Stand For Something.

The greatest thing that can be said of a man, no matter how much he has achieved, is that he has kept his record clean.

Why is it that, in spite of the ravages of time, the reputation of Lincoln grows larger and his character means more to the world every year? It is because he kept his record clean, and never prostituted his ability nor gambled with his reputation.

Where, in all history, is there an example of a man who was merely rich, no matter how great his wealth, who exerted such a power for good, who has been such a living force in civilization, as this poor backwoods boy? What a powerful illustration of the fact that character is the greatest force in the world.

A man assumes importance and becomes a power in the world just as soon as it is found that he stands for something; that he is not for sale; that he will not lease his manhood for salary, or for any amount of money, or for any influence or position; that he will not lend his name to anything which he cannot indorse.

The trouble with so many men to-day is that they do not stand for anything outside their vocation. They may be well educated well up in their specialties, may have a lot of expert knowledge, but they cannot be depended upon. There is some flaw in them which takes the edge off their virtue. They may be fairly honest, but you cannot bank on them.

A CALIFORNIAN'S LUCK.

"The luckiest day of my life was when I bought a box of Bucklen's Arnica Salve," writes Chas. F. Budahn, of Tracy, California. "Two 25c. boxes cured me of an annoying case of itching piles, which had troubled me for years, and that yielded to no other treatment." Sold under guarantee at Trout's drug store.

The Stout Woman Must—

Not wear separate waists. The contrasting white makes her look elephantine.

Nor a contrasting belt. It gives the effect of a big broad waist.

Nor carry a muff nor parcel. It assents the clumsiness of her waist.

Dress her shoulders to look broad. Japanese effects will do wonders.

Wear a high pompadour. It bestows height and the desired reed-like figure.

Carry a well-rolled umbrella. An English beauty discovered the walking stick was an adjunct to beauty.

Wear black or dark colors. They always impose an effect of slimmness.

Carry her chin up well. The woman who dips her chin will look stouter than she is.

Affect long sleeves. Short sleeves confess the fatness of arms.

Never put on rouge. It makes a stout face look much coarser.

Affect high heels, long trains and a big hat. They all argue thinness effectually.

FOLEY'S HONEY AND TAR stops the cough and heals the lungs.

The United States On Top.

About five persons out of every 100 of the earth's population live in the United States says the Philadelphia Record; but our farmers raise 20 per cent. of the world's wheat crop; 75 per cent. of the corn; 71 per cent. of the cotton, and 31 per cent. of the tobacco. We also produce 63 per cent. of the petroleum output of the world; 57 per cent. of the copper; 37 per cent. of the coal; 36 per cent. of the silver; 22 per cent. of the gold, and 42 per cent. of the iron; although we have a little less than 6 per cent. of the earth surface to live upon. Not a bad showing for a young nation.

Just For Fun.

What is the difference between a choirmaster and a lady's dress? The one trains the choir, the other acquires a train.

What is the difference between a farmer and a dressmaker? One gathers what he sows and the other sews what she gathers.

Why is a washerwoman like Saturday? Because she brings in the clothes (close) of the week.

What is the greatest feat in the eating line that was ever known? That which recorded a man who bolted a door, after which he threw up a sash, and then swallowed a whole story.

What is that from which you can take away the whole and still have some left? The word "wholesome."—Phila Ledger.

Weak Hearts
Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, putting it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.
Mr. D. Knoble, of Nevada, O. says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."
Kodol Digests What You Eat

RACKET STORE PRICES
FOR
JUNE and JULY
We have again made a good deal for our patrons. We suppose you have all heard about the price of
Mason's Glass Jars
advancing. Well, they have advanced—almost double; but, not with us. We are going to sell them as long as we have any (and we have 15 gross) at—Pints, 45c; Quarts, 50c; Half-gal., 65c. We had one merchant to say to us that we were fools for selling at these prices, as we couldn't buy them in the city to sell at less than 65, 75, and 95c. Well, we are not looking out for other merchants, we are for the customers and ourselves. Then we made another good deal for you: We can sell a 10-qt. galvanized pail, that we did sell for 20c, now 15c.; 12-qt. at 18c.
CASTOR MACHINE OIL
Well, this has been a big seller with us. You might ask why? Because we sell an oil that others sell at 50c. gal., for 25c. and it is just a little heavier than theirs.
A nice line of Hammocks at 95c., \$1.25, \$1.00 and \$2.25.

TABLE OIL CLOTH 14c., YARD;
Or \$1.60 Per Roll.
Space will not permit us to name prices on Clothing and Shoes this time, but we sell them just the same way that we sell Glass Jars and everything else we carry. We have
One Price to Everybody
and that is the lowest the market will afford. Call and see us whether you want to buy or not.
Respectfully
