Do not overlook the fact as you are about to do the advertising of your public sale this fall that the NEWS office is the place to go for your sale bills—not that the NEWS office will print them cheaper than anywhere else, but the fact that everybody reads the NEWS—Democrats, Republicans, Prohibitionists, Populists and Presbyterians—all read the NEWS, and thus everybody will find out about your sale. Two dozen people will see it in the NEWS to one that will see the bill in some blacksmith shop, or a store where the other fellow's bill hangs over yours.

**To Get Eggs.**

Among other things, it takes lime, protein and fat producing materials to produce eggs and keep the hens in flesh. It is estimated that a bushel of corn will feed 160 hens one day, but it contains only lime and protein enough to make 32 eggs, while it has fat-forming elements enough for two days' feed for 160 hens. This shows the necessity of having a variety of feed in which there is more lime and protein. Is it any wonder hens do not lay in the winter when they are fed nothing but corn?

**CURED HAY FEVER AND SUMMER COLD**

A. S. Nusbaum, Batesville Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Trout's drug store.
