GIVE UP COLLEGE ATHLETICS, OR \$3,000,000---WHICH?

Swarthmore Puzzled Whether to Withdraw From Intercollegiate Sports as a Price For the Big Bequest of a Rich Quakeress.

Philadelphia.—By the will of Miss Anna T. Jeanes, member of one of the oldest and wealthlest of Pennsylvania Quaker families, Swarthmore College is to receive coal lands valued at, possibly, \$3,000,000 if it gives up forever all participation in intercollegiate athletics. If the trustees solemnly piedge themselves to forbid every possible form of physical contest with other institutions of learning, from football to lawn tennis, the lands on which are collieries paying heavy royalties go to the institution absolutely; if they fall to do this the property goes to other charities.

Miss Jeanes was almost the last immediate member of her family, and died recently in the Friends' Home, which she established. The surviving

Miss Jeanes was almost the last immediate member of her tamity, and died recently in the Friends' Home, which she established. The surviving members of the family are too wealthy to be affected by the disposal of the \$4,000,000 she left. All are strict adherents to the ancient faith and their wealth has come from the increase in values of property acquired genera-

Swarthmore College is a co-educational institution, maintained by wealthy Quakers of Philadelphia, on the outskirts of the city. It has always been distinguished for the athletic prowess of its students. Its football, baseball and lacrosse teams particularly have excelled, while it has produced several intercollegiate champions in general athletics. Members of the Jeanes family have from time to time helped the college, until to-day its productive fund is about \$\$900,000. Miss Jeanes was always opposed to athletics, holding they absorbed too much of the students' time and engendered harsh feelings between colleges. She made known this in her will.

The question of accepting the bequest came up at the fall meeting of the Board of Managers and a committee, consisting of Joseph Wharton.

the Board of Managers and a committee, consisting of Joseph Wharton, Charles F. Jenkins and Howard Cooper Johnson was appointed to investigate the lands and make a report to the board at the next meeting in De-

Mr. Wharton, who is one of the executors of the Jeanes estate, read that portion of the will of the Quakeress relating to the institution, and the board, several members of which are women, listened attentively. No one seemed auxious to give up the money, but none seemed willing to take the initiative in advocating the abolition of athletics.

While the committee is investigating the pulse of the college will be felt. From interviews with men prominent in the Quaker college affairs it looks as if the rift would be rejected. Dr. G. A. Hoadley, chairman of the Faculty Committee on Athletics, said:

"Athletics are the blood and bone of a college. They should not be cut out for any amount of money. The faculty are opposed to the acceptance of the gift under the conditions imposed."

Waiter Clothice, chairman of the Alumni Athletic Committee, says that so far as his committee goes he does not believe athletics should be given up for any amount. He is also credited with having said that the college would rather win a victory from the University of Pennsylvania on the athletic

would rather win a victory from the University of Pennsylvania on the athletic field than have the money.

Professor Hoag, who represents the liberal element of the faculty, said: "I talked with Miss Jeanes frequently about athletics. She was particularly opposed to football, as she said she had read so much in the papers about the accidents which attended the game. She was also opposed to the gambling that so frequently develops over games."

Herman Pritchard, captain of the football team, said: "We would rather have intercollegiate athletics than all the money left by Miss Jeanes, or even all the money in Wall Street."

Swarthmore enjoys at present an endowment of \$900,000. An addi-

Swarthmore enjoys at present as endowment of \$900,000. An addition of \$3,000,000 to its productive funds would place it at once on the financial standing of Brown, Princeton, the Northwestern University and the University of California, and within a million dollars of the University of Pennsylvania.

CHEAP FARES IN CLEVELAND.

Cleveland, Ohio.-The Cleveland Electric Railway is now selling street car tickets at the rate of seven for

car tickets at the rate of seven for twenty-five cents.

The announcement of the company says the experiment is made to show the public that the company is in cernest to its effort to give the Cleveland puoric practically three and a half-cent fare, which, it says, would be permanent if its proposition to the city is secepted.

The Field of Sports.

FRIENDLY MONKEYS

They Appear to Have a Decided Fellow Feeling For Us.

I have read somewhere a state-ment that the anthropid apes prefer our company to that of their fellow monkeys of lower degree, and I saw It proved once in Calcutta. The late W. Rutledge, for many years the leading animal dealer there and mine of natural history information, had a young one in his yard, and at my request opened its cage one day to to let it choose its society, when, quite disregarding the other monkeys, it immediately came over to

bim and climbed into his lap. A fair sized female we had at the Calcutta Zoo, also was a most affectionate creature. When I paid a visit to her she would always put her arm affectionately around my neck and while being caressed and played with would drop any food offered by other visitors. Another specimen of the same sex showed the less amiable side of its character by long refusing the donations of one member of the society because on one occasion he had first given something to the other monkeys in the sam , house.

