The Rev. J. H. Moore, of the Christian church, in a sermon at Taylorstown last Sunday night, said: "I have my private opinion of any woman who uses a powder puff." A row followed the utterance, which almost developed into a riot. Half a dozen young women jumped up, protesting against such talk. To day the village is in an uproar. The pastor says he will resign as soon as he gets two months' back salary.

M. L. Summers, formerly conducting a grocery store in Huntingdon, and Frank Fouse, of Marklesburg, both well known Huntingdon county men are with others the principals in cases following the exposure in Pittsburg of what the city officials claim is a big swindling scheme working under the name of the Gibraltar Beneficial Society. Mr. and Mrs. J. Kendall Johnston went up to Burnt Cabins in their automobile Tuesday morning and returned in the evening. While spending the day with friends at and near the Cabins, they visited the old Walker farm two miles north of Burnt Cabins, now owned by Mr. Jacob Crouse. On this farm, Mrs. Johnston's great-grandfather, John Walker, built a house in 1763, and it was only last spring that it was torn down. Mrs. Johnston secured a piece of the wood used in the door frame which she prizes very much as a relic.

A physician at Lebanon has been fined five dollars for failing to report to the state health department a case of communicable disease in that city. This little incident serves to call our attention to the extent to which the state or the people themselves are looking after their health. This matter, like many others, is rapidly passing into the control of the state and it is likely that before many years physicians will be public employes, like school teachers and that families will be attended, not only in cases of sickness, but for the prevention of disease. It is a matter that is being affected by the process of socialization that is so rapidly going on in all directions.

**Local Institute.**

The first local institute of Dublin township was held at Battle Ridge last Friday evening. The teachers present were Lewis Harris, Esther Naugle, Elsie Baker, Lillian Fleming, Ally Deshong, and Levi Morton, of Dublin; H. P. Barton, D. K. Chesnut, W. G. Wink, and Wm. Ranck, of Taylor; Blanche Peck, of Todd, and O. Wible, of Licking Creek. Supt. Lamberson and T. S. Hershey were present, and with the other teachers, took an active part in the discussions.

A number of songs and recitations were rendered by the school which helped to make the institute a success.

The meeting adjourned to meet at Mud Level, October 9.—L. P. Morton, Secretary.

**Questions and Answers.**

What is that which never asks any questions and yet has to be answered a great deal? The front door.

What is the difference between a person with lumbago and a window facing the street? One has a pain in the back, and the other a pane in the front.

Why does a flower resemble a public lecturer? Because it depends on its (s)talk.

Why is "smiled" the longest word in the English language? Because there is a mile between the first and last letters.

What made Charing Cross? Teaching London Bridge.

Why is a pin like a blind man? Because it has a head and no eyes.—Philadelphia Ledger.

**JUST EXACTLY RIGHT.**

"I have used Dr. King's New Life Pills for several years, and find them just exactly right," says Mr. A. A. Felton, of Harrisville, N. Y. New Life Pills relieve without the least discomfort. Best remedy for constipation, biliousness, and malaria. 25c. at Trout's drug store.

Statistics give evidence that one of the big leaks for which residents of agricultural communities have to stand good, results from the loss sustained in the hauling of produce to market over bad roads. Being one of the necessary items of expense, that of hauling is sort of taken for granted, little account being given by the average farmer to the annual tax which he pays under the head of hauling expense. On roads which are likely to be bad in spots, from a ton to a ton and a half is a good load for the average team. Where roads are in first class shape, hard and smooth and vehicles of sufficient capacity this load could be increased from 60 to 100 per cent. with virtually no increase in cost of moving. This matter is one in which every grower of stock or produce is vitally interested, and consequently one that should receive his careful attention.

**BEST THE WORLD AFFORDS.**

"It gives me unbounded pleasure to recommend Bucklen's Arnica Salve," says J. W. Jenkins, of Chapel Hill, N. C. "I am convinced it's the best salve the world affords. It cured a felon on my thumb, and it never fails to heal every sore, burn or wound to which it is applied. 25c. at Trout's drug store.

Joseph Johns went to the home of Mrs. Kate Cobaugh at Cone-maugh, Cambria county on Monday night, and riddled with bullets the bodies of his wife, and her aunt, Mrs. Cobaugh. He then attempted suicide by jumping over an embankment to the Pennsylvania railroad tracks. The fall broke both legs, and while trying to crawl under a freight train he was captured. Johns became crazed with jealousy because he heard his wife entertained brother-in-law of her aunt. Johns and his wife did not live together.

**Reflections of a Bachelor Girl.**

Love is a dizzy flight in a balloon; marriage the downward plunge into cold water.  
 The woman who has nothing but boy children may take some consolation in the fact that none of them is doomed to grow up and marry a man like his father.  
 Some men make love with the skill and finish of a child practicing five-finger exercises—the only difference being that in time the child learns better.  
 Whether a man admires constancy in the woman he loves or not depends a great deal on whether she is constant to him or to the rival he is trying to cut out.  
 When a man wants a woman to do anything beneath her he usually starts out by telling her how much above such things he knows she is.  
 It is a toss up whether it is more annoying to have a husband who gets jealous at everything or more mortifying to have one who gets jealous at nothing.  
 "Just once more," is the Devil's best argument.  
 Snap shots of great men all remind us that there is some consolation in being obscure.  
 That deliciously giddy sensation that a woman extracts from hovering round "the brink" of love and just not stepping over it always seems such a foolish waste of time and energy to a man.

**So Like The Woman Hater.**

Many a man's awakening is due to his wife's dream of a bonnet.  
 Don't judge a woman by the company she is compelled to entertain.  
 A girl who is always fishing for compliments seldom hooks one worth while.  
 Marriage merely gives one woman the exclusive right to find fault with a man.  
 Did you ever see a woman offer to pay her street car fare before the conductor reached for it?  
 Occasionally a woman makes a fool of a man, but more often she makes him make a fool of himself.  
 Sometimes a woman after paying \$20 for a hat tells her friends it cost \$30 and her husband that it cost \$10.  
 Perhaps you have noticed that when a woman says, "There's no use talking," she keeps right on talking, just the same.  
 It sometimes happens that a woman does a thing the way she wants to unless her husband expects her to do it that way.  
 A woman is so used to pinning things that she can't understand why a man should make so much fuss about a missing button.

**HE KNEW.**  
 The pretty teacher was trying to explain the difference between good conduct and bad. "Good actions," she explained, "are the lovely flowers. Bad ones are the weeds. Now, can any little boy or girl tell me the difference between flowers and weeds? What are flowers? What are weeds?"  
 "Weeds," said Walter, who had been struggling with the sorrel in his mother's garden, "are the plants that want to grow, and flowers are the ones that don't."—Youth's Companion.
