There is one preparation known to day that will promptly help the stomach. This is Kodol. Kodol digests all classes of food, and it does it thoroughly, so that the use of Kodol for a time will without doubt help anyone who has stomach disorder or stomach trouble. Take Kodol today and continue it for the short time that it is necessary to give you complete relief. Kodol is sold by Trout's drug store.

"Maud," A. U. Nace's driving horse was so unfortunate as to step on a nail several days ago which caused her to have lockjaw and she had to be shot on Friday last. She was a very valuable animal and it is quite a loss to Mr. Nace.

This is what Hon. Jake Moore, State Warden of Georgia, says of Kodol For Dyspepsia: "E. C. De Witt & Co., Chicago, Ill.—Dear Sirs—I have suffered more than twenty years from indigestion. About eighteen months ago I had grown so much worse that I could not digest a crust of corn bread and could not retain anything on my stomach. I lost 25 lbs; in fact I made up my mind that I could not live but a short time, when a friend of mine recommended Kodol. I consented to try it to please him and was better in one day. I now weigh more than I ever did in my life and am in better health than for many years. Kodol did it. I kept a bottle constantly, and write this hoping that humanity may be benefited. Yours very truly, Jake C. Moore, Atlanta, Aug. 10, 1904." Sold by Trout's drug store.

Mr. Bennett H. Truax, of Belfast township, was in town Monday. Mr. Truax said that his mother-in-law, Mrs. Elizabeth Morton is still quite poorly. It may be remembered that last May a year ago, she fell and broke her hip, and has not been able to walk since. To one of her legs—about 81, this is quite an affliction.

Short A Million A Day.

The National Treasury statement shows a deficit in receipts as compared with expenditures for the first three weeks of July of more than \$20,000,000. In other words, during the last three weeks the government has been running behind at the rate of \$1,000,000 for every working day. At this rate it will not take very long to exhaust the cash balance in the Treasury which on Thursday of this week amounted to \$208,059,947 as against \$236,187,910 on July 3.

Since the first of July there has been a falling off of \$6,000,000 in custom receipts and \$600,000 in internal revenue receipts as compared with the same period last year.

War Against Consumption.

All nations are endeavoring to check the ravages of consumption, the "white plague" that claims so many victims each year. Do not risk your health by taking some unknown preparation when Foley's Honey and Tar is safe and certain in results. Trout's drug store.

Cooperage Industry.

Upward of 150,000,000 barrels and circular wooden packages are manufactured in the United States annually. Few people, except those whose business it is to know, realize the extent of the cooperage industry in this country.

The heaviest demand comes from the cement business. The flour business ranks next, closely followed by sugar. Containers for fence staples, bolts, nuts, nails, and packages for roasted coffee, spices, crockery, fruits, and vegetables, follow in the order named, while glass manufactures, baking powder companies, liquor distillers, and candy, tobacco, and cheese packers are big users of barrels. The demand for barrels for molasses, oil, lard, and pork, is also enormous, while dry paint, glue, snuff, oatmeal, screws, castings, and general hardware articles, annually increase the demand on the cooperage supply.

While the amount expended for barrels can be quite closely estimated for a given year, it is not possible to say how many barrels are in actual use. The life of a barrel is put down at one year by the trade, but this is far from true. A majority of barrels are used many times. They begin as sugar and flour barrels, and are then sold to the farmer for shipping his produce to the market. It may be that they are returned to him several times carrying potatoes to the market on the first trip and tobacco or lettuce on the next, each cargo being lighter in weight than the previous one, owing to the weakened condition of the barrel. Finally, the barrel may serve out its life-work as a refuse receptacle, and in the end can be used for fuel.

The World's Best Climate is not entirely free from disease; on the high elevations fevers prevail, while on the lower levels malaria is encountered to a greater or less extent, according to altitude. To overcome climate affections, lassitude, malaria, jaundice, biliousness, fever and ague, and general debility, the most effective remedy is Elicoric Bitters, the great alterative and blood purifier; the antidote for every form of bodily weakness, nervousness, and insomnia. Sold under guarantee at Trout's drug store. Price 50c.

Sale Register.

Saturday, August 1.—Mrs. A. L. Erb will sell her beautiful property on North First street at public sale at 2 o'clock in the afternoon. Two hundred dollars to be paid on day of sale; \$300 on the first of April, 1909, when possession will be given, and balance in payments to suit the purchaser, with interest from April 1, 1909. A. L. Wible, auctioneer.

The editorial comments of the leading newspapers of the country upon the results of the two great political conventions, the one at Chicago, the other at Denver, show conclusively that this is to be rather a decent campaign so far as the press is concerned. That is to say, Republican editors, Democratic editors and Independent editors agree that the presidential candidates are men of good personal character, so that they are to be judged by the policies they uphold and the principles they propose to put into effect. It is generally agreed that Taft is a man of stainless character and that in this respect he has a worthy rival in Bryan. It is indeed gratifying to know that the coarse personal methods which distinguished some past national campaigns are to have no place this year, and that the contest is to be one in which the participants will retain mutual respect for each other.

How to Save 40 Per Cent.

Reader, I can save you 40 per cent. on every dollar's worth of fruit and other trees you buy from me. How can I do that, you ask. By buying my trees at wholesale, thus saving the 35 to 40 per cent. paid the agents who travel over the country selling trees. Compare these prices—Apple trees from 5 to 7 feet high, \$2.50 per dozen; Peach trees—4 to 5 feet high, \$1.25 per dozen; Quince, Pear, Cherry and Plum trees, 40 cents each. These trees come from one of the best nurseries in this State and are guaranteed to be true to name and free from disease. I replace, free of charge, all trees that do not grow the first year.