But I think it was on my first introduction to the orang that the hidden humanity of the creature most impressed me. This was many years ago when Abraham Bartleit was at the London Zoo; he gave me a private interview with a little orang which had just arrived. The first thing the little imp did was to climb on my knee, take off my hat and put it on his own head, after which it proceeded gravely to pinch one of the superintendent's clids. In short, it examined us with a scientific curiosity which in a lower animal was decidedly impressive. This little man of the woods could not have choosen a more striking way of claiming kinsh! so often denied -From Ornithological and Other Oddi-

The Traitor's Cup.

Among the treasures which adorned the "den" of Sir Walter Scott was a china saucer-the memorial, according to the author of "Edinburgh Under Sir Walter Scott," of a striking incident in the domestic life of Scott's father and mother.

One autumn Mr. Scott, senior, had client who came regularly every evening at a certain hour to the house, and remained in his private room usually long after the family had gone to bed.

The little mystery of the unknown visitor excited Mrs. Scott's curiosity, and her husband's vague statements increased it. One night, therefore, although she knew it was against her husband's desire, she entered the room with a salver in her hand, and offered the gentleman a dish of tea. Mr. Scott very coldly refused it,

but the stranger bowed and accepted a cup. Presently he took his leave, Then Mr. Scott seized the empty cup and threw it on the pavement. His wife was astonished at first, but not when she heard the explanation. "I may admit into my house, on

business, persons wholly unworthy to be treated as guests of my wife, Weither lip of me or of mine comes after Mr. Murray, of Broughton's."

It was actually the traitor, Secretary Murray, who bought off his life and fortune by giving evidence against his gallant Jacobite associates.

A New Luxury For the President. The new Union Railroad Station at Washington will be supplied with & unique feature-a special entrance and reception room for the President of the United States. The President's 18 an archway of marble thirty feet in width, says Rene Bache, in the course of an interesting article in Harper's Weekly. "On alighting from his carriage beneath it, the foremost citizen of the nation will step into a vestibule of noble proportions—of the same width as the archway, and twenty feet in depth. In this vestibule the persons who accompany him will be waited upon by trained attendants, while the President himself will seek privacy in a room set apart for his exclusive use on the right hand adjoining. The President's Room, as it is called, will be most beautifully and luxuriously furnished. Costly Oriental rugs will cover the floor; the ceiling will be done in gold and color, and the walls will be paneled in blue silk. In the middle will be a table suitable for writing, provided with a solid silver inkstand and other appurtenances to match-this and all the articles of furniture being of mahogany. of this luxury will not cost the Chief Executive a penny, but will be paid for out of the pockets of the railroad companies."

The Best They Could Get.

William Jennings Bryan tells a ood story, at his own expense, of a time when he was not as well known

as he is now A widely admired campaign speaker in Nebraska, who had been billed to make the principal address at a political gathering at Lincoln, was obliged. at the last moment, on account of illness, to send word that he could not keep the appointment. It chanced that Mr. Bryan was selected to fill his place. Naturally, Mr. Bryan felt some nervousness, knowing that he was to act as a substitute for an older and much better known speaker, and his apprehension was not lessened when he heard himself

thus announced by the chairman; "Feller citizens, this here's the substitute for our gallant an' admired leader, unfortunately sick. I don't know what this gent can do; but time was short an' we had to take what we could git."--Success Magazine.

Underlying Japanese Humanities. It is the claim of Richard Barry, sye-witness of the operations at Port-Arthur and specially qualified to speak of the character and temper

of the Japanese solder, that one-tenth of Japan's male population "is possessed with the itch for conflict."

Worth nowing British soldiers are now supplied with a combination wagon cover, overcoat, waterproof sheet and tent.

Lawrence Washington, rector of Purleigh, A. D. 1633-1643, was the great-great-grandfather of George Washington. That fact is now established beyond question.

White horses are now used in the German army, the introduction of smokeless powder having made them too conspicuous.

Saxony is put down by the authoritles as having the largest suicide rate of any section of the earth, while Ireland has the lowest rate.

New Hampshire has a legislature composed of (17 members-393 representatives and twenty-four senators -the largest legislative body in the world, with a single exception of the British House of Commons.

Mrs. Homer Coleman, who occuples a little cottage at Cleeve, in the county of Somerset, is generally considered the oldest woman in England. She is 107 years of age. Her mother was a centenarian, her grandmother died at 101 and her daughter in eighty.

Dermatologists now tattoo a permanent blush on the cheeks without injury to the flesh or skin.

Of the fifty-six signers of the immortal Declaration of Independence, thirty-eight were of English blood seven of Irish, five of Scotch, six of Welsh and one of Swedish. Of the occupations of the signers, twentyeight were lawyers, five were doctors, five were farmers, four were politicians, ten were merchants, one was clergyman, one a printer, one a manufacturer and one a surveyor. Out of the fifty-six signers, fifteen were rich, the rest being in easy circumstances.

