Worth Knowing.

When beating eggs add a pinch of salt to hasten the process.

Custards and cereals should always be cooked in a double boiler.

A little flour sprinkled over the top of a cake will prevent the icing from running.

Adding a spoonful of molasses to quickwheat batter will make the cakes fry a delicate brown.

To remove old putty from window frames pass a red-hot poker slowly over it and it will come off easily.

A little rich, sweet cream spread over the top crust of a pie just before it is put into the oven will make it brown and flaky.

Use hot water and no soap for all fruit stains. Use cold water and soap for tea, coffee and cocoa stains.

Milk remains fresh longer in a shallow basin than it would if kept in a deep jug.

To clean knives easily take a flat cork, dip it in slightly moistened knife powder and blade till all stains are removed. Then wipe with a duster.
