Letter to C. J. Brewer, McConnellsburg, Pa.

Dear Sir : What will it cost to Sold by E. R. McCiair. sow ten acres haif wheat and half daisy mixed, and what'll the crop be worth?

We don't know what daisy seed costs, nor how bulky it is; we suspect half wheat and half drisy would make a big crop of daisies, and last a long time; the wheat might be short.

The parable throws some light on the cost of a paint half whitewash. Whitewash, mixed halfand-half with paint, is all-paint in look and feel; indeed nine tenths of the "paint" in the stores is Philadelphia are visiting Mrs. part whitewash; some half, some more, some less.

Pont has to be spread with the brush, the surface prepared, the ladders, scaffolds, pulleys and ropes arranged and moved there's a great deal of labor in putting paint on; it costs \$2 to \$4 a gallon to do it.

What does it cost to paint white wash? Tust the same. Half whitewash? Just the same. It doesn't seem worth while, for the whitewash does harm, not good.

Will the paint hold the white wash fast, or the whitewash loosen the paint?

Better paint pure paint, the least gallons paint, the least money paint, Davoe.
