I consented to try it to please him and I was better in one day. I now weigh more than I ever did in my life and am in better health than for many years. Kodol did it. I keep a bottle constantly, and write this hoping that humanity will be benefited. Yours very truly, Jake C. Moore, Atlanta, Aug. 10, 1904." Sold by Trout's drug store.

**LATEST IN FASHIONS FOR ALL THE WOMEN.**

The North American's Big Spring Number Coming March 22.

In its issue of March 22 The North American is going to do something that will make up interest among the women of this community, especially among the dressmakers and the women who want to keep up to the minute in matters pertaining to dress.

This issue of the paper will be the spring and summer fashion number of the paper. It will illustrate and describe the very latest fashions of France and America in drawings and photographs in such a way as no American newspaper has ever done.

There will be drawings by Jeanette Hope, who in Paris looks at French fashions with an American eye and knows what will appeal to the good taste of those at home. Miss Hope will furnish two pages of drawings for this edition.

A staff of fashion diplomats has got behind the scenes of the great French workshops, and will give all that is latest in French blouses and suits and gowns in excellent photographs. Accessories of dress for women will also be pictured in photographs. A page will be given to new Paris hats.

The American staff has outdone itself in furnishing photographs and descriptions of the best that there is in American suits and gowns and the newest in dressy things for children.

The dressmakers, through The North American, will get the very latest models from which to furnish their patrons with the latest things for spring. They will find the spring fashion number something worth seeing and keeping.

**Blue and White Canton China**

There seems to be a peculiar fascination for this product of the city of Canton, in China. How long the Chinese have made the Blue and White ware with its never varying decoration, we shall probably never know, but we may rest assured that it has been made and made exactly the same way it is made to-day, for a great many centuries. The ware is all made by hand which accounts for the great irregularity in shapes, sizes and finish. Our stock of this quality, beautiful china includes three sizes of Coffee Cups and Saucers, Plates, etc. Odd pieces ranging in price from \$1.00 and upwards, Bowls, Platters, Soup and Vegetable Dishes, A. D. Cups and Saucers, etc.
