A Woman's Back

Has many aches and pains caused by weaknesses and falling, or other displace ment, of the pelvic organs. Other symptoms of temale weakness are frequent eadache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above

If any considerable number of the above tymptoms are present there is no remedy that will give quicker relief or a more permanent core than Dr. Pierce's Favorite President of the second of over forty years of cure. It is the most potent invigorating tonic and strengthening pervine known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or tains not a drop of alcohol or harmful, or nabit-forming drugs. Its ingredients are

all printed on the bottle-wrapper and attested under oath as correct. Every ingredient entering into "Fa-vorite Prescription" has the written en-dorsement of the most eminent medical writers of all the several schools of practice-more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine unknown composition as a substitute for this well proven remedy or known COMPOSITION, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to paim off upon you a substitute. You w what you want and it is his busi-

ness to supply the article called for. Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules-easy to take as

ABER IF INTERESTED WHITE TO BE MARUGUEO, Trues City Tane.

His Word of Honor.

************************* 'A very odd thing happened at one of New York's great hyphenated ho-teln a few years ago," said Pat Gal-ligan, the house detective of the New Willard.

"A group of distinguished millionaires, five of them, all men whose names are known from one end of the country to the other, were tak-ing luncheon in the hotel's palm room. It wasn't a business luncheon, but merely a little getting together, and they all became pretty gay.

"The talk at the table veered around to the subject of a business man's word of honor. One of the millionaires, a man known for the extreme sharpness of some of his transactions, felt called upon to be very outspoken on this subject, almost as if he felt himself under fire. He held to it that once a business man passed his word there should be -could be-no recalling of that The word should stick in any and all circumstances, Nothing should be allowed to interfere with the carrying out of that word, even if the man passing his word should be put to all sorts of hardships in carrying out the provisions of his

word of honor. "It seemed to some of the others that this was carrying it a bit to far. They said so, and argued the point with the man who was for the unbreakableness of the passed word

of honor. "'Suppose,' said one of them, 'that the person to whom such a word of honor is given should be an unworthy individual, and one who would "do" the man thus giving him his word as quick as winking if he got a chance?

'Doesn't make a particle of difference,' said the millionaire who was for the bindingness of the passed word. 'Before giving his word the business man should see to it that he isn't likely to come into contact with any such people. If he does come into contact with them it's his own fault. He must bear the consequences. But he can't break his

"'But, suppose,' said another one of the disputants, 'one should hap-pen, by some mischance, to give his word to some acknowledged thief, what then?'

" 'He'd have to abide by it, that's all, promptly replied the man who clung to the letter of the word. 'One doesn't have to come into contact with thieves, but, if one does, and inadvertently passes the thief the word of honor, why, there's nothing else in life to be done except to abide by the word. That's all. That's the way I look at the matter, anyhow.'

'Well, I'd like to see you put to such a test, old man,' said one of them then. 'I'm not saying that you wouldn't act up to your convictions, but I'd be willing to gamble that it would give you a twinge and that you'd be letting off some steam while It was happening."

" 'I never go on record with anything that I don't stay with in actual practice,' replied the millionaire with the strong views on the subject under discussion, and then the talk switched around to something else.

"The luncheon party broke up about half an hour later and the millionaire with the strong views went to his suite of rooms. He found himself alone when he got there. His ington Star. valet was out on an errand and his secretary was attending a funeral. The millionaire tossed himself on a couch to take a bit of a nap. Before There is a Way to Prevent Explosion he had been stretched out a minute, however, a card was sent up to him. The millionaire didn't know the name on the card, but there were three a gas-pipe with a lighted match is words scrawled on the bottom of the not so much because of the danger card relating to a deal that the mil- of an explosion as of other damage, the visitor up.

'Of sticking me up for it, eh?' snorted the millionaire. "Well, if you elect to call it by

that ugly name, yes,' replied the visitor, unmoved, 'I may add that I think you are,"-Philadelphia Record. it will be best for you to let me have the amount without loss of time.'

"'And if I refused to give it to you, what then?' inquired the millionaire, stunned with the man's im-

"I trust you will not require me to answer such a question, was the of manual training teachers at Black polite reply. But I haven't the least pool. "Our whole knowledge of the notion that you will refuse me the money," and there was a hard sound to the visitor's voice when he said

"The millionaire stood looking at the visitor.

"'But,' he said, 'you are not idlot enough to suppose that I carry any such a sum as ten thousand dollars in each about with me, are you?" 'I certainly am not,' was the cool

reply. But, then you can and will write me a check for the amount." 'Instantly the millionnire experienced what he thought was a flash of

"'Give you a check, ch?' he said. 'But, you secundrel, what makes you imakine that I would not stop the payment upon the check immediately 1931 inft this room?'

"'Hecause you are going to give me your word that you will do no such thing,' calmly replied the visi-

Whereupon the millionaire secretly chuckled. He could see it all, he felt confident. His friends with whom he had taken luncheon had put up a job on him. They were testing him as to that statement of his that even if he gave his word of honor to a thief he would keep the word inviolate.

" 'Well,' thought the millionaire. 'I'll show those duffers.'

"'You are a cool rascal,' said the millionaire to the visitor, but I suppose there is nothing else for me to do but to yield to your game, since I am here alone and utterly defense-I shall write the check for you, but I'll get you yet, mark that!'

'All I ask you to give me your word about, sir,' replied the visitor, is that you will not stop the payment on the check. After I cash the check I shall attend to the matter of my own safety." "'Put your gun down then and I

shall go over to my desk and write you the check.' 'And he did write the check and hand it to the visitor. The check was on a bank right around the corner from the hotel.

