Are the Source of Most of Women's Sicknesses.

Mrs. Rebecca Mock, 1795 E. Rich Street, Columbus, Ohio, writes: "I believe I would still be a victim of kidney troubles but for Doan's Kidney Pills, for when I started using them I was in constant pain with my back, and no other remedy had been of any use. The kidney secretions were irregular, and I was nervous and lacked energy. But Doan's Kidney Pills gave me prompt relief and continued use cured me."

What He Wanted.
Concluding his lecture, the foreign missionary solicited contributions of money from the audience, however small they might be. One little boy hastened toward him and began: "Please, sir, your talk interested me very much—and—"
"Go on, my boy," said the lecturer, encouragingly; "do you wish to help in the good work?"
"Not exactly, sir," replied the lad, with some hesitation; "I only wanted to know if you have any foreign stamps you don't want."

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address E. J. Cheney & Co., Toledo, O.

How I Cured Sweeney and Fitts.

"I want to tell you how I saved one of our horses that had a fistula. We had the horse doctor out and he said it was so bad that he did not think he could cure it, and did not come again. Then we tried Sloan's Liniment and it cured it up nicely. "One day last spring I was plowing for a neighbor who had a horse with sweeney, and I told him about Sloan's Liniment and he had me get a bottle for him, and he cured his horse all right, and he goes off now like a colt. "We had a horse that had sweeney awfully bad, and we thought it was never going to be any good, but we used Sloan's Liniment and it cured it up nicely. I told another neighbor about it and he said it was the best Liniment he ever used. "We are using Sloan's Sure Colic Cure and we think it is all right."

The Music of The Spheres.
The ancients were of the opinion that the planets in their orbits through space produced severally the seven notes of the gamut.

This music, it was contended, was imperceptible to human ears on account of the fact that it was too powerful for our hearing. Others held that men did not hear it simply because they were used to it, just as we do not notice the roar of the city from our constant familiarity with it.

This woman says that after months of suffering Lydia E. Pinkham's Vegetable Compound made her as well as ever.

Mrs. Maude E. Fergie, of Leesburg, Va., writes to Mrs. Pinkham: "I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. For months I suffered from feminine ills so that I thought I could not live. I wrote you, and after taking Lydia E. Pinkham's Vegetable Compound, and using the treatment you prescribed I felt like a new woman. I am now strong, and well as ever, and thank you for the good you have done me."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?
Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

"AMERICAN NAVY EQUALS THE WORLD"

That is, Ship for Ship, Says Sir William White—Stands Next to British, as a Whole—Answers Magazine Writers—Thick Waterline Armor Belt a "Fetich," He Asserts—Reasons For the Broken Ammunition Hoist.

Boston, Mass.—"You have a fleet that, ship for ship, comparing the ships designed at a given date—and that is the only fair comparison—is equal to anything of the world contains. And next to the British navy, I think your navy is the best in the world." This opinion was voiced by Sir William Henry White, K. C. B., former Director of Naval Construction to the British Admiralty, in the course of an extended interview. Talking up magazine criticisms of the American navy, Sir William took issue with nearly every point raised by the writers, declaring they "are all wrong as to facts."

The thick waterline armor belt, upon which the best known critics were mostly in the ship depends, he characterized as a "fetich" which was abandoned by the British Admiralty many years ago, and mistakenly reverted in the Dreadnought class in making a redistribution of weight rendered necessary by the great number of twelve-inch guns. As to the Dreadnought, which was used as a basis of comparison, Sir William pointed out that her thick armor belt is from a foot to eighteen inches below the surface of the water when she is fully laden, while the armor belt of ships of the Connecticut class, under the same conditions, is from six to nine inches above water.

