Lydia E. Pinkham's Vegetable Compound

Miss Emma Runtzler, of 63t State St., Schenectady, N. Y., writes:

'For a long time I was troubled with a weakness which seemed to drain all my strength away. I had dull headaches, was nervous, tritable, and all wora out. Chancing to read one of your advertisements of a case similar to mine cured by Lydia E. Pinkham's Vegetable Compound, I decided to try it and I cannot express my gratitude for the benefit received. I am entirely well and feel like a new person."

Lydia E. Pinkham's Vegetable Compound is the most successful remedy for all forms of Female Complaints, Weak Back, Falling and Displacements, Inflammation and Ulceration, and is invaluable in preparing for childbirth and the Change of Life.

Mrs. Pinkham's Standing Invitation to Women Women suffering from any form of female weakness are invited to omptly communicate with Mrs. Pinkham, at Lynn, Mass. Her advice

ALL ACHES

Dr. Osler's Turn To Smile

Dr. Osler must have smiled when he read the announcement of the appointment of Canon Jelf to the mastership of Sutton's Hospital, Charterhouse. The event was bound to let loose upon him the sneers of those who seriously regarded his "too old at forty" little joke. The new head is 73 years young, and to all appearances is good for another decade's service. He comes of a distinguished family, of which the present generation has given us a brilliant judge and a gallant soldier. The Jelfs are a sunny-souled family. Scholars of Charterhouse will be glad to hear that. The Canon is a man of sigularly sweet disposition, though armed with the qualities which make for discipline. His younger brother, Mr. Justice Jelf, is the man who loves not juries in general, though he has done great things with some in particular. Withal, he is one of the kindliest, most courteous men on the bench, and when the other day inherited an unexpected from an admirer his friends wished that the sum was ten times as great.

Extreme Caution.

"What number Chestnut Street did you say your house is, Miss Walsingasked the young man who had been introduced that evening and

"Well," replied Miss Walsingham the whole number, I consider Doan's with a little hesitation, "the house Kidney Pills a fine kidney tonic." on one side of us is numbered 21 and that on the other side is numbered 25."-Somerville Journal.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women as children. Not a drop of alcohol cuter into their composition. A much better agent is used both or extractor and preserving the medicinal principles used in them. Viz.—nura trimperdined giverine. This agent possesses intrinsic medicinal properties of its own, being a most valuable autiseptic and antiferment, nutritive and soothing demutent.

ferment, nutritive and sootning demuicent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, billousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing aliments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as datarrh, whether of the nasal passages or of the stomach, bowels or petvic organs. Even in its ulcerative stages it will yield to this sovereign romedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to deanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This therough course of treatment generally cures the worst cases.

of freatment generally cares the core-cases.

In coughs and hoarseness caused by bron-chial, throat and lung affections, except con-sumption in its advanced stages, the "Golden Medical Discovery" is a most efficient rem-edy, especially in those obstinate, handron coughs raused by trritation and codgestion of the bronchial macous membranes. The "Dis-covery" is not se good for acute coughs aris-ing from audien colds, nor must it be ex-pected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coogsis, which, it neg-lected, or badly treated, lead up to consump-tion, it is the bost medicine that can be taken.

Beware of Ointments For Catarrh
That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, setting directly upon the blood and mucous surfaces of the system. Weekly Review of Trade and Latest Market Reports.

New York.—R. G. Dan & Co.'s Weekly Review of Trade says:

One of the best features of the present situation is the steady improvement in mercantile payments, despite the unsettled condition of the money market. Congestion in the iron and steel industry and tardiness of deliveries were acceptuated. ness of deliveries were accentuated by the flood which stopped produc-tion at many plants in the Pittsburg district for three days or more. Some mills were damaged to an extent that was not readily remedled, and the record-breaking rate of pigiron output was reduced, so that March will not attain the new monthly high-water market that seemed probable. A very heavy tomage of Southern iron has been taken in the Birmingham market and at firm quotations, and the inquiry for ma-terial indicates the situation at steel mills. The flood closed order books for tubes, which were already very late with deliveries, and puts struc-tural mills still further behind just when open weather makes full production most desirable.

A lull in the volume of new busi-ness is welcomed by the cotton mills, as pressure for delivery had advanced prices to the limit of safety in the opinion of many manufacturers.

Footwear factories in New Engand receive supplementary orders for seasonable goods, chiefly from Eastern wholesalers, for shipment in May and June, but this class of buslness comes forward somewhat slow-
