Mail carrier Scott Reeder who has the route between this place and Big Cove Tannery had the misfortune to lose his horse last Saturday. Stopping at Cito postoffice, Scott hitched his horse and went in the office with the mail. When he came out he found the horse down and sick, and in a few minutes the horse was dead.

The News office was favored Monday morning by a pleasant call from George Cromer. He is visiting his mother at Fort Littleton and he and his sister drove down to McConnellsburg. Having an ear for music, George went into one of the big shops at Pitarin, Pa., and works at boiler making. Now his old home at Fort Littleton seems an unusually quiet place.

The Children's Day services at the Sunday school at Philip Morgret's school house in Belfast township, under the management of Thomas K. Downes, superintendent, which were held recently, was a success, and reflects much credit upon all who in any way took part. Appropriate recitations were given by the pupils of that school and by scholars from the Sideling Hill Christian school. The singing led by Miss Nellie Palmer with Miss Zoe Mellett at the organ, was very much enjoyed by the large number of persons present.

The crops of 1908 will be worth nearly eight billions of dollars, according to figures prepared by the Department of Agriculture officials. It is expected there will be sufficient funds to move the crops from the farms to tide-water. In discussing the outlook, Chief Statistician Clark, of the Agricultural Department, said: "Indications at the present time are for great crops. For eight years the American farmers have enjoyed great prosperity, and now the ninth promising harvest is practically assured. Never in the history of the United States have there been nine such years of big fields and high prices.

New Postal Laws.
A newspaper publisher has recently brought suit against 45 men who would not pay their subscriptions, obtaining judgment in each claim. Of those 28 made affidavit that they owned no more than the law allowed, thus preventing attachment. Then under the decision of the Supreme Court, they were arrested for petit larceny and bound over in the sum of \$300 each. All but six gave bond while six went to jail. The new postal law makes it larceny to take a paper and refuse to pay for it.

CURED HAY FEVER AND SUMMER COLD.
A. S. Nusbaum, Batesville Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Trout's drug store.

How to Save 40 Per Cent.
Reader, I can save you 40 per cent. on every dollar's worth of fruit and other trees you buy from me. How can I do that, you ask. By buying my trees at wholesale, thus saving the 35 to 40 per cent. paid the agents who travel over the country selling trees. Compare these prices—Apple trees from 5 to 7 feet high, \$2.50 per dozen; Peach trees—4 to 5 feet high, \$1.25 per dozen; Quince, Pear, Cherry and Plum trees, 40 cents each. These trees come from one of the best nurseries in this State and are guaranteed to be true to name and free from disease. I replace, free of charge, all trees that do not grow the first year.

A Cement Walk.
A good cement walk may be made as follows:
Dig out your path eight inches deep. Fill in and tramp down solid as possible four inches of gravel, crushed stone or coal cinders. The latter should be used if possible, and may be had at gas works or manufacturing plants. Moisten it only enough to pack and be careful not to make it too wet.

Then, while the cinders are damp, take five parts clean, coarse sand and very fine gravel or crushed stone, mixed, about equal quantities, to one part of Portland cement. Mix thoroughly while dry and dampen it only enough to work smoothly, like very thick mortar. Mix only as fast as it can be used, and spread it quickly, three inches deep, using a wheelbarrow to carry it and a shovel and hoe to spread it.

For finishing use equal parts Portland cement and ordinary clean, sharp plastering sand. Mix thoroughly while dry then as fast as it can be used add water and mix until it is like plaster mortar. Dump it on the first coat one inch thick, level the top with the edge of a board, smooth with a trowel, if necessary, and when it begins to dry sprinkle gently or spray it water, a little occasionally, the first day, and within a week it will become as hard as stone. All cement walks are liable to be cracked by frost, but that only slightly injures them.

McGuire of Saxton, one of the Editors of the Sunday School Gem, will give the Bible readings. Ministers from different points will be present. Officers will maintain the best of order. The trustees of the camp are Rev. F. W. McGuire and L. C. Soleneberger whose address will be Maddensville during camp.
