

Nothing I Ate Agreed With Me

MRS. LENORA BODENHAMER.
Mrs. Lenora Bodenhamer, R. F. D. 1, Box 22, Kernersville, N. C., writes: "I suffered with stomach trouble and indigestion for some time, and nothing that I ate agreed with me. I was very nervous and experienced a continual feeling of uneasiness and fear. I took medicine from the doctor, but it did me no good."
"I found in one of your Peruna books a description of my symptoms. I then wrote to Dr. Hartman for advice. He said I had catarrh of the stomach. I took Peruna and Manlin and followed his directions and can now say that I feel as well as I ever did."
"I hope that all who are afflicted with the same symptoms will take Peruna, as it has certainly cured me."
The above is one of hundreds who have written similar letters to Dr. Hartman. Just one such case as this entitles Peruna to the candid consideration of every one similarly afflicted. If this be true of the testimony of one person who ought to be the testimony of hundreds, you thousands, of honest, sincere people? We have in our files a great many other testimonials.

A Government Lottery.
Why does the United States Government, which enforces with great rigidity the laws against lotteries, even to excluding foreign newspapers which contain advertisements of them, conduct lotteries itself in the disposal of public lands, as witness the recent distribution of the Rosebud farms? It would be easy to devise a different and indeed a more equitable system of allotment. Purchasing some form of annuity would be fairer and best of all. Anyway, is the appeal to chance in any respect more moral than administered by the United States than when proposed by the Spanish monarchy or the municipality of Paris?—New York Sun.

CLASSIFIED ADVERTISEMENTS

CURE FOR PILES
SAMPLE TREATMENT OF Red Cross Pile Cure and Best of Piles. Write for Free Leaflet. ILEA CO., Dept. 94, Minneapolis, Minn.

Painting The Town Red.
"That expression, 'Painting the town red,' is not," writes a correspondent, "the creation of some unknown genius. Its birth has been traced to 'The Divine Comedy,' Dante, led by Virgil, comes to the cavernous depths of the place swept by a mighty wind where those are confined who have been the prey of their passions. Two faces arise from the mist—the face of Francesca and Paolo."
"Who are ye?" cries Dante in alarm, and Francesca replies sadly, "We are those who have painted the world red with our sins."
Can Or Can't Cahn?
Charley Cahn says he's going to knock our block off. We don't believe Charley Cahn.—Henderson (Neb.) Tribune.

How To Kill Surplus Cats.
How to destroy surplus kittens or puppies in a painless way, without calling into use the old-fashioned method of a bag and a pair of water, is told in the annual report of the London Institute for Lost and Starving Cats. The directions are as follows:
"Take a dish cover, place it where it can be pressed into the mold of the garden, or in default of this, on an old cushion, so that the latter bulges out all around and makes the cover airtight. Place the animals beneath and pour four ounces of pure chloroform on wadding. Push the wadding under the cover, hold the cover down for three or four minutes and then leave undisturbed for an hour. The body must be stiff before burial."
EAGER TO WORK
Health Regained by Right Food.
The average healthy man or woman is usually eager to be busy at some useful task or employment.
But let dyspepsia or indigestion get hold of one, and all endeavor becomes a burden.
"A year ago, after recovering from an operation," writes a Mich. lady, "my stomach and nerves began to give me much trouble."
"At times my appetite was voracious, but when indulged, indigestion followed. Other times I had no appetite whatever. The food I took did not nourish me and I grew weaker than ever."
"I lost interest in everything and wanted to be alone. I had always had good nerves, but now the mere trifle would upset me and bring on a violent headache. Walking across the room was an effort and prescribed exercise was out of the question."
"I had seen Grape-Nuts advertised, but did not believe what I read, at the time. At last when it seemed as if I were literally starving, I began to eat Grape-Nuts."
"I had not been able to work for a year, but now after two months on Grape-Nuts I am eager to be at work again. My stomach gives me no trouble now, my nerves are steady as ever, and interest in life and ambition have come back with the return to health."
"There's a Reason."
Name given by Postum Co., Battle Creek, Mich. Read "The Road to Well-Being," in pgs.
Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Photography and Crime.

A recent exhibition in Vienna, instituted by a Berlin chemist, Dr. Paul Jeserich, who devotes most of his time to legal and criminal matters, has fairly astounded the press of that city by its demonstration of the value of photography in the detection of crime. Every large city now has its roguish gallery, and spreads broadcast photographs of suspects. The photographs of the scenes of crime for the enlightenment of justice is still another development with which the general public is familiar. But few people realize that in many other parts of the world photography has become of enormous value in the actual detection of criminals. To illustrate this remarkable development was the prime object of Dr. Jeserich's display of the eighty enlarged prints which constitute his exhibition.

