Our friend A. W. Deshong, of Andover, was in town a few hours Monday and dropped into our sanctum for a little chat with the editor. Abram said he had three runt pigs that he got tired of feeding corn to, and butchered them a few days ago, and to his surprise they dressed 1653 pounds.

It is very important and in fact it is absolutely necessary to health that we give relief to the stomach promptly at the first signs of trouble—which are belching of gas, nausea, sour stomach, headache, irritability and nervousness. These are warnings that the stomach has been mistreated; it is doing too much work and it is demanding help from you. Take something once in a while, especially after meals; something like Kodol For Dyspepsia and Indigestion. It will enable your stomach to do its work properly. Sold by Trout's drug store.

Dr. J. J. Palmer, who has been absent from his practice at Needmore, taking a special course of lectures on both general medicine and the treatment of diseases of the eye and ear, spent Christmas attending the wedding of his wife's sister. Dr. and Mrs. Palmer have returned to Chicago, and after some more lecture business there, will soon be back on his practice.

If a cough once gets into your system it acts on every muscle and fibre of the body and makes you ache all over. It especially affects the intestines and makes you constipated, so in order to get rid of a cold thoroughly and without delay you should not take anything that will tend to constipate. Kennedy's Laxative Cough Syrup acts upon the bowels and thereby drives the cold out of the system. It contains no opiates—it is pleasant to take and is highly recommended for children. Sold by Trout's drug store.

Making the Pad.

It is just as much of an art to make a good pad as it is to make good cake. The attractiveness of a clean, smooth, orderly made bed, is the result of but little practice.

Strip a bed clothing off and shake it well. See that the mattress is turned frequently, then cover with a pad or cotton blanket. Have the under sheet tucked all around tight, and you will never have to lie on wrinkles. Tuck the upper sheet generously under at the foot and have it long enough to leave plenty to fold over at the top. Lay the blankets so that the upper edge will come about eight inches from the top of the mattress. Tuck the sides, fold over the sheet so as to protect the blankets from coming in contact with the body, and you will insure cleanliness. Then cover all with a clean, washable spread. This should not be used at night, but should serve to protect the bed clothing during the daytime.

Place a soft "comfort," folded in a neat roll, across the foot. Pull up the pillows and stand them at the head, and you will have a bed that will be inviting and sanitary.—Success Magazine.

Thanks.

Dear Editor:—Another Christmas Day is past, and we wish to return our thanks (through your paper) to the members and friends of the Pleasant Grove church, for their kind remembrances in donating to us of their substance; such as, flour, wheat, corn, oats, meat, fruit, sugar, coffee, etc., and on going to the postoffice, I was handed a letter which contained a one dollar bill. The letter was the bill itself—it was not hard to read. I do not know who gave it, but have some suspicion, so I thank the kind friend, hoping that God will bless all the donors.
