#### Both Saved Gallons.

Devoe is worth \$4 or \$5 a gallon, puton; how much is another paint worth?

Depends on how many gallons you've got to put on, to be equal to one of Devoe.

Mr. J. J. Hall, Sheffield, Pa. painted two houses one coat, five years ago, lead-and-oil, took 40 gallons.

Last summer bought 40 gallons Devoe for same houses: had 10 gallons left.

Mr. N. Avery, Delhi, N. Y. owns two houses exactly alike; painted one with Devoe; took 6 gallons. The other with some other; took 12 gallons.

What'd you give for those off paints? Bear in mind, you've got to pay for the painting.

North American the Medium for Exclusive Show by French Designers.

Something newer and bigger than anything ever attempted in the newspaper field is to be given to the public in the Woman's Sec tion of the Sunday North American for September 20. The management of the paper has undertaken to give to its women readers the very latest of the styles in the European and American fashion centers before the same styles are shown in and of the fashion publications of the country, and pefore they are placed ou sale by the stores in the big American cities.

In handling the tash the paper has succeeded beyond its hope, tographs and drawings.

The great Paris designers of fliction. dresses and millinery have given for publication those creations which will not be seen by the Paris public until they are given For Term of Court Beginning Monday to North American readers here. They have virtually made The North American the medium for the first showing of their new

designs in this country. The special number will be an example of all that is most artistic in newspaper printing.
