COMMERCIAL COLUMY Weekly Review of Trade and Latest

Market Reports

R. G. Dun & Co.' s Weekly Review of Trade says: Sales of pig fron have been made Sales of pig fron have been made at lower figures than at any time since the decline began, although regular quotations are nominally unchanged. Fornaces that have begun to accumulate stocks, however, make concessions rather than reject offers. Some finishing mills have also sought raw material more freely and the net result is a better tonnage of pig iron, although it is estimated that little more than 50 per cent, of the steel-making capacity is now in operation. Demand is still best for tin plate. with the wire and pipe trades next in point of activity, but the railways do not place much business, although small orders for rails are noted and many contracts for equipment are un-der consideration. Sharp competition for business in light rails has produced lower prices in that line, but as a rule the level of quotations for finished steel products remain unal-

Fall buying is still light in the men's wear division of the woolen goods market, although inquiries are more numerous and the net result

The increased interest of johbers in the foowear market that was nolast week has not been main tained, manufacturers reporting less demand, and it is believed that pressing needs were satisfied. More activity occured in the Boston leather market, chiefly in union sole, but lower prices were named on lightweight stocks, which constituted most of the 50,000 to 60,000 sides purchased. Exports have increased, shipments from this city for the last week running three or four times greater than has been the rule of Hides maintain the recent improvement, in activity and prices, while some descriptions have made further gains.

Was Bound To Win.

Edward McIntyre, a Minnesota young man, has set an example of combined patience, endurance, and foxiness that it would be hard to An abandoned homestead near Estevan, Saskatchewan, was thrown open to entry, and animated was the scramble therefor. McIntyre took pains to be the last inquirer at the land office on the day previous to that set for the filing. Then he stationed himself on a chair in the corridor, with his hand on the knob of the land office door. And there he stayed till the office opened in the morning, a vigil of seventeen hours. Many others had gathered from all directions to get a chance at the homestead, but McIntyre was the winner. Whenever Western Cana-dians want to be shown a trick or two, let them apply to Gopher genius. -St. Paul Dispatch.

Civilization.

A commotion was caused in the Boulevard Haussmann the other day when one of the best known women in Paris got out of an elegant motor car leading by a silver chain a tiny poodle dressed in the height of fashion. The dog was wearing a pigskin collar adorned with gold coins and a little fur coat with a side pocket, from which peeped a small lace hand-kerchief, while its little feet were protected from the damp by indiarubber shoes. In the poodle's ears were two pairs of diamond earrings, one pair in each ear, the ears being pierced at the base and at the tip. The feelings of this darling pet wer dogfully repressed. He appeared abindifferent to the excited glances bestowed upon him and his mistress.-Boston Herald.

WAS DELIRIOUS WITH ECZEMA.

Pain. Heat and Tingling Were Excruciating-Cuticura Acted Like Magic.

Magic.

"An eruption broke out on my daughter's chest. I took her to a dector, and he pronounced it to be eczoma of a very had form. He treated her, but the disease aprend to her hack, and then the whole of her head was affected, and all her hair had to be cut off. The pain she suffered was excruciating, and with that and the heat and tingling ber life was almost unbearable. Occasionally she was delirious and she did not have a proper hour's sleep for many nights. The second doctor we tried afforded her just as little relief as the first. Then I purchased Cuticura Sosp. Ointment, and Pills, and before the Ointment was three-quarters finished every trace of the disease was gone. It really seemed like magic. Mrs. T. W. Hyde. Brentwood, Essex, England, Mar. 8, 1907."

Carries Its Own Light.

Carries Its Own Light.

One of the most curious of all known phosphorescent larvae is found in British Gulana, near the Brazilian border, where it is known to the natives by the name macadoub. It is believed to be the larvae of some beetle. A specimen was recently carried to England by C. W. Anderson and exhibited, dead, at a meeting of the Linnean Society, When living the creature shows a ruby light in its head and a double row of phosphorescent spots along the body, two on each segment. The lights are not intermittent, but glow continuously.—Indianapolis News.

MACHINE-GROUND PAINT.

Occasionally one hears the "handmixed" paint of the painter slightingly spoken of as "unscientific" and
"not thoroughly mixed." The facts
are all on the side of the painter and
his hand—prepared paint.

It is the most "scientific" paint
there is, because it is made on the
spot to suit the particular purpose
for which it is to be used. It is as
scientific as a good doctor's prescription. If the painter did not mix it
thus it would be as unscientific as a
patent medicine. Moreover the paint
which a good painter turns out is
made of genuine white lead and pure
linseed oil. It he does not mix it himself he is not sure what is in it hand
consequently his client cannot be sure.

As for not being shoroughly mixed

As for not being horoughly mixed by machinery, that is simply a misstatement. White Lead as made by National Lead Company is thoroughly incorporated with 7 or 8 per cent. of pure Linseed oil in the factory, making a paste. This paste need only be thinned with additional linseed oil to make it ready for the hyperb

make it ready for the brush.

The thorough incorporation of pigment and oil has already been accomplished before the painter gets it.

To know how to tell pure white lead is a great advantage to both painter and house-owner. National Lead Company will send a tester free to anyone interested. Address the company at Woodbridge Building, New York, N. Y.

Cleave to the good and use the

This woman says she was saved from an operation by Lydia E. Pinkham's Vegetable Compound. Lena V. Henry, of Norristown, Ga., writes to Mrs. Pinkham:

"I suffered untold misery from female troubles. My doctor said an operation was the only chance I had, and I
dreaded it almost as much as death.

