

# TIED AND SICK YET MUST WORK

"Man may work from sun to sun but woman's work is never done."  
In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

MRS. AUG. LYON

## Lydia E. Pinkham's Vegetable Compound

keeps the feminine organism in a strong and healthy condition. It cures inflammation, ulceration, displacements, and organic troubles. In preparing for child-birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes:—Dear Mrs. Pinkham:—For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of my back and legs. I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly.

### Mrs. Pinkham's Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

**HICKS' CAPUDINE**  
CURES ALL ACHES  
And Nervousness  
Trials to the Adversary

If a woman can't find any other excuse for her husband not being able to make a living she will say he has an artistic temperament.

If you have not received the Argo Red Salmon Cook Book ask your grocer or send a postal card to the Alaska Packers Association, Richmond, Va., advertising department.

What For?  
"You don't love him?"  
"Love him? I should say not!"  
"Then what did you get engaged to him for?"  
"Here it is on my third finger; isn't it a beauty?"—Houston Post.

Argo Red Salmon is cleaned and packed entirely by machine, and not touched by the human hand. After trying it you will use no other. At all grocers.

**Clothespins From Maine.**  
Few persons every wonder where clothespins come from. A few years ago a man from the town of Bryant's Point, Me., went to a head there has been quietly turning trees into clothespins for years and applying the world with them, amassing in the process as comfortable a fortune as many a man makes in a more pretentious business in some money centers. His name is Lewis Mann, and he began with a capital of \$400, with which he purchased an old disused mill and began the manufacture of clothespins. Today he is the largest individual maker of this very necessary article in the world.—Chicago Journal.

**Proof of Merit.**  
The proof of the merits of a plaster is the cures it effects, and the voluntary testimonials of those who have used Allcock's Plasters during the past sixty years is unimpeachable evidence of their superiority and should convince the most skeptical. Self-pretended testimonials, however, but certificates from those who have used them.

Allcock's are the original and genuine gesso plaster and have never been equalled by those who have sought to trade upon their reputation by making plasters with holes in them, or substituting as you would counterfeit money.

**No Trouble To His Memory.**  
Friend (to newly made widow)—I suppose you are going to erect a lasting monument to your husband's memory?  
Widow—To his memory? No. Poor Isadore had none. It was only yesterday that in turning out one of his old coats I found the pockets full of letters I had given him to post.—Bon Vivant.

**During Lent there is nothing more delicious than Argo Red Salmon.** There are so many different ways of preparing it, and it appeals to both the eye and the appetite.

A sleeping car company could make lots more money if it hung the passengers up on trees and they would sleep just as well.

**A Most Valuable Agent.**  
The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and anesthetic. It adds greatly to the efficacy of the Black Cherry Bark, Bloodroot, Golden Seal, Stone root and Quinine, and is contained in "Golden Medical Discovery" in its purest form. It is also contained in Quinine, Chamberlain's Colic, Cholera and Diarrhoea Remedy, and in many other of our medicines.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal, Bloodroot, Quinine, Chamberlain's Colic, Cholera and Diarrhoea Remedy, and in many other of our medicines.

The Benefits Of Travel.  
Travel broadens a man. Sometimes when the engineer goes by the road target or the operator is taking 40 weeks, he finds himself broadened out over half an acre of landscape.

Travel shows a man the resources of his country. He may look from the car window and estimate the millions of feet of lumber required for pickle aids, and corset billboards.

Travel teaches a man to respect his fellowcitizens—in fact, at the end of his trip he will have learned to raise his hat to any man in uniform.

Travel develops the brain—even one week of solving time-tables fits a man to tackle 15 puzzles and how-odd-is-Ann? propositions with a confident smile.—Chicago Post.

### Twice-Told Testimony.

**A Woman Who Has Suffered Tells How to Find Relief.**  
The thousands of women who suffer backache, languor, urinary disorders and other kidney ailments, will find comfort in the words of Mrs. Jane Farrell, of 606 Ocean Ave., Jersey City, N. J., who says: "I reiterate all I have said before in praise of Doan's Kidney Pills. I had been having heavy backaches, and my general health was affected when I began using them. My feet were swollen, my eyes puffed, and dizzy spells were frequent. Kidney action was irregular and the secretions highly colored. To-day, however, I am a well woman, and I am confident that Doan's Kidney Pills have made me so, and are keeping me well."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

**Bicycles And Automobiles.**  
The bicycle demanded physical effort and a certain amount of athletic ability. After the novelty wore off, riding on the city streets became unpleasant to many. Absolutely smooth pavements are a rarity, and the bicycle rider seldom meets with consideration from the drivers of wagons. Bang into the country call for a good deal of physical stamina not to make them unpleasant in their after effects. More than all this, the rider of the "silent steed" must be clothed in a special manner or endure discomfort if he rides far.