The sun sees everything, however fallible the human eye. Even when reinforced by the microscope or the magnifying glass, the ordinary observer is apt to overlook little things in themselves of great importance. Moreover, a detective, or an expert employed by the police, might behold through a magnifying glass what he would regard as a trifle, but about which a jury might fail to take his word. By means of the enlargement of a negative, proof of a crime may often be shown to a jury which would otherwise be practically unavailable. This is Dr. Jeserich's contention, and his demonstration of it impressed observers as convincing. For instance, he exhibited two letters which had originally contained money, and had been received without their enclosures. To the eye, they had not been tampered with in any way, and there was nothing to show whether they had been sent without the money or whether they had been opened en route. An enlarged photograph solved the mystery. It showed plainly that one of the envelopes had two lines of postage, while an unevenness in the post-office stamp on the flap showed that there had been a slight variation in the resealing. It was obvious that this letter had been tampered with; the other proved not to have been, for the paper sheets enclosed in place of the money showed, when photographed, the imprint of the post-office stamp which it had received through the envelope.

The tell-tale blotting paper has figured in many a novel and play. Hitherto it has been read by means of a looking-glass. Dr. Jeserich used a divorce case by first photographing the blotter and then enlarging the print; the resulting evidence that the defendant was guilty by itself sufficed to convict the couple. A murderer was convicted by means of a cord with which he strangled his victim; a piece of it was found in his pockets, but not until photography solved the mystery.

THE TRAMP PRINTER.
Passing of a Once Familiar Figure in Newspaper Offices.
What has become of the old time printer, once so familiar before the invasion of the linotype machine? He used to show up with the first frost. You found him in the office early some October morning, toasting his back before the stove. His first request was, "Boss, may I look over the exchanges?" and he was soon paying around among the papers on the editorial table. By 9 o'clock he had leaved sufficient tribute upon the boys to get a shave and a drink, and after dinner he was picking up brewer in a way to make an expert envious. All winter he worked as steadily as a clock. Many were the stories he told around the back room fire on a Sunday afternoon. Though without much education, his very wanderings had made him an entertaining personage.

NOISE NUISANCES.
Some Early Efforts Toward Their Suppression.
"It is so quiet uptown now that the patient listener may now and then catch some of the softer noises of the world," said a semi-invalid lawyer who spends most of the day sitting by the open window of his Harlem flat.
"I have naturally taken a great deal of interest in the present crusade against unnecessary noises, and have been reading up on sporadic attempts to suppress them," he continued.
"The earliest case that I have found was in the reign of George II, when a circus band was silenced by injunction on the ground that its noise was a nuisance. In another old English law report it tells of a plaintiff recovering damages because a flock of wild ducks was frightened by the persistent firing of a gun. The learned judge held that this constituted a public nuisance and was a prejudice to private rights. In Georgia 'gathering in a noisy way at a pigeon shooting' has been judicially decided to be a nuisance. A North Carolina court held that the stamping horses in a livery stable near the plaintiff's dwelling was sufficient annoyance to entitle him to damages."
"Even the noise incident to an ordinary business may be a nuisance. A gold-beater peeling a thin sheet of gold into shape, the hammering of the anvil in the blacksmith shop, the noise of a skating rink, and so on, have all been held to be abatable nuisances."
"The test laid down in the books is that any 'noise which constitutes an annoyance to a person of ordinary sensibility to sound so as materially to interfere with the ordinary comfort of life and impair the reasonable enjoyment of his habitation, is a nuisance to him.'"
"It is within the bounds of possibility that in great centres of population a new class of experts will arise to draw salaries from the municipality as noise specialists. Unusual noises long continued undoubtedly induce deafness, aside from irritating nerves and murdering sleep. At any rate, they destroy a discriminating nicety in hearing, especially in those who have what is called a musical ear."—From the New York Times.

Octopus at the Foot.
A couple in a country village took their baby to be christened, and on the clergyman asking what name they had chosen the happy father replied, "Octopus, sir!" "What!" ejaculated the astonished divine, "but you cannot call a child by so extraordinary a name."
"Yes, sir, if you please," was the reply, "you see it's our eighth and we want it called 'Octopus.'"
Gentlewoman.

Labor On the Land.
It is no good saying airily that the killing of the fields comes naturally to all men. It certainly does not come natural to half the unemployed men to be met with in large cities, even when these men have a sincere desire to get work. For agricultural labor requires a large measure of training and skill, just as other specialized work does.—Sheffield Telegraph.

New York City has twice as many telephones as London, four times as many as Berlin and six times as many as Paris.