"One day I read how other women
had been cured by Lydia E. Pinkham's
Vegetable Compound, and I decided to
try it. Before I had taken the first
bottle I was better, and now I am entirely cured.

For thirty years Lydia E. Pink-ham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bear-ing-down feeling, flatulency, indigesion, dizziness or nervous prostration.

Why don't you try it? Mrs. Pinkham invites all sick women to write her for advice. the has guided thousands to lealth. Address Lynn, Mass. The Doctor And His Reward.

In the same issue of an Easter newspaper appear two items concerning the medical profession. One is about a bold and resourceful surgeon who sewed up a knife wound in a dying man's heart, the other cites the fact that, as doctors are shortlived, they are extrahazardous insur-ance risks. Here is both the service in the cause of huma-uty and the sacrifice, the labor and the reward. The doctors are so pear to us, play so intimate a part in our living, that, as if by their very closeness, we are blind to the extraordinary exertions they have made for the general com-

fort and happiness
But for the doctor the Southern cities would still be suffering those wild panies of other days when yellow fever entered port. He has caused swamps to be drained, sewers be laid, streets to be swept and flushed and hospitals to be built Panama Canal Zone, which under the French regime, was a highway of death, now is more healthful than many a Northern community with the same number of inhabitants. To know a medical practioner is to know one superior to the average educated Few professors develop such character. The occupation of healing, of beholding men and women and children at their worst, irritable, unreasonable and often cewardly, has not, fortunately, caused his own generation. His capacity for thoughtfulness is trained to keenness, his selfishness, where there is any, is shrewdly hidden, and the human instinct for enjoyment is not the less its reactions-Cleveland Leader.

How Machinery Multiplies Power.

The forthcoming report of the United States Commissioner of Labor will afford some interesting informa-tion on this topic. Aided by machinery, 4,500,000 men turn out a prod-uct which would require the labor of nearly 40,000,000 men if pro-duced by hand. In America the adderived from machinery is about twice as great as Europe, so that the actual population of the United States is equal in productive power to 150,000,000 Europeans. With labor-saving machinery, one generation of men can do the work of four or five generations of hand workers.

BORAX, NATURE'S DISINFECT. ANT, CLEANSER AND PURIFIER.

Everybody realizes the necessity of ome method of purification of sinks, draine and usensils in which may lurk the germ of a dreaded disease. Health is a question of cleanliness

and prevention. Most people are familiar with the use of disinfectants in their ordinary sense-all of which are unpleasantly associated with disagreeable odors, on which are depended to kill the contagion (which disinfectants must of necessity be of a more or less dangerous character) and must be used for this purpose and for no other, and in consequence kept from children

and careless handling. There is, however, within the reach of all our readers a simple, safe and economical article that will-not only answer for every disinfecting purpose -but can also be used for a multitude of domestic cleansing and purifying purposes-Borax.

Borax is a pure, white harmless powder coming direct from Nature's laboratory; in fact Borax has often been called "Nature's Cleanser and Disinfectant." Two tablespoonfuls of Borax in a

grease-choked pipes of a sink, or flushed through a disease-laden drain, cleanses and purifics it, leaving it clean and sweet. sick room can be made hygienically fox. clean and snowy-white, if washed in

pailful of hot water poured down the

a hot solution of Borax water. Kitchen and eating utensils, used during illness will be kept from all possibility of contagion if Borax is used when washing them. Pure as snow and harmless as salt, and because it can be used for almost every domestic and medical purpose, Borax must be considered the one great household necessity.

There is a large demand for pens in Italy. The most popular style is long and pointed, pierced three times above the crack. An Italian educa-tional rule says that this form must

Catching Cold on the Street Car

NO ONE CAN ALWAYS AVOID

Many people persist in riding on the street cars, insufficiently protected by elothing. They start out perhaps in the heat of the day and do not feel the need of

They start out perhaps in the heat of the day and do not feel the need of wraps.

The rapid moving of the car cools the body unduly. When they board the car perhaps they are slightly perspiring. When the body is in this condition it is easily chilled. This is especially true when a person is sitting.

Beginning a street car ride in the middle of the day and ending it in the evening almost invariably requires extra wraps, but people do not observe these precautions, hence they catch cold.

Colds are very frequent in the Spring on this account, and as the Summer advances, they do not decrease. During the Spring months, no one should think of riding on the car without being provided with a wrap.

A cold caught in the Spring is liable to less through the entire Summer. Great caution should be observed at this season against exposure to cold. During the first few pleasant days of Spring, the liability of catching cold is great.

No wonder so many people acquire muscular rheumatism and catarrhal discuses during this acason.

However, in spite of the greatest precautions, colds will be caught.

At the appearance of the first symptom, Peruna should be taken according to

during this season.

However, in spite of the greatest precautions, colds will be caught.

At the appearance of the first symptom, Peruna should be taken according to directions on the bottle, and continued until every symptom disappears.

Do not put it off. Do not waste time by taking other remedies. Begin at once to take Peruna and continue it until you are positive that the cold has entirely disappeared. This may save you a long and perhaps serious illness later on.

Bad Effects From Cold.

Mr. M. J. Deutsch, Secretary Building
Material Trades Council, 151 Washington
St., Chicago, Ill., writes:

"I have found your medicine to be unusually efficacious in getting rid of bad effects from cold, and more especially in driving away all symptoms of catarria, with which I am frequently troubled.

"The relief Peruna gives in catarrial troubles alone is well worth the price per bottle. I have used the remedy for several years now."

Spells of Canada.