SETTLEMENT WORK ROUNDLY DENOUNCED

W. H. Allen Says Most of the \$20,000 Spent on Playground Was For Pictures of It.

Chicago.—William H. Allen's blunt assertion that settlement workers were mostly inefficient and incompetent, coupled with many other disagreeable declarations, has brought an avalanche of denunciations from the settlements on the New York man's head. Mr. Allen is secretary of the Bureau of Municipal Research of the city of Chicago, and is endorsed by organized charity here. The Social Economists' Club was told that the charities and philanthropies which it represents are just so much misdirected and misdirecting effort and wasted money.

As a climax Miss Rebecca Holmes, of the Bureau of Charities, who ventured the opinion that woman suffrage would cure all the evils pointed out by Mr. Allen, was told by the speaker that woman suffrage would simply mean a golden era for confidence men and the perpetuation in office of grafters and incompetents. Mr. Allen declared the best possible results in all lines of social service are to be attained through the Government and not through private agencies, and the best use to which private philanthropy and volunteer efforts at social service could be put would be the aiding of public social service.

SACRILEGE INVOLUNTARY.

Fellbogens Say They Were Taken by Surprise—Leave Rome to Escape Penalty.

Rome, Italy.—Professor Fellbogen and his family, who recently in the Shrine Chapel of the government had been administered to them, spat the sacred breads on the floor, have left Rome to escape punishment for sacrilege. Professor Fellbogen is a man of high character, and it is said that he could not have committed the sacrilege voluntarily. Indeed, he is deeply grieved at the occurrence.

GOVERNMENT ESPIONAGE SYSTEM EXTENSIVE

Washington, D. C.—That there has existed in Washington for years a Government espionage system as secret as any ever maintained in St. Petersburg was brought out in testimony before the Appropriations Committee. Assistant Chief of the Secret Service Moran testified that detectives from his bureau were employed by all departments of the Government in violation of law, and that they were used for many secret purposes, from following Government clerks to gathering evidence against an Annapolis midshipman, which evidence was afterward used in a divorce action. Moran was a most unwilling witness, and the record of the hear-

Oil Fuel For Only Two of the New Destroyers.

Washington, D. C.—Oil-burning apparatus is to be installed on only two of the five torpedo boat destroyers now under construction, the bids for such installation on the remaining three being regarded as excessive. No changes are to be made on these destroyers, which will be completed according to the plans and specifications providing for coal consumption. The cost of the installation of the oil-burning apparatus on the two vessels will be about \$25,000.

Conductors' Car Legs.

"Conductors have to get their 'car legs' just the same as sailors have to get their sea legs," observed a passenger on a West Fourteenth Street car. "The conductor on this car nearly falls down every time the car starts up. That's because he hasn't been a conductor but a few days. The average conductor, if you'll notice him, never falls against the passengers, no matter how much the car rocks. He can always retain his equilibrium, and without any apparent effort."

HOW TO TEST LINED OIL.

There is nothing that will make paint go wrong on the house more quickly than poor oil. It is as bad in its way as adulterations in the white lead. Petroleum oil cheapeners may be discovered by placing a drop of the oil on a black painted surface. If one sees the characteristic iridescence or play of colors which kerosene exhibits, it is evidence of adulteration. Corn and fish oil can be detected by the smell. Adulteration in white lead can best be discovered by the use of a blow-pipe, which National Lead Company will send with instructions free to anyone interested in paint. Address, National Lead Company, Woodbridge Building, New York City.

Height of Great Men.

The Duke of Wellington was always been a mystery. I have read that he was six feet four inches tall. I have read also that he was only five feet six inches. Historians tell us he was anywhere from five feet six inches to five feet eleven inches. There are some things, seemingly very simple which it is impossible to establish; this is one of them. Historians are still guessing the height of Julius Caesar, the height of Hannibal's head, the weight of Alexander the Great, and the general dimensions of Solomon. Why, we are not even sure of the stature of George Washington. It might be believed that Napoleon, Alexander the Great and three humpious little chaps. And it is common belief that Charles-magne, Erling the Bold, Frederick the Great, Robert Bruce, Sir William Wallace, Gen. Winfield Scott, and Richard Coeur de Lion were all topnotchers, "Old Fuss and Feathers," and that the prodigality of nature, leading in girth and weight.—New York Press.