COMMERCIAL COLUMN

Weekly Review of Trade and Latest Market Reports.

R. G. Dun & Co.'s Weekly Review of Trade says:
"Decided improvement is noted in most trade reports this week, especially in respect to distributive departments. Orders have come to manufacturers more freely, in many cases accompanied by requests for immediate or very early delivery. Evidences on increased confidence are numerous and prices are more firmly held where concessions have been offered recently without attracting buyers. Many mills have resumed after months of idleness, sufficient orders having accumulated to assure active capacity during the balance of the year, and there is a general belief that contracts will be placed freely during the next two months."
"Recent moderate reductions in prices of pig iron and the large amount of steel business about to be placed have resulted in increased inquiries for material. Purchases are no longer confined to immediate needs, deliveries during the first quarter of 1909 being arranged, and still longer contracts could be taken if producers would name current prices. Orders for steel rails are being placed for both home and export account, some little plants having secured enough business to resume operations, while plate mills are busy on material for recent big orders for cars. Minor metals are firmer because of a decidedly broader demand."

Wholesale Markets.
New York.—Wheat—Receipts, 35,000 bush. Export, 287,000 bush. Spot steady; No. 2 red, 1.09 elevator; No. 2 red, 1.10 f. o. b. afloat; No. 1 Northern Duluth, 1.13 1/2 f. o. b. afloat; No. 2 hard winter, 1.10 f. o. b. afloat.
Corn—Receipts, 12,900 bush. Spot steady; No. 2, 77 1/2 new elevator and 77 1/2 f. o. b. afloat; No. 2, 84 spot for old. Option market was without transactions, closing unchanged.
Wheat—Receipts, 83,400 bush; exports, 2,505 bush. Spot steady; mixed, 26 to 32 lbs, 52@52 1/2; natural white, 26 to 31 lbs, 50@52; clipped white, 32 to 40 lbs, 51 1/2@57 1/2.
Poultry—Alive, weak; Western chickens, 13 fowls, 13; turkeys, 14; dressed steady; Western spring chickens, 12@18; fowls, 12@14; spring turkeys, 10@16.
Eggs—Firm. Receipts, 7,046 crates. State, Pennsylvania, and near-by fancy selected white, 43@45; do., fair to choice, 33@42; brown and mixed, fancy, 33; do., fair to choice, 29@32; Western firsts, 26@27; seconds, 23@25.
Philadelphia.—Wheat—Dull and unchanged.
Corn—Dull, 3/4c. lower; No. 2 for local trade, 83 1/2@84c.
Oats—Steady; No. 2 white, natural, 53@53 1/2.
Butter—Firm; extra Western creamery, 28; do., near-by prints, 30.
Eggs—Firm; Pennsylvania and other near-by firsts, free cases, 29c.; at market, do., current receipts, free cases, 28c.; do., current receipts, free cases, 28c., at market.
Cheese—Quiet; New York full cream, choice, 13 1/2c., do., fair to good, 12 1/2@13.
Poultry—Alive, firm; fowls, 11@12; old roosters, 8@8 1/2; spring chickens, 10 1/2@11 1/2; ducks, 10 1/2@11 1/2.
Baltimore.—Flour—Dull and unchanged. Receipts, 9,826; exports, 2,351.
Wheat—Receipts. Spot, contract, 1.02 1/4@1.02 1/2; spot, No. 2 Western, 1.04 1/2@1.05; October, 1.02 1/4@1.02 1/2; November, 1.02 1/4@1.02 1/2; December, 1.03 1/2; steamer, 2 1/2 red, 99 1/2@99 1/2; Southern, 28@28 1/2; 99 1/2@1.02 1/2. Receipts, 35,248.
Corn—Firm; year, 66 1/2@66 1/2; January, 66 1/2@66 1/2. Receipts, 15,580; exports, 700.
Oats—Steadier; No. 2 white, 52@52 1/2; No. 3 white, 51@51 1/2; No. 2 mixed, 50 1/2@51. Receipts, 14,229.
Rye—Nominal; No. 2 Western export, 52@52 1/2; receipts, 25,786.
Butter—Steady; fancy imitation creamery, 25@25 1/2; fancy creamery, 29@30; fancy ladle, 29@31; store packed, 14@17.
Eggs—Steady; 27@28.
Cheese—Quiet; new large, 13 1/2; new flat, 13 1/2 new small, 14.

