Letter to Geo. Rexroth. McConnellsburg Pa.

Dear Sir: Ten years ago, there was one pure paint and 200 adulterated; there are now eight pure, 200 adulterated, about half Wm Diehl's tract of mountain sides.

There is still but one best, and the difference is ten gallons Devoe goes as far as eleven nextbest-\$5-in every ten gallons.

paint; it is strong. Strong paint goes further and wears longer; weak paint takes more gallons and wears-out sooper.

The proper cost of a 10 gallon job is \$50. Paint that takes 11 gallons makes it \$55. Paint that takes 12 gallous makes it \$60. Ass't Sec. Miss Ada Hoopen it \$65. Paint that takes 20 gal. broke on the equalizing saw at lons makes it \$100.

The \$50 job wears twice as long days. as the \$100. These figures are not precise; they are round. The 10 gallon paint is Devoe.

Yours truly

Cheer up 1 Spring time is here once

We are glad to say that Mrs. John Hoover, who has been ill for several weeks is able to be around again. A. V. Woodcock is sick at this writing. Mumps seem to be the trouble. The educational meeting at Ches-

nut's school, last Friday evening, was well attended, and the Hustontown teachers report a very interesting meeting. John Martz, who has been proprie-

or of the Indian Queen Hotel here for the past three years, has moved to the farm just vacated by Nick Purcell. Mrs. Jennie Downs has moved into

the Hotel, and is ready to receive all customers. First-class accommodations will be furnished.

Mr. George Clevenger has bought Rev. Daniels' horse and buggy. Wesley Our new preacher Rev.

Cline was in town last Monday. He expects to move into the parsonage here the latter part of the week. The time of year is here for unto lean up around our properties, and add to the beauty of our little town.

You don't often find any cleaner or more beautiful country village than ours-especially in the "good old summertime,"and we are glad that the people take pride in making it such. Some of our best weather prophets predict several snows yet. But we hope that such will not be the case, for we would much rather have real spring.

tion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indi-gestion. All food taken into the stomach which fails of perfect digestion ferments and aveils the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ hecomes diseased. Mr. D.
