"Taft, Taft-W-H-Taft!" came in a roar from the Ohloans. Megaphones seemed to spring from con-cealed places and swell the Taft tumnit into thunder. A huge blue silk banner bearing the familiar fea-tures of the statesman-secretary was swung before the delegates, awaking

afresh a whirlwind of enthusiasm. All semblance of order had been abandoned and the delegates, arena was a maelstrom of gesticulating men; the guidons of the States were snatched up by the Taft enthusiasts or borne under by the storm of dis-order. The band was inaudible—a mere whisper above the deafening volume of sound. For 10, 15 then 20 minutes, this uproar continued. It was a repetition of the scene of the day before when the name of Roosevelt threw the convention into a fren-zy, repeated in intensity and almost duration. But there is a limit the physical resources of throat and lung; relays had not been estab-lished, and at last the tired voices lied down to a hoarse shout, and at ast subsided.

What The light Was About.

"The Republican party will up-hold at all times the authority and integrity of the courts, State Federal, and will ever insist that their powers to enforce their process and to protect life, liberty and property shall be preserved inviolate. We believe, however, that the rule of procedure in the Federal courts with respect to the issuance of the writ of injunction should be more accurately defined by statute, and that no injunction temporary restraining order should be issued without notice, except irreparable injury would result from delay, is which case a speedy hearing thereafter should be granted."

CHAIRMAN LODGE PLEDGES HIS PARTY TO PRESIDENT'S POLICIES.

No political party in modern times can show such a record of achievement during the last 50 years as the Republican party. The Republican party has never failed except when it has faltered. Our long career of victory has been due to our meeting each question as it arose

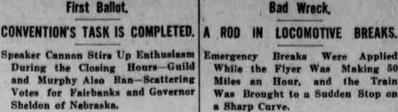

It is a huge size of private fortunes, the vast extent and power of modern combinations of capital, made possible by our present conditions, which have brought upon us problems portentous and threatening not on-ly our social and political welfare, but even our personal free-dom. If they are not boldly met and wisely solved. Under the lead of the Presi-

dent the party has grappled with the new problems born of the new conditions. The response of the people to the policies nrged by the President has been emphatic that it has been 80 made clear, once for all, that the Government of the United States is never to be dominated by money and financial interests, and that the political party which permits itself to be ruled

by them is hereby doomed to

defeat. The policy of the Reublican party is to use Government regulation and supervision for the control of corporations and combinations, so that these great and necessary instruments of commerce, and business may be preserved as useful servants, and not be destroyed because they have threatened to become

AN ACCIDENT TO

Dennison, O. (Special) .- Secretary Taft had a narrow escape from being involved in a serious wreck on the Pennsylvania flyer, which was carrying him East. Prompt action of the tower man in a signal station a third of a mile east of Coshocton and of the engineer of the fiver alone averted what might have been an

accident. As the train was speeding along at the rate of 50 miles an hour the piston rod on the left side of the locomotive broke short off. Instantly the cylinder of the engine was cracked by the unmanageable rod.

The train was just approaching the signal tower east of Coshocton. The operator saw that something serious was wrong and threw down a signal to stop the train.

The engineer applied the emer-gency brakes and the train and six cars came to a stop on a sharp curve. The accident occurred at 6.30 o'clock. As many of the passengers on the train were at dinner in the dining car, few of them realized how nar-row their escape had been from an

This policy is the absolute op-posite of Government ownership and all like measures, advocated by our opponents, which tend directly to Socialism and to all its attendant miseries and evils. The President has enforced the laws as he found them on

the statute books. The result is that he is the best abused and most popular man in the United States today.

The President's refusal of a renomination, dictated by the loftlest motives, and by noble loyalty to American traditions final and irrevocable. Anyone who attempts to use his name as a candidate for the Presidency impugns both his sincerity and his good faith. The Presi-dent says what he means and means what he says.

Although the President re-tires, he leaves his policies behind him. To these policies the Republican party stands pledged. We ask the confidence and support of the American people

because we have met the problems of the day and have tried patiently to solve them.

We believe in the mainte-nance of law and order and in support of the court: in all their rights and dignity. We believe in equal rights for all men and are opposed to special privileges for any man, or any class of men, high or low, rich or poor We are pledged to the cause of sound finance. We stand for protection to American industry and labor. We will see to the defense of the country. We mean to have a navy worthy of the American name.
