CONDENSED FOR HURRIED READERS

W. L. Sprowl, of Wells Tavern, spent a few hours in town last Saturday.

L. G. Cline and Preston Cowan of Burnt Cabins, registered at the City Hotel Monday.

Mr. and Mrs. VanRoden, of Philadelphia, are visiting the family of Mr. and Mrs. Geo. B. Mellott, of this place.

On Saturday, June 20th, Miss Netha Nesbit lost a gold brooch about the size of a nickel, somewhere between her home and the postoffice, via the Lutheran church. The brooch contains a ruby in the center surrounded by a circle of pearls. A liberal reward will be paid for its return to the owner.

Prof. E. E. Kell, of Shade Gap, formerly a teacher in this county has been elected assistant principal of the schools at Orbisonia at a salary of sixty dollars a month.

Landlord Hamill of the City Hotel, and Grant Baker of Knobsville, made a business trip over to Loudon and St. Thomas, Monday.

Miss Lelia Campbell of Norfolk, Va., is the guest of Miss Mary Houston, of Ayr township. Miss Campbell and Miss Houston were schoolmates at Geneva College.

Bert Barber, of Elton, Wis., says: "I have only taken four doses of your Kidney and Bladder Pills and they have done for me more than any other medicine has ever done. I am still taking the pills as I want a perfect cure." Mr. Barber refers to Dewitt's Kidney and Bladder Pills. Sold by Trout's drug store.

Bert Doyle met with an ugly accident last Sunday evening. He was up in the mow throwing down hay for the mules. In descending through the mowhole, he slipped and in throwing his hand up to catch on something, grabbed into a nail in a piece of timber. The nail penetrated his hand and for a moment his whole weight was suspended from the nail. He managed to free himself, but with a painfully lacerated hand.

The function of the kidneys is to strain out the impurities of the blood which is constantly passing through them. Foley's Kidney Remedy makes the kidneys healthy. They will strain out all waste matter from the blood. Take Foley's Kidney Remedy and it will make you well. Trout's drug store.

Ex-Sheriff Alexander has his hands full this summer. He is building a nice house on the north west corner of First and Main street, and a large stable and carriage house on the rear of the same lot. It is the old Cattlett property which he purchased some time ago. It will mean a good deal of hard work, and a lot of expense, but when once completed he will have a valuable property.

Delay in commencing treatment for a slight irregularity that could have been cured quickly by Foley's Kidney Remedy may result in a serious kidney disease. Foley's Kidney Remedy builds up the worn out tissues and strengthens these organs. Commence taking it today. Trout's drug store.

A principal of a school in this State named Sullivan has been found guilty of assault and battery upon a woman teacher. According to eye witnesses Sullivan entered the room of Miss Finn during recess in March and kissed her so hard that her lips became swollen. The defendant denied having kissed the girl, but said he might have squeezed her. The plaintiff denied that she said when Sullivan entered the room, "Well, dearie, have you come to squeeze me?" Sullivan's counsel set up the plea that the principal was madly in love with the teacher, and that to kiss her was no crime. The prosecution claimed that if principals of schools insisted on kissing the pretty teachers it would demoralize the public school system. Sentence was deferred.

Miss Bess Irwin who had been visiting her uncle Will's family in Albion, returned home Tuesday evening, accompanied by her cousin Miss Helen Irwin, of Albion.

The brewers in their convention at Milwaukee resolved that they would give their efforts towards putting out of existence all but the decent saloons. If they succeed they will no doubt wipe out the business as completely as the Prohibitionists would, for there are but few decent saloons.

The Normal school which has been in progress here during the past eight weeks, closed its work yesterday, and to day and tomorrow Superintendent Lamber has charge of those who are applicants for certificates. The class is large, and we do not envy either the examiner or the teachers the fun they will get out of the job this hot weather. The young people who have attended the school this term have been a model set, and the town will feel the loss of their presence.

Many a woman goes out shopping dressed in silk and enveloped in perfume whose hardworking husband hasn't had a new suit of clothes or a decent meal in five years. Yes, and many a loafer stands on the street with a vile pipe in his face, his tank full of "booze" and his mouth full of profanity, whose hard-working wife hasn't had a new dress or a kind word since she was married.

There are puzzles and puzzles but here is a puzzle that puzzles everybody: Take the number of your living brothers, double the amount, add to it three, multiply by five, add to it the number of living sisters, multiply by ten, add the number of deaths of brothers and subtract 150 from the result. The right figure will be the number of deaths, the middle will be the number of living sisters, and the left will show the number of living brothers. Try it and see and then tell why it figures out so.

It has been frequently suggested and the suggestion is a good one, for every farmer to place his name and the name of his farm on his road gate. Not only would persons driving to a place more easily find it, but it would add more pleasure and interest to people driving from place to place. This last result would have special effect with regard to well kept and pretty houses. An observing person will seldom pass a beautiful farm without desiring to know who is its enterprising owner.

