Some Nuts To Crack.

You have seen hundreds of white horses; why have you never seen a white colt?

Why does a dog always turn around three times before lying down?

Why does a horse, when staked out by a rope, unwind the rope, while a cow winds it up into hard knots?

Why does a horse get up on his front feet first and a cow on her hind feet?

Why does a hop vine twine to the left and a bean vine to the right?

Why does a horse eat grass backward and a cow forward?

Why is there an occasional ear of red corn and why sometimes a white cob?

Newspaper Hydrophobia.

Philadelphia newspapers recently treated their readers to a hilarious narrative concerning a boy who was supposed to have been bitten by a dog, and in the intervals of convulsions was "snapping at his attendants and barking like a dog."

OPPORTUNITY.

Superintendent's Address Before Boys' Farm Encampment.

America is but another name for opportunity. France has eight persons to our one per square mile; Europe has nearly four to our one.

It is said that opportunity knocks once at the door of every man and that the one who was out knocks ever afterward.

This is an age of doing. Be able to "deliver the goods" and you will be wanted. The test is doing.

An honorable calling is any calling that makes a man stronger for the world's work.

Every one can work at wages that will enable him to live and save something, but the greater demand is near the top.

I watched with great interest the building of a church in a little city. The workmen who excavated the earth received \$1.50 per day.

Just a Fish Story.

Forty years ago, when my father was captain of an East India trading ship, while off the coast of Africa near the equator the ship's carpenter was taken sick and died.

Four days later the ship's boy fell overboard, and a great shark came up under the stern and swallowed the boy before he could be reached.

The next day the shark was still following the ship. A shark hook was baited and put over the stern, and the shark was caught, out was so large it could not be taken on board, and they were obliged to shoot him.