And the bicycle has not shown itself well adapted to more than a limited commercial use. The automobile has none of these disadvantages. It carries you swiftly wherever you wish to go, without great exertion and in such clothing as you wish to wear, underneath the necessary protection from the dust or mud of the road. For short distances it makes the owner independent of the railroads. It is social, as the bicycle never was, and works in all weather.—Cleveland Leader.

**An Expert Opinion.**  
A cookery teacher was giving a lesson to a class of children and questioning them on the joints of mutton. The next question, leg and loin had been mentioned. "Now," said the teacher, "there is another joint no one has mentioned. Come, Mary, I know your father is a groom; what does he often put on a horse?"  
"A shingle each way, Miss," was the unexpected answer.—Cassell's Saturday Journal.

**Coffee Threshed Her.**  
15 Long Years.

"For over fifteen years," writes a patient, hopeful little Mrs. woman, "while a coffee drinker, I suffered from Spinal Irritation and Nervous trouble. I was treated by good physicians, but did not get much relief.

"I never suspected that coffee might be aggravating my condition. I was down-hearted and discouraged, but prayed daily that I might find something to help me.

"Several years ago, while at a friend's house, I drank a cup of Postum and thought I had never tasted anything more delicious.

"From that time on I used Postum instead of coffee and soon began to improve in health, so that now I can walk half a dozen blocks or more with ease, and do many other things that I never thought I would be able to do again in this world.

"My appetite is good, I sleep well and find life is worth living, indeed. A lady of my acquaintance said she did not like Postum, it was so weak and tasteless.

"I explained to her the difference when it is made right—boiled according to directions. She was glad to know this because coffee did not agree with her. Her folks say they expect to use Postum the rest of their lives." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkg. "There's a reason."

## NEW YORK DAY BY DAY.

Some of the Things Done Daily in the Metropolis.

Shave, Etc., Cost Him \$5832.  
The visit of Morton Woodman, a young business man of Fall River, to a barber shop in the vicinity of Thirty-fourth Street and Broadway, cost him \$5832, for which he received a shave, a facial massage, haircut, shampoo, singe, shoe polish and a line of conversation which resulted in a visit to a wireless wire-tapping establishment at 123 East Twenty-sixth Street. Thursday afternoon the place was raided by Captain McDermott of the East Twenty-second Street Station, and a squad of men and Detectives Draham and Murphy of the West Thirtieth Street Station. The heavy doors of the imposing brown-stone structure were battered in and five prisoners taken. Maurice Franks was identified by Woodman as one of the men present when he was separated from his money, and he was charged with larceny.

**\$2300 For Each Performance.**  
Signor Caruso and Mr. Conried came to an understanding in reference to the tenor's future contract with the Metropolitan Opera Company. The result was a moderate victory for both of them. Signor Caruso did not succeed in raising the price to \$3000 for every performance, with a guarantee of not less than \$500 during the season. Caruso will receive under his new contract, which begins a year from next October, \$2300 every time he sings, and he will sing not less than 50 times. The new contract will run for that season, and during the second year the tenor is to receive \$2500 for the same number of representations.

**Crowd Needed No Urging.**  
A fire in Long Island City alongside a frame shanty, in which were 400 pounds of dynamite, was watched by hundreds of passengers disembarking from the Thirty-fourth Street ferry boats nearby, who stopped to gaze on their way home from work, unconscious of their danger. They were rushed away en masse by the police as soon as the blue-crowds reached the scene. The crowd needed no urging when it learned what was in the shanty. Quick work by two engine companies suppressed the fire, but not until it had badly scorched the sides of the shanty. The whole of Hunter's Point would have gone up to the sky if the fire once got in there," said the foreman.

**Tenement Fire Makes Trouble.**  
Complaints of wholesale robbery by firemen followed the extinguishing of a fire in the six-story tenement on the corner of 14th Street and Broadway, which routed from their beds more than 200 persons, most of them children. Two tenants, corroborated by witnesses, declare that they caught firemen, either of the regular force or of the fire patrol, stealing jewelry from rooms in the upper section of the house, which had not been attacked by the flames. The police will conduct a searching investigation of the complaint, as many similar reports have been made of late, especially on the East Side.

Extension of night trains to the Philippines cannot be carried on while the door of the great American market is practically shut against Philippine products.

## COMMERCIAL COLUMN.

Weekly Review of Trade and Latest Market Reports.

R. G. Dun & Co.'s weekly review of trade, says:

Weather conditions have been favorable for trade and transportation in most sections, but a few adverse reports are still received, and total transactions again felt the curtailing influence of a holiday. At the large cities there is a good attendance of interior merchants or their representatives, producing much activity in jobbing circles, notably those dealing in dry goods, millinery and other distinctively spring lines. Mercantile collections are improving, but some complaints are made of the West Third Street Station.

The heavy doors of the imposing brown-stone structure were battered in and five prisoners taken. Maurice Franks was identified by Woodman as one of the men present when he was separated from his money, and he was charged with larceny.

## One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

### TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.
