup Co., and in order to

### Keep in Good Health.

There are many thousands of people all over the world who can attribute then good health to taking one or two Brand reth's Fills every night. These pills cleanse the stomach and bowels, stimulate cleanse the stomach and bowels, stimulate the kidneys and liver and purify the blood. They are the same fine laxative tonic pill your grandparents used, and being purely vegetable they are adapted to children and old people, as well as to those in the vigor of mannoed and womanbood. Brandreth's Pills have been in use for ever a century and are for sale every-where, either plain or sugar-coated.

### Midshipman's Uniform In 1776.

The pay of midshipmen was fixed in November, 1775, at \$12 a calendar month, which was the precise allowance made to the ship's cook. They had the distinction, however, of being the only grade of officers whose yap did not vary according to the rate of the vessel in which they served. We are unable to say if there was any significance in placing

the midshipman in the pay table of November 15, 1776, between the surgeon and gunner-probably they

would have felt more at home be tween the purser and boatswain, whom they received monthly financial Comfort and daily practical aid in "learning the ropes." However this may be, it cannot be doubted that the midshipman of the

Revolution was a dazzling creature if he ever wore the first continental uniform prescribed for his grade by the regulations of the Marine Comthe regulations of the Marine Com-mittee of 1776 at Philadelphia, which consisted of a blue lapeled coat with stand-up collar, round cuffs faced with red, buttons and buttonholes red, blue breches and red waistcoast. No mention is made of the headgear, but it was probably in harmony with

but it was probably in harmony with this fiery uniform, indicative per-haps of the bloody struggle then com-menced, and far eclipsing the uniform of King George's reefers. Whoever has witnessed the effect upon sus-ceptible young maidens of the naval cadet of our day in his simple blue blouse or jacket, adorned only with Mack braid, glit buttons and silver anchors, can casily imagine the bavoe simong the high-spirited, patriotic girls of the colonial seaports caused by the midshipman's uniform of 1776.—From Proceedings U. S. Navai institute. lastitute.

ellectual equality of men and women, and, since I personally have not been so fortunate as to do anything that would have been remarked had been a man, I strongly obje any notice being taken of what I have It is exceptional for a woman done. to undertake civil engineering, but further than that extremely commonplace."-Boston Advertiser.

### NEW YEAR'S CALLS

A New Drink to Replace the Old Time "Apple-Jack."

Twenty-five years ago the custom of making New Year's calls was a delightful one for all concerned, until some of the boys got more "egg-nog" or "apple-jack" than they could successfully carry.

Then the ladies tried to be charitable and the gentlemen tried to be as chivalrous as ever and stand up at the same time.

If anyone thinks there has not been considerable improvement made in the last quarter of a century in the use of nicoholic beverages, let him stop to consider, ame ig other things, the fact that the old custom of New Year's calls and the genteel tippling is nearly obsolete.

The custom of calling on one's friends, however, at the beginning of the new year, is a good habit, and another good habit to start at that time is the use of well-made Postum instead of coffee or spirits.

A Staten Island doctor has a sensible daughter who has set Postum before her guests as a good thing to drink at Yule Tide, and a good way to begin the New Year. Her father writes:

"My daughter and I have used Postum for some time past and we feel sure it contains wholesome food material.

"I shall not only recommend it to my patients, but my daughter will be most pleased to give a demonstration of Postum to our Christmas and New Yoar's callers." Read "The Road to Wellville," in pgks. "There's a rea-
