John Riha, a prominent dealer of Yining, Ia., says: "I have been selling DeWitt's Kidney and Bladder Pills for about a year, and they give better satisfaction than any pill I ever sold. George A. Hess, a native of Bethel township, but now the proprietor of a large stock farm in Indiana, writes: "We have had a very wet season in western Indiana—a very late and cold spring. Harvest and crops in general are fully two weeks later than usually. Corn, which is our main crop, is growing very rapidly, and barring early frosts, promises to be a bumper crop. Hay is making a fair yield and is selling for sixteen dollars a ton. All stock is selling high. A new railroad was completed through our county last season. We now have four: The C. & E. I., two miles east of us; L. E. & W., three miles north; the Wabash, nine miles to the south; and the new road (the Indiana Harbor) five miles west.

Those who have stomach trouble, no matter how slight, should give every possible help to the digestive organs, so that the food may be digested with the least effort. This may be done by taking something that contains natural digestive properties—something like Kodol For Indigestion and Dyspepsia. When Uncle Sam engages in any work of importance it is not long before he takes the lead. In 1902 the United States built only 314 automobiles, while France built 23,711 machines. Last year we ran our score up to 60,000, while France came on behind with 55,000, and England followed with 28,000; Germany with 22,000; Italy with 19,000, and Belgium with 12,000. In the past nine years the countries named have manufactured and sold 550,000 of these machines, representing a cost of fully \$1,000,000,000. It is one of the wonders of the age that a new industry can in so brief a time show such wonderful results.

Through the bed of what was once the South Fork Lake, of Johnstown flood history, one of the largest bodies of water in the state, two or three railroad tracks run. The summer cottages are gone; the guests at the club are gone; the cottages are occupied by workmen; the club is in the hands of artisans. A mine is being sunk in the bed of the lake which brought death to 3000 persons and caused millions of dollars' damage the afternoon of May 31, 1889. And the town which is springing up about the new mine is St. Michael. If the old Conemaugh lake still existed the town site would be 20 to 60 feet under water. By the last of this week St. Michael will be a flag stop on the Dunlo B anch railroad, and within six months it will be a regular stop. In 18 months, the optimists say, there will be a population of 5000.

We have sold more low shoes this season than we ever did. One reason is, that we had them; another is, that we have the right shoes at the right price. We have the nicest ladies' white canvas Oxford you ever did see, at 95c.; also, some blacks; and in men's we have them made by the Walkover people. Or if you would rather have a nice pair of high shoes, we have them. There isn't a cent's advance on better goods, it is the cheap goods that has advanced some, but we can still sell you a good ladies fine shoe at \$1.00, and men's at \$1.25, so you see we haven't advanced ours any yet.

Look over this ad and our stock and see how much we have advanced goods, and you will find it very little. We can sell you wall paper as cheap as 3c. a bolt.

We have Clothing at prices that can't be matched by any one. In working garments we handle the Shipper's goods. Come in and let us convince you that goods are not as high as some would try to make you believe they are.

**Don't It Jar You?**

Don't it jar you the way Dame Rumor tends to falsify facts nowadays?  
According to reports, I have been on the verge of matrimony several times, but I cannot plead guilty of being a hen pecked husband, even though old bachelorhood stares me in the face.  
When a "kid" at school, I enjoyed rolling snow into large balls, and they remind me of Saltillo's recent Diphtheria scare. There was doubly more Diphtheria according to reports circulated by out-of-town gossips, than there was here. Like the snow ball, the farther the news traveled the worse it got. It was even reported that I had diphtheria and had closed my store. Yes, I closed my store on Sundays during the scare, and expect to continue to close my store on Sundays. Now, that no new cases have been quarantined since July 21st, we are glad to say that we feel that diphtheria will soon be forgotten in our town.  
Would it "jar" you to know that we are selling Mason's pint glass jars at 45c. per doz.; Mason's quart jars at 60c. per dozen, and Mason's half-gallon jars at 65c. per dozen?  
Yours for your jar business,  
**Harry E. Huston,**  
Saltillo, Pa.

**Weak Hearts**

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart, and in the course of time that delicate but vital organ becomes diseased.  
Mr. D. Kaibler, of Nevada, C. says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."