Live Stock.
New York.—Receipts, 1,141; trading; feeling steady.
Calves—No trading in Western calves; feeling weak. Veals sold at 5.00@5.25 per 100 pounds; grassers and dried calves, 3.25@4.00.
Sheep and Lambs—Receipts, 3,777; sheep unchanged; lambs sold, 3.70 per 100 pounds; culls at 2.00 to 2.25; lambs at 5.25 to 6.15, and culls at 3.50.
Hogs—Receipts, 3,179; feeling steady. New York State and Pennsylvania hogs, 5.90@6.00 per 100 pounds.
Chicago.—Cattle—Receipts estimated about 5,000; market steady to strong; steers, 4.40@7.60; cows, 3.00@5.00; heifers, 2.50@5.25; bulls, 2.50@4.50; calves, 3.00@4.80; stockers and feeders, 2.50@4.65.
Hogs—Receipts estimated about 30,000; market 5@10c. lower. Choice heavy shipping, 6.00@6.20; butchers, 5.95@6.10.
Sheep—Receipts estimated about 20,000; market 10@20c. lower; sheep, 2.50@5.00; lambs, 4.75@6.00; yearlings, 3.85@5.15.

Most Work Before Daylight.
That life is not all a bed of roses for the college professor, is a fact that is being experienced by Prof. E. F. Nichols, of the physics department of Columbia University. Every morning, promptly at 1:30, Dr. Nichols tumbles from his comfortable bed and wends his way to Fayerweather Hall, where he works in his laboratory from 2 until 4 A. M.

The professor is not taking an outdoor tuberculosis cure, nor is he seeking to perpetuate health, youth and beauty. The truth is, that Prof. Nichols is perfecting a new type of galvanometer. It is for this that he seeks his laboratory every morning.

Dr. Nichols has found that during the day he is unable to accept of his laboratory in the hope of surprising and capturing some wild, elusive secret of science.—New York Herald.

Consumption And The Telephone.
The panic recently created on the subject of the assumed danger lurking in the transmitter of the telephone is not precisely new. It is but the development of a fear which has caused misgivings for some years, as is pointed out by the British Medical Journal. On the supposition, it says, that various germs of disease probably collect in the receiver and transmitter of the instrument, at any rate in public telephone stations, some medical alarmists have thrown out suggestions that antiseptics, both in a dry state and in solution, should be applied for the safety of the telephone user. "The recent dictum goes one step further, inasmuch as it is now an established fact that tubercle bacilli, the casual micro-organisms of consumption, have been found—alive and in robust condition—in the instrument. It is quite natural, in view of such a find, that a feeling of alarm might seize hold of the more nervous."—Current Literature.

The Antiquity Of Soap.
The word Soap or Sops, from the Greek sapa, first occurs in the works of Pliny Galen. Pliny states soap to have been discovered by the Gauls, that it was composed of tallow and ashes, and that the German soap was reckoned the best. According to Pliny a soapmaker was included in the retinue of Charlemagne. At Pempell (overwhelmed by an eruption of Vesuvius, A. D. 79), a soap-boiler's shop, with soap in it, was discovered during an excavation made there not many years ago.

Hicks' Capsular Cures Nervousness. A better tired out, worried, overworked, or what not. It refreshes the brain and nerves. It's Liquid and pleasant to take. 10c., 25c., and 50c., at drug stores.

Winnow's Soothing Syrup for Children. Soothes, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c. a bottle.

The average man keeps a lot of ready-made excuses on tap.

Habitual Constipation
May be permanently overcome by proper personal efforts with the assistance of the only truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. To get its beneficial effects, always buy the genuine Syrup of Figs and Elixir of Senna manufactured by the CALIFORNIA FIG SYRUP CO. ONLY SOLD BY ALL LEADING DRUGGISTS (one size only, regular price 50c. per bottle).

PUTNAM FADELESS DYES
Color more goods brighter and faster colors than any other dye. One 10c. package colors all fibers. They dye in cold water better than any other dye. Ten one dye set contains without tipping apart. Write for free booklet—How to Dye, Bleach and Fix Colors. MONROE DRUG CO., Quincy, Illinois.

EPISO'S
Beware of the Cough that hangs on persistently, breaking your night's rest and exhausting you with the low doses of the poisonous medicine of Piso's Cure will relieve you. It is a cough cure, not a medicine for colds or croup. It soothes and breaks the irritated membrane, and the cough disappears. At all druggists, 25c. per bottle.

THE CURE
The experiment of paving streets with iron-slag blocks, now under way at Brooklyn, N. Y., was tried in Philadelphia 10 years ago and considered a failure on account of the extensive chipping.

The total crop of figs is now more than 124,000,000 pounds a year.

PERFECT HEALTH

After Years of Backache, Dizziness and Kidney Disorders.

