This is what Hon. Jake Moore, State Warden of Georgia, says of Kodol For Dyspepsia: "E. C. DeWitt & Co., Chicago, Ill.—Dear Sirs—I have suffered more than twenty years from indigestion. About eighteen months ago I had grown so much worse that I could not digest a crust of corn bread and could not retain anything on my stomach. I lost 25 lbs.; in fact I made up my mind that I could not live but a short time, when a friend of mine recommended Kodol. I consented to try it to please him and was better in one day. I now weigh more than I ever did in my life and am in better health than for many years. Kodol did it. I kept a bottle constantly, and write this hoping that humanity may be benefited. Yours very truly, Jake C. Moore, Atlanta, Aug. 10, 1904." Sold by Trout's drug store.

#### Success.

A Boston firm recently offered a prize for the best definition of what constituted success. A Kansas woman was awarded the prize, and this was her answer: "He has achieved success who has lived well, laughed often, and loved much; who has gained the respect of intelligent men and the love of little children; who has filled his niche, has accomplished his task; who has left the world better than he found it, whether by an improved poppy, a perfect poem or rescued soul; who has never lacked appreciation of earth's beauty or failed to express it; who has always looked for the best in others and given the best he had; whose life was an inspiration; whose money was a conediction."

#### WORRYING WOMEN THE CAUSE OF MANY WOES

Miseries in Life That They Are Responsible For.

There are few miseries in life greater than the companionship of an ill conditioned person who must have something to worry, fret and nag over, says the July Designer. Nothing is too small to make into a gigantic evil and to be offended accordingly.

The wind is in the East, and they are personally injured. The rain has come on a pleasant day, and they fret and make every one about them uncomfortable, as if the weather were a thing to be arranged at will, and a stormy day were the result of wilful mismanagement.

Life is a burden to them and all about them because the climate is uncertain and the elements are out of human control.

These worrying women never have done with their prey, be it a person or thing, and have the art of persistence that drives their poor victim into temporary insanity.

Their total indifference to the maddening effect they produce is the oddest part of it all. They begin again for the twentieth time just where they left off, as fresh and eager as if their poor victim did not know exactly what was coming. With speeches that relieve their minds they burden every one within reach of their tireless tongues.

And it makes no difference to them that their worrying has no effect, and that things go on exactly as before—exactly as they would have done had there been no fuss about them.

Imbued with the unfortunate belief that all things and persons are to be ordered to their liking,—they think themselves justified in flying at the throats of everything they dislike, and in making their dislikes particular grievances.

The cares of their family are greater than the cares of any other family; and no one can understand what they have to go through, though every one with in ear range is old pretty liberally. It is impossible for these people to go through life in amity with all men. They may be good Christians theoretically, but the elementary doctrines of peace and good-will are beyond their power of translation into deeds.
