How Scarcerow Earns His Wages. As he stands in the middle of the flat Suffolk field there is little to show that he is not the ordinary inanimate scarecrow. He stands motionless for five minutes at a time and only when a bird is tempted by the fresh corn just appearing above the ground does he show any sign of life. But then it is that the scarecrow moves; he hits an old tin-can with with the rusty handle of a showed and fightions the birds and a shovel and frightens the birds and makes them fly quickly out of sight So he spends his day, this old, bent man, and at the end he is paid 18 pence. Average Length Of Life.

The man who lives until he if more than a century old and the child who dies in infancy are alike included in the law of averages. They balance each other's chances, as 1 were

Of 100,000 people living at the age of ten, only 95,614 will live to the age of twenty-one, only 82,284 will be living at forty, only 49 will be living at ninety-six, and only 9 at ninety-seven. At thirty, the aver-age man may take it that he has under thirty-five years to live; at forty, under twenty-eight years; at fifty, under twenty-one years; at sixty under rourteen years. In each and all of these cases,

how he lives will determine whether he will have a longer life or a shorter life, but the average will infallibly work out within a space of ninety years .--- Cassell's Saturday Journal

Whale Impaled On Pile Driver.

COMMERCIAL COLUMN Weekly Review of Trade and Latest Market Reports.

R. G. Dun & Co.'s Weekly Review of Trade says:

Improvement continues in commercial channels, increased manufactur-ing activity and seasonable weather being the dominant influences of the being the dominant influences of the past week. In all leading industries there is less idle machinery, and staple lines of merchandise at retail quickly respond to the larger pay-rolls. Mercantile collections are also more prompt, and confidence grows stronger as the group advance to stronger as the crops advance to-ward maturity with no more serious handicap than excessive moisture in some sections. While the first week in June compares favorably with any previous week this year, there still appears a large decrease in compari-son with the volume of business in the same week of 1907. A lower price for steel bars was the most sig-A lower nificant event of the week in the lron and steel industry.

Primary dry goods markets have made further progress, recent reduc-tions in prices bringing out a good volume of contracts, indicating that no better terms are anticipated. In the tobbing indicating the price the jobbing trade the only noteworthy activity comes from duplicate mail orders. Woolen mills are somewhat more active, but supplementary orders are not liberal and the season's trade thus far is much below normal.

The representatives of some 3,000 traveling salesmen have voted and pledged their constituents to talk nothing but prosperity from now on. Everybody knows how these drummers can argue, and so a word to the wise should be sufficient. They ought to be able to accomplish more in this line than the St. Louis Prop-perity Association. The country will just have to be prosperous to save itself from being talked to death.