A number of subscribers who are back with their subscriptions need to get a move on. Under the new ruling on the postal law, publishers must collect up or discontinue sending the papers through the mail. If you don't want your name enrolled on the "Dead Head List," there is but one way to keep it off. Publishers are given a "Reasonable Time" after April 1, 1908, to get delinquents in line. It is now nearly 90 days since April 1. Your note will do if you do not just have the money now.

With the approach of harvest comes the chance for tens of thousands of able-bodied men throughout the country. The demand for agricultural laborers is enormous, owing to the fact that the farmers, as a rule, escaped the late financial depression. Their last year's crops were large, and they have money in the bank with which to pay for the garnering of their harvests. The excess for idleness and suffering ends, as the harvest season begins. A move to the country will be good for the working people who go and for those whom they leave behind.

The only living American ex-president is Grover Cleveland. He has been a private citizen for eleven years. Benjamin Harrison died eight years after his retirement, but President Arthur survived less than 20 months. Mr. Hayes lived 12 years and Grant eight years. John Adams, however, survived for 25 years, Fillmore 21, Madison and John Quincy Adams each 19, and Jefferson 17 years. In 1868 there were three ex-presidents still living Fillmore, Pierce and Buchanan—but since 1873 there have never been more than two alive at the same time, and for the greater part of the period there has been but one.

Degree For Congressman Focht.

At a meeting of the Board of Directors of Susquehanna University, at Selinsgrove, held Commencement week, June 12th, Congressman Benjamin K. Focht was unanimously voted the degree of A. M. On June 10th Mr. Focht delivered an address before the Alumni Association of the Susquehanna University, and on the same day was elected President of this Association.

On July 4th Congressman Focht will deliver an address before the Athletic Association of Buck Valley, Fulton County, Pa., having received an invitation from Dr. James M. McKibbin, president of the Association. In order to get there Mr. Focht will be obliged to go to Hagerstown and Hancock, Maryland, thence nine miles by wagon across Siding Hill mountain. Buck Valley is located a few miles from the Maryland line, and is in the most southerly township in the Seventeenth Congressional District. It has been suggested that the next speech made by our Congressman should be in Gregg township, Union County, the most northerly precinct in what has been frequently denominated the "Shoe String" district.

A REVELATION.

It is a revelation to people, the severe cases of lung trouble that have been cured by Foley's Honey and Tar. It not only stops the cough but heals and strengthens the lungs. L. M. Ruggles, Reasnor, Iowa, writes: "The doctors said I had consumption, and I got no better until I took Foley's Honey and Tar. It stopped the hemorrhages and pain in my lungs and they are now as sound as a bullet." Trout's drug store.

A Hint To The Wise.

The Democratic Convention will meet soon at Denver, to nominate the candidate for President. With the Republican candidate already chosen, the campaign will shortly begin in earnest.

Naturally, until the curtain finally goes down in November, things will be humming politically; many interesting things will be done and said; and many interesting personalities will appear on the stage of Greater American Politics.

It behooves the unbiased newspaper reader, the spectator of this stirring political drama, regardless of his political faith, to have a complete view of the stage; a thing that "The Philadelphia Record" enables every reader to have.

"The Record" is a Democratic newspaper, and it speaks well for its independence and reliability that in a Republican stronghold it enjoys the confidence of a large Republican clientele, in addition to its thousands of Democratic subscribers.

Reasons for this are not far to seek. It is due to the excellent news service furnished in "The Record." This year the completeness and reliability of the campaign news will be fully up to the mark established in former presidential years and any regular reader can tell you what that means.

There may be some doubts as to the next choice for President, but there is no question at all that "The Daily and Sunday Record" receives the votes as Philadelphia's favorite newspaper. Join the crowd!

Harvest.

By the time this paper is through the press, harvest will be on in earnest. From present indications, the yield of all kinds of grain will be unusually large—at least there will be a great deal of straw to handle, and it is believed that it is filled well. Hay is abundant. One year ago, farmers were getting ten dollars a ton for it "out of the field." Now it is bringing five, and some purchasers are getting it for even less than that. Corn is scarce, and farmers that have it, are undecided as to whether they want to part with it at \$1.50 a barrel. From present indications, corn will be sold for a much lower price inside of a year. Should this be the case, the farmers will have as much money for the increased crop will make up for the lower price.

How Our National Budget is Prepared.