Mrs. R. C. Richmond, of Northwood, Iowa, says: "For years I was a martyr to kidney trouble, backache, dizzy spells, headaches and a terribly bearing down pain. I used one remedy after another without benefit. Finally I used a box of Doan's Kidney Pills and the backache ceased. Encouraged, I kept on and by the time I had used three boxes not a sign of the trouble remained. My health is perfect."
Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Depth At Which Miners Can Work.

Below 80 feet the temperature rises in the proportion of one degree for every 65 feet of depth except where currents of water carry the heat away. The result is that at a depth of about 4,000 feet we reach a temperature of 98 degrees, or blood heat. This renders it exceedingly difficult to work coal pits below that depth. This is the reason that Great Britain's coal commission has decided that mines are not workable below 4,000 feet.
The thickness of the solid rocks building up the crust of the earth is at least 20 to 40 miles. At that depth the heat is such as would reduce everything on the surface of the earth to liquid. But the pressure of the overlying rocks is so great that until the relation of the heat to the pressure is known it cannot be said whether the earth at that depth is fluid or solid.—Chicago Tribune.

STATE OF OHIO, CITY OF TOLEDO, Lucas County.
FRANK J. CHEENEY, hereby certifies that he is a fact that is being experienced by Prof. E. F. Nichols, of the physics department of Columbia University. Every morning, promptly at 1:30, Dr. Nichols tumbles from his comfortable bed and wends his way to Fayerweather Hall, where he works in his laboratory from 2 until 4 A. M.

FOUR GIRLS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

FACTS FOR SICK WOMEN.
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, fatiguety, indigestion, dizziness, nervous prostration. Why don't you try it?
Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Tarring And Feathering.
Tarring and feathering, it seems, is a European invention. One of Richard Coeur-de-Lion's ordinances for seneschals was "that if any men were taken with theft or pickpocket and thereby convicted, he should have his head pointed, and hot pitch poured upon his pate, and upon that the feathers of some pillow or cushion shaken aloft, that he might thereby be known for a thief, and at the next arrival of the ships to any port he put forth of the company."—His adventures without all hope of return unto his fellows."

Little Boy Kept Scratching.
Eczema Lasted 7 Years—Face was All Raw—Skin Specialist Failed, But Cuticura Effected Cure.
"When my little boy was six weeks old an eruption broke out on his face. I took him to a doctor, but his face kept getting worse until it got so bad that no one could look at him. His whole face was one crust and must have been very painful. He scratched day and night until his face was raw. Then I took him to all the best specialists in skin diseases, but they could not do much for him. The eczema got into his arms and legs and we could not get a night's sleep in months. I got a set of Cuticura Remedies and he felt relieved the first time I used them. I gave the Cuticura Remedies a good trial and gradually the eczema healed all up. He is now seven years old and I think the trouble will never return. Mrs. John J. Klump, 80 Niagara St., Newark, N. J., Oct. 17, 1907."

The outcome of a trip on the matrimonial sea depends largely on the ballast.
To Drive Out Malaria and Build Up the System
Take the Old Standard GAY'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form, and the most effective form for grown people and children.

You are not entitled to much credit for doing the things you want to do.
Capsular Cures Indigestion Pains, Belching, Sour Stomach, and Heartburn, from whatever cause. It's Liquid. Effects immediately. Doctors prescribe it. 10c., 25c., and 50c., at drug stores.

Poor judgment in the blossom and bad luck is the fruit. B. N. U. 40.

SAFETY RAZOR
AT LOW PRICE.
SUPERIOR TO BEST SOLD AT ANY PRICE.

Its all in our blades. SHRP SHAVR MARK. The small price is made possible by the great demand for this Razor. The small profit on each aggregating as large a sum as if we sold fewer at a greater price. The benefit is the consumer's.

The Blade is of the finest steel, scientifically made and tempered by a secret process—and the blade, of course, is the important part of any Razor. The frame is of satin finish, silver plated, and "angled" correctly for safe, quick and clean shaving. The tough bearded man finds this Razor a boon; the soft bearded man finds it a delight. These blades can be stopped. Buy one and you will recommend it to all your friends. That is the best test of any article.

in postage stamps or cash brings it prepaid by mail in a special box. Write name and full address very plainly. BOOK PUBLISHING HOUSE, 134 Leonard Street, N. Y. City.

25 cts.

5 EXTRA BLADES 25c

EPISO'S
Beware of the Cough that hangs on persistently, breaking your night's rest and exhausting you with the low doses of the poisonous medicine of Piso's Cure will relieve you. It is a cough cure, not a medicine for colds or croup. It soothes and breaks the irritated membrane, and the cough disappears. At all druggists, 25c. per bottle.

THE CURE
