

Women Avoid Operations

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only recourse. But a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking

MISS ROSE MOORE

Lydia E. Pinkham's Vegetable Compound

Made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 207 W. 26th St., N. Y. She writes: Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly consult with Mrs. Pinkham, at Lynn, Mass. From the symptoms given the trouble may be located and the quickest and surest way of recovery advised.

The Alaska Packers Association

furnish the Government Bureau of Fisheries thousands of cases of Salmon each year. Out of 249,600 cans examined by the Government at Camp Thomas only four defective cans were found. This firm packs the Argo Red Salmon.

Southern Pacific's net earnings

In January increased to \$1,045,971, a gain of about 45 per cent. over that month, 1906. Union Pacific's net profits increased \$439,845, or 19 per cent. over January of last year.

Stood the Test

Alcock's Plasters have successfully stood the test of sixty years' use by the public; their virtues have never been equaled by the unscrupulous imitators who have sought to trade on the name of Alcock's Plasters by making plasters with holes in them, and claiming them to be "just as good as Alcock's."

Alcock's Plasters stand today endorsed

by not only the highest medical authorities, but by millions of grateful patients who have proved their efficacy as a household remedy.

Three boys had eczema

Not improved—suffered six months—Perfect Cure by Cuticura.

"My three children had eczema for five months. A little sore would appear on the head and seemed very itchy, increasing day after day. The baby had had it about a week when the second boy took the disease and a few sores developed, then the third boy took it. For the first three months I took the best of New Dispensary, but they did not seem to improve them. Then used Cuticura Soap and Cuticura Ointment, and in a few weeks they had improved, and when their heads were well you could see nothing of the sores. Mrs. Kate Keim, 513 West 23rd St., New York, N. Y., Nov. 1, 5, and 7, 1906."

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the maker of which prints the ingredients entering into them upon the bottle wrappers and attests to their correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. No one who is desirous of having the best of medical investigation turned fully upon his formula, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that), yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-over coughs, which, if neglected or badly treated, lead up to and finally terminate in consumption.

The production of beet sugar in the German Empire is decreasing annually. In 1881, the number of acres in uniform length, then carries the round numbers, was 28,000,000, while in 1900, the last year for which statistics are available, it had fallen to 9,992,500.

The Mexican municipal government has under way in Chihuahua a building to cost \$100,000 and is improving the water supply at a cost of \$250,000. Mechanics and laborers are employed at very good wages. Chihuahua needs more hotels. The few here are crowded and guests of ten have to seek accommodations in private homes.

Weekly Review of Trade and Latest Market Reports.

R. G. Dun & Co.'s Weekly Review of Trade says:

"Depression in the stock market did not extend beyond Wall Street, commodity prices ruling high and general business continuing vigorous."

"The traffic conditions have improved somewhat, increasing the distribution of merchandise, and spring sale of dry goods have equalled anticipations. Retail trade is good for the season and late buying of winter goods, necessitated by the severe weather in many sections, has depleted stocks in a most satisfactory manner."

"A few trade reports tell of conservatism regarding operations for the future, due to high prices and tight money, and there is practical unanimity as to the activity of current trade, comparisons with last year's figures, being almost always decidedly favorable. Several wage scales are under discussion that may not be settled without further enhancing the cost of money production or operation, but no serious strike is anticipated, and higher freight rates have become necessary on some railroads because of increased expenses."

"Renewed demand for Bessemer iron from the leading interest indicates that it is unable to provide for the needs of the steel mills, and the distribution of the contract among many furnaces testifies to the good condition of order books, as no single concern could make the desired delivery. Other inquiries are noted, and there is no evidence of weakness in any department, while strength and activity are conspicuous in the lighter shapes of steel, notably sheets and hoops."