"'Now,' said the visitor, ready to depart, 'you are giving me your solemn word of honor as a gentleman and as a business man that you will not stop payment on this check?

"The millionaire nodded, and the visitor left. The millionaire sank into a chair and laughed aloud when the man had gone.

"T'll show these rascals up for putting up that job on me,' chuckled. 'They'll have to own up that I beat them at their own game. Probably they'll be up here in half an hour or so, with the man they sent here to put up the job on me, and I guess they won't feel cheap when they are obliged to confess, as this man hands me my ten thousand that I stuck to my word and didn't stop payment on the check.'

"But his friends didn't turn un nor did they appear to respond to the millionaire's chuckles when he met them at dinner that evening. Then he up and told them all about it. They gasped with amazement. They told him, with all solemnity and truth, that no job had been put up on him. He had simply been victimized to the tune of \$10,000, that's all. "Which is exactly what happened,

and the way it happened was this: "Seated close to the millionaire's table at luncheon that day, and overhearing their talk about the inviolability of their word of honor, was Alonzo J. Wakeman, the celebrated forger and all-around con man, who wasn't known in his true light at the hotel at that time. This Wakeman had been Mayor of Duluth and had come close to getting into Congress from Minnesota at one time, too, but he fell into bad ways and took to forging. Wakeman heard talk between the millionaires and he determined to profit by it, that's all. He knew that if he stuck up the millionaire right on top of that talk the millionaire would conclude that the job had been fixed up on him by his friends, and he won out by acting im-

mediately on that presumption. "Wakeman cashed the \$10,000 check and went to Europe. He was put away for a long term three years ago, after being convicted in Buffalo of a long series of forgeries."-Wash-

TO FIND A GAS LEAK.

and Fire.

The folly of hunting for a leak in lionaire was interested in that in-duced him to tell the bellboy to send West Philadelphia householder last week. One or two small leaks were detected by going over all the pipes of burning wood. Another visit to "He advanced as if to shake hands the cellar showed a charred floor so small as to be blue in color and nearly invisible. It had been lighted "If that leak had happened to be in the lead joint instead of an iron conroction," said a gas man, "there would probably have been work for the fire department. The smallest "'The fact is,' said the visitor, possible jet of lighted gas issuing very small leaks is to paint the suspected pipe with a smooth soan lather. Just as in the case of a bicycle tire, the tiniest leak will blow a bubble in the lather, and there

Muscles Superior to Brains. "The muscles are of primary importance, brains of a secondary importance," declared J. A. Cockburn, who presided at the annual meeting pool. "Our whole knowledge of the world comes to us through the mus cles and is remembered by them.

'The muscles' memory is the es sential part of memory. Not only physical force lies there, but the mind of the real man. It marks out his knowledge and defines his character. But for muscular movement people would never have had any brains worth talking about.

"Constructive genius and original-"Constructive genius and originality will be the requirements of the future, and the class room ought to be the adjunct of the workshop. Hitherto the cart has been put before the horse. The child instinctively recognized the importance of muscular motion, and despite its teacher exercised its powers in that direction.

Weekly Review of Trade and Latest Some of the Things Done Daily in the Market Reports.

New York.—R. G. Dun & Co.'s Weekly Review of Trade says: The only idle machinery is reported at footwear factories, and fall contracts have not yet ar-rived freely. This is a sensonable event, and the temporary reduction of about one-third in active capacity is not an alarming sign. A few small strikes are also interrupting manufacturers, but in the aggregate a very limited part of the nation's producing power is inactive, and most of the idle machinery is due to

the scarcity of labor.

Pig fron cannot be produced with sufficient rapidity in this country to meet the requirements of steel mills, more Middlesborough Iron being imported, despite a further advance in foreign quotations. Prices of all forms of fron and steel are strong, and some sales of pig iron for delivery during the last half of the year are made at \$22, Valley furnace, against \$21 only a few weeks ago.

How have you been affected by coffee drinking and by changing from coffee to Postum? 2. Give name and account of one or more coffee drinkers who have

been hurt by it and have been induced to quit and use Postum. 3. Do you know any one who has been driven away from Postum be-

cause it came to the table weak and characteriess at the first trial? 4. Did you set such a person right regarding the easy way to make it clear, black and with a snappy, rich

taste? 5. Have you ever found a better way to make it than to use four heaping teaspoonfuls to the pint of water, let stand on stove until real boiling begins, and beginning at that time when actual boiling starts, boil full 15 minutes more to extract the flavor and food value. (A piece of butter the size of a pea will prevent boiling over). This contest is confined to those who have used Postum prior to the date of this advertisement.

Be honest and truthful don't write poetry or fanciful letters, just plain, truthful statements.

Contest will close June 1st, 1907, and no letters received after that date will be admitted. Examinations of letters will be made by three judges, not members of the Postum Cereal Co., Ltd. Their decisions will be fair and final, and a neat little box containing a \$10 gold piece sent to each of the five writers of the most interesting letters, a box containing a \$5 gold piece to each of the 20 next est, a \$2 greenback to each of the 100 next best, and a \$1 greenback to each of the 200 next best, making cash prizes distributed to \$25 per-

Every friend of Postum is urged to write, and each letter will be held in high esteem by the company, as an evidence of such friendship, while the little boxes of gold and envelopes of money will reach many modest writers whose plain and sensible letters contain the facts desired, although the sender may have small faith in winning at the time of

writing.

Talk this subject over with your friends and see how many among you can win prizes. It is a good, honest competition and in the best honest competition and costs the comkind of a cause, and costs the com-petitors absolutely nothing.

Address your letter to the Postum.