Couldn't Whistle It Back.

Phil was taking his little sister Beatrice on a short trip by rail. As the train sped along, he said to her, warningly: "Be careful not to lose your hat, Beatrice." "Then, snatching it from her head, on the sly, he exclaimed: "There! You've let it blow away. But never mind, I shall whistle it back for you." Thereupon he whistled, and immediately produced the hat. A short time afterward he was chagrined to hear Beatrice ask: "Won't you whistle my hat back again, Phil? I threw it out the window."

Brain and Nerves Restored by Grape-Nuts Food.

The number of persons whose ailments were such that no other food could be retained at all, is large and reports are on the increase. "For twelve years I suffered from dyspepsia, finding no food that did not distress me," writes a Wisconsin lady. "I was reduced from 145 to 90 lbs., gradually growing weaker until I could leave my bed only a short while at a time, and became unable to speak aloud."

154 Chicagoans Deprived of Citizenship in War on Anarchists.

Chicago, Ill.—As a direct result of the war of State and Federal Governments upon Anarchists 154 men have been deprived of citizenship by the Superior and Circuit Courts of Cook County. The naturalization papers of fifty-five men suspected of being at least allied with Anarchists were revoked this week and these supplemented the cases of ninety-nine men against whom similar action was taken last week by Judge Bail.

COMMERCIAL COLUMN.

Weekly Review of Trade and Latest Market Reports.

Bradstreet's says:

"Easter trade at retail, though affected in sections by unfavorable weather, is, on the whole, fair. Collections show slight improvement at a few centers and filling-in orders by jobbers are a trifle better, but reports from leading industries are no more favorable, rather more weakness is noted in iron and steel and in trade in leading lines is still disappointing backward. The dullness in building lines—expenditures for the first quarter being 40 per cent. below 1907—affects all lines of materials and export and import trade are ebbing, indicates the first decrease in foreign trade from the preceding fiscal year noted for five years past.

"The number of idle hands is as large as for some time past, wage reductions curtail buying power and the number of failures continues far ahead of a year ago. Business failures in the United States for the week number 177, against 258 last week, 167 in the like week of 1907, 167 in 1906, 183 in 1905 and 159 in 1904.

"Wheat, including flour, exports from the United States and Canada for the week aggregated 2,470,177 bushels, against 2,451,999 last week, 3,102,467 this week last year, and 4,118,108 in 1902.

HAD CATARRH THIRTY YEARS.

Congressman Meekison Gives Praise To Pe-ru-na For His Relief From Catarrh.

CONGRESSMAN MEEKISON COMMENDS PE-RU-NA.

"I have used several bottles of Peru-na and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison.

OTHER REMARKABLE CURES.
Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Peru-na I am cured." Mr. C. N. Peterson, 132 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peru-na has done me. Constant confinement in my store began to tell on my health, and I felt that I was gradually breaking down. I tried several remedies, but obtained no permanent relief until I took Peru-na. I felt better immediately, and five bottles restored me to complete health."

A SINCERE RECOMMENDATION.
Mr. D. C. Frosser, Bravo, Allegan Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had had a run of typhoid fever, was very depleted. I could find nothing I could stomach. Finally I came to the conclusion that I had catarrh of the stomach and seeing Peru-na advertised, decided to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything."

Nothing Would Help Him—Mother Almost in Despair—Owes Quick Cure to Cuticura.
"Several months ago, my little boy began to break out with itchy sores. I doctor'd him, but as soon as I got them healed up in one place they would break out in another. I was almost in despair. I could not get anything that would help him. Then I began to use Cuticura Soap and Cuticura Ointment, and after using them three times the sores commenced to heal. He is now well, and not a scar is left on his body. They have never returned nor left him with bad blood, as one would expect. Cuticura Remedies are the best I have ever tried, and I shall highly recommend them to any one who is suffering likewise. Mrs. William Gessing, 107 Washington St., Attica, Ind., July 22, 1907."
