RECORD OF DEATHS.

Three of Fulton's Well Known People Called to Their Long Home During The Past Week.

LEVI DEHART DIED TUESDAY NIGHT.

Mrs. Elizabeth Chesnut.

At the advanced age of 88 years, 6 months and 7 days, Mrs. Elizabeth Chesnut died at Hustontown on Thursday of last week. The funeral took place on Saturday and her remains were laid to rest in the cemetery at Hustontown.

Mrs. Chesnut's maiden name was Snyder, and she was the widow of Ex-Sheriff David F. Chesnut, who died on the 31st day of July, 1890, and is survived by three sons, DeKalb, of Shelby, Iowa, Ex-County Superintendent Clevin Chesnut, and James M. Chesnut, Hustontown.

Mrs. Chesnut was a noble Christian and beloved by a wide circle of friends. The old Chesnut homestead was known far and wide for its generous hospitality, and Mrs. Chesnut had an influence that was elevating to all who came within the bounds of her presence.

She was a member of the Methodist Episcopal church since she was 18 years of age, and always greatly interested in the progress of the church of her choice.

James L. Lake.

James L. Lake, one of Belfast township's oldest and most highly respected citizens, died at his home on Licking Creek, April 17, 1907, aged 78 years, 8 months, and 10 days.

Mr. Lake is a descendant of one of the oldest families in the township in which he spent his entire life. Funeral occurred on Friday, conducted by Rev. Nathan Bishop, and interment was made at the Dunkard Church on Pleasant Ridge.

Mr. Lake led a very active life, and was only sick a very short time prior to his death, which resulted in a general wearing out of his physical powers.

For several years he has represented the Friends Cove Fire Insurance Company in this county, and during that time had handled a large amount of business to the entire satisfaction of the Company and to the policy holders. In politics he was a Democrat, and was a subscriber to the Fulton Democrat from the date of its organization nearly fifty-seven years ago.

Mr. Lake was a good citizen, and goes to his rest without leaving behind a single enemy.

Three sisters survive him, namely, Mrs. Elizabeth Brumbaugh, and Mrs. Mary Swope, both of Licking Creek township, and Isadian, wife of Dennis Hart, of Hartford City, Ind. Three children survive, Abner M., of Belfast township; Mrs. Philip Diehl, of Friends Cove, and Mrs. Elizabeth England, Everett, Pa.

Mr. Lake was married many years ago to Miss Ida, daughter of the late Theodore Mellett. She died about fifteen years ago.

Levi DeHart.

Levi DeHart died at his home on East Water Street, Tuesday night. Funeral this afternoon at two o'clock, when interment will be made in the graveyard at the Lutheran church.

Mr. DeHart was born in Berks county April 30, 1838, hence was almost 69 years of age. For several years he has been in broken health resulting from exposure and hard service during the Civil War; for few men saw more real service in that bloody conflict. In less than two weeks from the time the first shot was fired upon Fort Sumter, Mr. DeHart had on the blue and was marching with his comrades in the 14th Penn. Regiment, in defense of the country. When it was found that three months was not long enough to settle the dispute, Mr. DeHart re-enlisted in September 1861, and was honorably discharged in December 1862 on account of disability. In March

New Scalp Law.

A bill creating bounties for the destruction of certain noxious animals and appropriating \$50,000 to carry out the provisions of the act, has become a law by the governor signing the measure. It becomes effective at once, and its provisions will be of interest to those living in the rural districts. The bounties are as follows: Each wildcat, \$4; fox, \$2; weasel or mink, \$1. Originally the bill provided \$1 for each horned or barred owl or goshawk, but these were stricken out.

Persons entitled to such bounty and desirous of securing the same, must take the body of the animal or the entire pelt before any magistrate, alderman or justice of the peace of the county in which the animal was killed, and swear that he killed it, giving the principal details of killing. The magistrate must then, in the presence of the applicant, and at least one other elector of the county, cut off the animal's ears and burn them. The officer is then to give the applicant a certificate to the county commissioners, and the commissioners are in turn to draw the proper order on the county treasurer. The commissioners are to make affidavit semi-annually to the state of the amount paid out in bounties, and the state is then to reimburse such county.

Any attempts to collect bounties illegally are misdemeanors, each punishable by a fine of from \$100 to \$500, or imprisonment of one day for each dollar of the fine imposed.

NEWSPAPER ADVERTISEMENTS.

What They Do for the Advertiser, the Publisher, and for the Subscriber.

The shrewd breadwinner and the housekeeper reads the advertisements in the newspapers as a matter of business, and feels that the newspaper would well be worth the price of subscription if it did not contain anything else than the advertisements. You sit down in a quiet hour at home, scan the advertisements, learn who the live, enterprising merchants are, see what they have to sell, what they want for it, and where you can get what you need to the best advantage for yourself.

The merchant who spends money to invite you to his store, and to tell you what he has—wants your trade; not for one day or one week, but for all time. He knows that if he is to succeed he must have customers. He knows, too, that when he gets customers into his store, he must treat them white, or he cannot keep them. Hence, do not fear the man that advertises. He is the man that stands out in the open and shows his hand; he is the man that has the customers; he is the man that is doing the business; he is the man that is prospering, because he stands by the people, and the people stand by him.

The shrewd business man does not wait to advertise until he has built up a business and made money enough to afford it, as though it were a luxury. This would be like expecting to reap without going to the trouble and expense of planting the seed. The planting must be done first; the reaping comes later.

Newspaper advertising is a means to an end. Every dollar planted in judicious newspaper advertising, should yield a harvest of ten dollars. Of course, it is only fair to say that advertising, alone, will not bring success any more than planting, alone, will bring a big crop. The planting of the seed must be in fertile soil, and be followed by intelligent cultivation. A man might know enough to plant the right kind of potatoes—in the right kind of soil—and yet not have sense enough to keep the bugs from eating the tops. A man may be able through advertising to bring crowds of customers to his store, and yet not be able to keep them. The public wants a square deal at the store as well as in politics; and it is the man who deals fairly with his customers that keeps their trade, and proves a blessing to the community.

But as there can be no crop without planting, so there can be no great success without keeping yourself and your business in the lime light of publicity through the newspapers. Every great merchant in the country to day, owes his success to the newspapers.

Once in a long time, a publisher hears a subscriber object to the space in the newspapers taken up by advertisements. This is unreasonable. It is not for the space occupied by the advertisements, the newspaper would be much smaller in size; for the publisher gives paper enough to hold what news he has to print, and then besides that, gives paper to hold the advertisements, for which he does not charge the subscriber anything. If it were not for the advertiser helping to pay the cost of publication, subscribers would be lucky to get a much smaller paper even at five dollars a year; and then they would lose the information that comes to them through the advertisements, that saves each subscriber many times the cost of the paper each year.

Thus, while advertising helps the business man to succeed, it helps the publisher to meet the cost of the publication, and helps the subscriber to get a newspaper for himself and family much below the actual cost of the production.

Do not waste time and postage sending communications to the "News" for publication, if you do not give your name. We will not, of course, publish your name, but we want the name for self protection. Do not write for publication anything that you would not have the nerve to say to that person's face, or to acknowledge to him that you wrote it. Signing a communication, "A Reader," "A Subscriber," "Hello Sam," or any other fictitious name, will not go, and the communication must of necessity find its way into the "waste basket." The editor has troubles enough of his own, without your putting mean things in his mouth to say about some neighbor or other person you do not like.
