In a letter dated the 29th ult. from Dr. H. S. Wishart at Johnstown, he says that Mrs. Wishart is still in bad health, but that he is hale and hearty, and both expect to return to McConnellsburg as soon as winter breaks. The Doctor says that he has kept a ville record of the snows this winter, and that up to the date of his writing, there had fallen fortysix snows. Johnstown is suffering the effects of the panic, and the worst not in sight. In closing he says, "I'm for Bryan and Berry."

Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indiges-tion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indi-gestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital ergan becomes diseased. Mr. D. Kauble, of Nevada, O, are: 1 hed stomach Mr. D.
