They use a dandy little Mogul gasoline engine driven by natural gas—the cheapest power on earth. Their large show room containing granite and marble monuments and headstones is a sight worth seeing. And then, Albert took me through two cemeteries, and showed me granite monuments by the dozen that had been erected by the Palmer brothers—prices ranging from one hundred to eight hundred and a thousand dollars apiece." The Red-Haired Girl.

Time was when the possession of red hair was viewed as little short of a calamity. Certainly, these locks were regarded as alien to beauty, and there was a superstition that a fiery temper was a concomitant.

Some foolish fancy arose that between the red-haired girl and the white horse there was a subtle relationship, but one easily discerned by people who took the trouble to count. All this has passed, and the red-haired girl is coming into her own.

As to the boy with what his companions term a "sorel top," he can take care of himself. It is an acknowledged fact now that many shades of red hair are not only in themselves attractive enough to stimulate more or less successful imitations, but red hair goes with a fine complexion, albeit with a possible showing of freckles that are as apt to be piquant as disfiguring.

That there is such a quality as a "red haired temper" is an old belief, dismissed for utter lack of proof.

The new wave of comment on the red-haired girl has arrived. Certain merchants have advertised for red haired girls on the ground that they are apt to be suave and sunny, amenable to the instructions of an employer and peculiarly docile.

Doubtless this is just as much a fallacy as the former inimical prejudice, but it indicates at least that red hair is no longer from any standpoint a disadvantage.

It is fine in texture, resists the invasion of gray, and when at last it does turn gray the result is a pleasing compromise.—Philadelphia Public Ledger.

For nearly forty years New Discovery has stood at the head of throat and lung remedies. As a preventive of pneumonia and healer of weak lungs, it has no equal. RACKET STORE PRICES

:- FOR :-

JUNE and JULY

We have again made a good deal for our patrons. We suppose you have all heard about the price of

Mason's Glass Jars

advancing. Well, they have advanced—almost double; but, not with us. We are going to sell them as long as we have any (and we have 15 gross) at—Pints, 35c; Quarts, 50c; Half-gal., 65c. We had one merchant to say to us that we were fools for selling at these prices, as we couldn't buy them in the city to sell at less than 65, 75, and 95c. Well, we are not looking out for other merchants, we are for the customers and ourselves. Then we made another good deal for you: We can sell a 10-qt. galvanized pail, that we did sell for 20c, now 15c.; 12-qt. at 18c.

CASTOR MACHINE OIL

Well, this has been a big seller with us. You might ask why? Because we sell an oil that others sell at 50c. gal., for 25c. and it is just a little heavier than theirs.

A nice line of Hammocks at 95c., \$1.25, \$1.95 and \$2.25.

TABLE OIL CLOTH 14c., YARD;
Or \$1.60 Per Roll.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kumble, of Nevada, O., says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."

Kodol Digests What You Eat
