ARE UNABLE TO FILL BIG ORDERS FOR COAL

Reading Company Declines Large Foreign Contract.

HOME DEMANDS ARE TOO GREAT.

The Shortage in All Grades of Coal Declared to Be Increasing Dally-Scarci. ty of Labor at the Mines One of the Principal Causes-Western Railroads Anxious.

Philadelphia (Special), - Because of its inability to fill the order, the Philadelphia and Reading Coal and Iron Company was compelled to decline a contract for 200,000 tons of anthracite, the order for which was tendered by a representative of the Austro-Hungarian Chamber of Com-The proposed purchaser was willing to pay the regular price for placing the coal on board vessels, wither here or in New York.

1

Another order for 200,000 tons of Mormious coal wanted by the Italian government is also being offered to largest soft-coal operators of the United States, with little prospect of its being taken because of the great expense in delivering it to the Italian destination designated. Other for-tign orders have been offered to American operators with lack of suc-

The great demand for coal by form governments is attributed to increased amount of coal consumed by their naval vessela, the number of which has grown rapidly within the last two years. All nativo coal is being used for this purpose and the supply is not equal to the de-mand. Added to this is the coal required for other government insti-tutions, as well as for industrial consumption

An officer of the Reading Company explained that his company was com-pelled to decline all such orders because of the great demand for coal atmong customers in this country and because of the scarcity of labor at the collieries. The same conditions confronted every other anthracite company, as well as all bituminous operators, he said. It was further explained that the shortage of all grades of coal is increasing daily and many Western railroads are now much disturbed concerning their supplies for the coming winter.

Men who formerly worked in the mines are seeking employment in less dangerous lines of business. Many have abandoned mining as a means livelihood and have turned to farming in Western States. For-eigners who formerly came to the United States to take up mining now neek employment in other fields of labor.

EIGHT HURT IN AUTO CRASH Carl Hanna, Grandson of Late Senator,

Was at the Wheel.

New York (Special). - Eight persons were injured when Carl H. Hanna, 18 years old. and a grandson of the lato United States Senator Mark Hanna, drove an automobile carrying a party of seven and running 40 miles an hour into a slow moving fish wagon containing three men, in Occan Avenue, Sea Bright, at 1 o'clock A. M. It is said that automobile carried no headlight. and the wagon, who was moving in the same direction, was not seen un-til it was within 20 feet. Cyril Car-michael, 19 years old, son of Thomas Carmichael, banker at 52 William Street, New York, was hurled 25, feet in the air. Two ribs were bro-ken and he was otherwise hurt.

Carl Hanna was pinned under the steering gear as the car struck a ditch on the opposite side of the road after it had described an arc and Fearing a seneral mutiny in the

"A conference between President Roosevelt, Ansistant Secretary of th Navy Newberry, Rear Admir Brownson, chief of the Bureau Admiral Navigation, and Rear Admiral Evans commander of the Atlantic fleet, wa held to decide some of the details in connection with the fleets going to 16 battleships and will start some-time in December, going through the Straits of Magellan and up to San

COMMERCIAL COLUMN Weekly Review of Trade and-Latest Market Reports.

New York .- R. G. Dun & Co.'s weekly review of trade says:

Jobbing markets are well attended interior buyers and country merchants, who operate with great free-dom considering the financial strinstructural work. Yet many Western and Southern gitles report building operations in excess of last year's, and as the harvests progress there is more dimension on the increase and is more disposition to increase pre-parations for future needs. Retail stocks have been depleted by the customary bargain sales, and pre-parations for fall and winter trade indicate confidence in continued ac-tivity. At most domestic points there is no complaint regarding collections. but reports from Canada indicate many requests for renewals. Leading industrial plants are well occu-

pied, many mills having output sold far into 1908.

Inquiry for pig iron has improved, chiefly for small lots and prompt de-livery, consumers of Bessemer iron being notably urgent for quick shipment. But scarcely any can be had earlier than October. In most sec-tions of the iron and steel industry conditions are normally more quiet at this time than any other month of the year, and the moderate decrease in new business of late has received more attention than the circumstances warranted because of the phenomenally active period preced-