Congress, holding the purse-strings, has determined the national disbursements for the fiscal year of 1908-1909. It recently adjourned with a world record for voting public money, and the executive and the administrative authorities are dutifully certain to score a new world record in spending the unprecedented total. This annual chapter in budget reads large in every line. It was as ambitious in its beginning as it has been in its ending. The procedure was begun last September, when official by official, bureau by bureau, department by department, contributed to building up the book of estimates, till it comprised 700 broad pages of federal print. When the Secretary of the Treasury, in December, dispatched wagon-loads of those documents to the Capitol, they constituted formal and official notice that almost \$1,100,000,000 would be required of Congress at that session for the maintenance of the national Government. Probably a more valiant defense of the Treasury was never made, and possibly none was ever less successful. Designs upon the national strong-box multiplied and were supported by Congressional majorities. The ten-thousand dollar items grew into hundred thousand dollar items. Millions were piled upon millions, heedless of all watchdog warnings, until at last the towering total of ten figures, solitary and alone among the high peaks of Government expenditures, was reached. Treasury officials are at a loss for descriptions that will bring the billion-dollar term within the average mental grasp. The sum will require every penny from customs, internal taxes, and postal supplies. It will also drain low the quarter-billion reservoir of surplus. It is almost one-third of all the money in the land, more than half the value of all the cargoes and carloads of an annual exports, and only \$200,000,000 less than the value of all our imports.

A billion of money in twenty-dollar yellow bank would weigh over seventy tons. Compactly stacked against the Washington Monument, they would make twenty-five separate piles, 550 feet high, reaching from the monument's foundation to its very top. To count a billion silver dollars, the best Treasury expert, working eight hours every business day, would require a century and three years more. Where will all this money go? It was appropriated through fourteen great supply bills, under more or less arbitrary classifications. The disbursements, however, may be roughly grouped in three grand divisions, as follows:

Postal Service.....\$225,000,000
Military Service..... 500,000,000
Other government service..... 225,000,000
—From "The Government as a Spender," by Ernest G. Walker, in the American Review of Reviews for July.

THE THRICE-A-WEEK WORLD IN THE PRESIDENTIAL CAMPAIGN YEAR.

More Alert, More Thorough and More Fearless Than Ever.

Read in Every English-Speaking Country.

A President of the United States will be elected this year. Who is he and who is the man whom he will beat? Nobody yet knows, but the Thrice-a-Week edition of the New York World will tell you every step and every detail of what promises to be a campaign of the most absorbing interest. It may not tell you what you hope, but it will tell you what is. The Thrice-a-Week World long ago established a character for impartiality and fearlessness in the publication of news, and this it will maintain. If you want the news as it really is, subscribe to the Thrice-a-Week edition of the New York World, which comes to you every other day except Sunday, and is thus practically a daily at the price of a weekly.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 150 papers. We offer this unquoted newspaper and THE FULTON COUNTY NEWS together for one year for \$1.75.

The regular subscription price of the two papers is \$2.00.

RACKET STORE PRICES

FOR JUNE and JULY

We have again made a good deal for our patrons. We suppose you have all heard about the price of

Mason's Glass Jars

advancing. Well, they have advanced—almost double; but, not with us. We are going to sell them as long as we have any (and we have 15 gross) at—Pints, 45c; Quarts, 50c; Half-gal., 65c. We had one merchant to say to us that we were fools for selling at these prices, as we couldn't buy them in the city to sell at less than 65, 75, and 95c. Well, we are not looking out for other merchants, we are for the customers and ourselves. Then we made another good deal for you: We can sell a 10-qt. galvanized pail, that we did sell for 20c, now 15c; 12-qt. at 18c.

CASTOR MACHINE OIL

Well, this has been a big seller with us. You might ask why: Because we sell an oil that others sell at 50c. gal., for 25c. and it is just a little heavier than theirs.

A nice line of Hammocks at 95c., \$1.25, \$1.95 and \$2.25.

TABLE OIL CLOTH 14c., YARD; Or \$1.60 Per Roll.

Space will not permit us to name prices on Clothing and Shoes this time, but we sell them just the same way that we sell Glass Jars and everything else we carry. We have

One Price to Everybody

and that is the lowest the market will afford. Call and see us whether you want to buy or not.

Respectfully

McCconnellsburg, Pa.

ORINO

Laxative Fruit Syrup

Pleasant to take

The new laxative. Does not gripe or nauseate. Cures stomach and liver troubles and chronic constipation by restoring the natural action of the stomach, liver and bowels. Refuse substitutes. Price 50c. Trout's Drug Store.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kauble, of Nevada, O. says: "I had stomach trouble and was in a bad state of health heart trouble with it. I took Kodol Dyspeptic Cure for about four months and it cured me."

Kodol Digests What You Eat and relieves the stomach of all nervous strain and the heart of all pressure. BOTTLES ONLY \$1.00 Size bottles 25c. These the trial size, which sells for 50c.

Prepared by E. G. BOWEN & CO., CHICAGO.
