Kodol For Dyspepsia has helped thousands of people, who have had stomach trouble. This is what one man says of it: "E. C. DeWitt & Co, Chicago, Ill.—Gentlemen—In 1897 I had a disease of the stomach and bowels. I could not digest anything I ate and in the spring of 1902 I bought a bottle of Kodol and the benefit I received from that bottle all the gold in Georgia could not buy. I still use a little occasionally, as I find it a fine blood purifier and a good tonic. May you live long and prosper. Yours very truly, C. N. Cornell, Roding, Ga., Aug. 27, 1906." Sold at Trout's drug store.

Did you ever notice that tobacco is always clean? If a man drops a piece of meat, no matter how clean the floor may be, he will either give it a kick or pick it up and lay it to one side. He will never eat it. But let him drop his plug of tobacco on the ground and no difference how dirty the spot where it fell, he will pick it up and give it a careless swipe on his coat sleeve or on the bosom of his pants and then take a chew with great or relish than ever.

An Insidious Danger.  
One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Remedy at the first sign of trouble as it corrects irregular arteries and prevents Bright's disease and diabetes. Trout's drug store.

A Word for Davis.  
DEAR EDITOR:—

For the benefit of the voters of Fulton County who do not have the honor of a personal acquaintance with Dr. A. K. Davis, candidate for legislature on the Democratic ticket, we wish to give them a few facts in regard to his qualifications for this office and incidentally mention a few facts about his "home life." With all due respect to the other candidates, and to the intelligence of the voters of Fulton County (which we think are above the average) we mention these facts that the voters who are not personally acquainted with the Doctor, may vote more intelligently and with the assurance that an X marked opposite his name on April 11th is a mark well placed.

Dr. Davis has been a willing and active worker for the cause of Democracy for 33 years and during that time has never asked the voters of his county for any public office, with the single exception of Coroner, and this he did not seek. He is always found in the front ranks working for the nominee, regardless of whom he may have worked for prior to the nomination. His stable full of horses is always at the disposal of the voters of the community free of charge on all election days. Not only is he a good public speaker and somewhat of an orator, but he has that faculty of being able to grasp any subject quickly, and his comments on the subject are generally to the point. Davis is a good straight Democrat and a man of ability and could be trusted to faithfully and intelligently represent the voters of Fulton County at Harrisburg. If nominated and elected, we can safely say that he will not be a representative of the few but a representative of the majority of the voters of Fulton County. Now Mr. Voter, in view of the above facts, do you not think that he should be rewarded in his declining years for his untiring efforts in the cause of democracy, by giving him this nomination and election? Personally, we think this county owes the Doctor this nomination and election.

Literally speaking, Dr. Davis is a true representative of the word democracy. He is always the happy congenial, sunny dispositioned "Doc" to every body, at all times and at all places. He is regarded as being almost indispensable to any public social affair held in the community, being a good entertainer and always willing to serve in any capacity in order to make the affair a success. He is known by the people in the community as being one of the most liberal of contributors to any good cause and we can say without fear of contradiction, that more young men in the north end of Fulton County owe their success in life through the aid and assistance, financially and otherwise, of Dr. Davis than any one individual in the community wherein he lives.

In conclusion we wish to say that Dr. Davis is not a party to this communication nor does he know of its origin. The writers are personal friends of his, some of whom are not residents of the county at this writing, but knowing the candidate so well, could not help saying a good word in his behalf.

**What The New 1908 De Laval Cream Separators are Doing.**  
Reports are arriving in every mail from Maine to California and Canada to Florida, telling of how the New Improved De Laval Cream Separators are sweeping all would-be competition aside. Cow owners and separator users everywhere cannot say enough in praise of the new De Laval. Even competitors are admitting its vastly increased superiority and marvelling at its many conveniences, perfect skimming qualities, ease of running, great simplicity, durability and beauty of design. The new De Laval is ten years in advance of any other separator made to-day. Nothing like it has ever been produced before and to have done so now is only possible after three years of constant experimenting by the world's best engineers and mechanical experts backed up by our thirty years of experience in the manufacture and sale of nearly a million separators. Improvements have been made in every feature and several brand new styles and capacities introduced. There is a machine for every size dairy from the smallest to the largest and at a price that will fit every pocket, while you may buy for cash or on terms so liberal that the machine will actually pay for itself.  
If you own one or more cows you can make no more profitable investment than to purchase a De Laval machine at once. It will save its cost in less than a year and after a week's use you will prize it as the most valuable implement on your farm. Ask for a free demonstration at your own home and send for our handsome new catalogue illustrating and describing De Laval machine in detail. Your only regret will be that you didn't do so sooner. Write to-day for Catalogue or call on
