**MILION MORE FOR TEACHERS.**

Department of Public Instruction Makes Estimate on the Cost of New Snyder Bill.

An estimate made at the Department of Public Instruction, is that from half a million to one million dollars will be required annually to pay the increase granted teachers in the public schools by the Snyder bill enacted last winter.

Reports now being received from the 2,600 districts of the State, form the basis of calculation in making up this estimate. The reports show the number of teachers who will be affected by the act. The act increases the minimum salary of teachers from the present figure of \$35 a month to \$40 and \$50 a month, and at least one-fifth of the 28,250 teachers in Pennsylvania's public schools will be directly benefited. These holding provisional certificates will hereafter receive not less than \$40 a month, under the Snyder bill, and those who hold professional, permanent, or normal school certificates, and have had two years' practical experience, will receive not less than \$50.

The act became operative June 1 last, but the first payment of the school appropriations by the State under it, cannot be made until next June. The several districts must, however, pay their teachers according to the terms of the law and wait for the State to reimburse them. The last Legislature increased the school appropriation \$2,000,000 per annum and this increase will enable most of the districts to meet the increased salaries without embarrassment, although some districts, which depend practically entirely upon the State's appropriation to run their schools, may have to borrow money. Any district which does not pay the increased salary, will forfeit its share of the State appropriation entirely, so the teachers are sure of the increase.

The act by the last Legislature increasing the school appropriation to \$7,500,000 a year, will not become operative until next June, and appropriations now being paid are from the total appropriation of \$5,500,000 a year.

There are a great many people who have slight attacks of indigestion and dyspepsia nearly all the time. Their food may satisfy the appetite but it fails to nourish the body simply because the stomach is not in fit condition to do the work it is supposed to do. It can't digest the food you eat. The stomach should be given help. You ought take something that will do the work your stomach can't do. Kofol for indigestion and Dyspepsia, a combination of natural digestants and vegetable acids, digests the food itself and gives strength and health to the stomach. Pleasant to take. Sold by Trout's drug store.
