A Ghost Club's Test.

The London "Ghost Club," a scientific organization with a shivery name, is about to propound a test that ought to go far toward determining whether the dead can communicate with friends on earth. These students of the spiritual world have a secret diary kept by one of their members, recently deceased, and the "man on the other side" will be questioned as to its contents. The book was sealed by its owner before his death and will not be opened until the club has assembled in sofemn conclave to prosecute its in-The names of many of the investigators ought to be a guaran ter of the good faith of the investi-gation. Physicial Tests For Employes, One of the leading railroad com-panies in the East has decided to establish a rule for physical tests before employing men which will be s severe as that required for entering the army or navy. This decision is based on the new Federal employers liability act, passed by the last Congress, the railroad taking the position that in order to avoid the payment of heavy damages it will be necessary to require a high-er degree of efficiency among em-

ployes than heretofore.

The traveling public will be pleased to learn of the new rule.