One of the historic bells in Switzerland is the silver bell in the minster of Berne. It rang "for the service of God, the festivals of State, and the execution of the evil-door. When the forces of the young French republic captured Berne in 1798, the citizens painted it a funeral black, and under this disguise it escaped from the rapacity of the Gauls.

Trout fishermen in the East have cause for amazement and envy in the news that a three-foot, twenty-pound salmon trout has recently caught in Colorado. This does not appear to be open to the suspicions that attach to the ordinary fish story, for the big trout, the largest ever caught in Colorado, is now being mounted for exhibition in one of the Denver railroad offices, and his dimensions seem pretty well catab-Hahed.

BIG SUIT OVER SMALL SUM.

Frenchman Piles Up Costs Against a Railroad For an Overcharge.

A wealthy Frenchman recently bought a ticket at a Paris railway terminus, but missed the train he in-tended to take. While waiting for the next train, which left two hours later, he studied the company's tariff to pass away the time.

He then found, says the Railway and Engineering Review, that he had been charged fourteen francs-fortyfive centimes, whereas the proper fare was only fourteen francs fortytwo centimes. He asked for his money back at the office, but without result. An interview with the station master was also unsuccessful. He afterward wrote a number of letters to the company, but received no answer. He then commenced an

action to recover the three centimes. He won the action in the lower court, but the company took it to the appeal court, afterward to the Cour de Cassation. Both courts dismissed the appeal and the company was ordered to pay the plaintiff the three centimes. The cost to the company amounted

to 8250 francs, or \$1650.

A Second Empire Wager. The following is from "The Curiosities of Sport," by George Hibbard, in the Metropolitan Magazine: wager made in Paris during the Second Empire furnished a very good example of one of these sport." A foreign prince staying in the city by the Seine, offered at one of the important clubs to wager that he

would be arrested without committing any offense or provoking the authorities in any way. The bet or wager was accepted. When the time came for the accomplishment of his purpose the prince appeared arrayed in the most disapidated garments. At the hour of the aperitif he entered a celebrated cafe of the Boulevards. As was natural, the garcon, distrusting his appearance, demanded that he should pay in advance for what he ordered. To this he readily agreed. He drew from his torn pocket a roll of notes of great value, which he permitted the waiter to see giving him one of a large figure. The man, whose suspicions were excited, immediately told the proprietor of the establishment what he had seen A sergent de ville was summoned. The prince was led to the nearest station. There he made his expla-nations and was set free, the ac-

knowledged winner. A Graceful Withdrawal.

"Do you know who that old gentle-man is, tilking to our hostens?" asked Mrs. Blunderer of the lady sitting "That," answered the lady coldly,

"is my son,"
"Oh!" gasped Mrs. Blunderer in confusion, "he's a good deal older than you are, is be not?"—Lippin-

Why The Lightning Struck. Attorney General Jackson, of New York, was critising in Albany a certain excuse that had been offered him. "It was a slim excuse," he said. "It reminds me of the excuse

of the lightning-rod agent. "In the days when all the world swore by lightning rods a farmer had two costly ones put upon the new barn. But only a week or two later there came a violent thunder-storm, the barn was struck, and in a few hours all that remained of it was a heap of charred, black refuse. "Next day the farmer sought out the lightning-rod agent.

'Fine lightning rods you sold me!' he shouted. 'Here's my new barn been struck and burnt to ashes!' "'What!' said the agent. 'Struck

by lightning?"

Yes, air; by lightning." "'In the day time?' "No; at night. Last night."
"The agent's puzzled frown relaxed a little.
"'Ah," he said. 'It was a dark

rasa t it 'Of course it was,' said the far-'It was pitch dark.'

'Were the lanterns burning?' " 'What lanterns?'

"The agent looked amazed, incre-'Why,' he said, 'you don't mean to tell me you didn't run up lanterns on the rods on dark nights?'

"'I never heard of such a thing,' shouted the farmer. 'Run lanterns up! Why'"'Well,' said the agent, 'if you

don't know enough to keep your lightning rods showing you can't blame me."

Mulberry Juice On Inflamed Spres "Juice from the old-fashioned mul-berry rubbed over an inflamed sore will rid it of all inflammation and cure it up in a few days," said J. L. Parks, of Carters Creek, at Hartmans. "My father used to use the juice of a mulberry for sores whenever any of us children hurt ourselves in any manner He would gather a lot of the berries in season, squeeze out the juice add a little alcohol to preserve it, and bottle it up for future use. It is certainly fine for the purpose used, and ac-complished a hundred cures right in our family."—Nashville Tennessean.
