Weekly Review of Trade and Latest Market Reports.

Broastreet's says: Enlargement and expansion are still the dominating influences in trade and industry...

The beginning of the tariff hearings at Washington brings to the attention of the business community the fact that revision of some kind is promised and that Congress, early in 1909, will have this matter in digest.

GOALS AND RINDS. In 1905 the sum of \$27,608,000 was expended by employers in Germany for the direct aid of their employees. More than two-thirds of this was given as voluntary contributions by private firms and individuals.

Out of 42 existing blast furnaces in Michigan only 31 are at present in operation, as compared with 36 at this time a year ago. The output of pig iron for 24 hours comprises: Four furnaces, 390 tons of forge pig; three, 200 tons of foundry pig; and 24, 2,558 tons of Bessemer cast-iron pig.

The islands of the Pacific Ocean contain the largest known deposits of high-grade phosphates. A London company controls the deposits in Ocean and Pleasant Islands, in the Gilbert group. The deposits on these islands are estimated at 56,000,000 tons, of which scarcely a million tons have been marketed.

Nearly a third of Sicily's great lemon crop each year is consumed in the manufacture of citrate of lime, while the peel of the same fruit yields almost the whole of the world's supply of essential oil or essence of lemon.

SEEMED WORSE EVERY DAY.

A Dangerous Case of Kidney Trouble and How It Was Checked. Mrs. Lucy Quebec, Mechanic St., Hope Valley, R. I., says: "Eight years ago I contracted severe kidney trouble and my back began to ache continually. Every day it seemed worse. The least pressure on my back tortured me, and I could not stoop without a bad twinge. The kidney secretions passed irregularly with pain, and I bled badly. My head swam and spots fitted before my eyes. One doctor said I was incurable. However, I found prompt relief when I started using Doan's Kidney Pills, and the troubles I have related gradually disappeared."

Seedless Apple Discovered. A seedless apple tree, bearing a sweet apple that looks something like the sheep-nose, has been found on the farm of C. E. Bell, at Eskridge.

Samples of the apple were received by the State Horticultural Society, and next spring an effort is to be made to propagate them by grafting the buds from this tree, the same as grafting done in other trees.

It is believed a variety of seedless apples will be developed. The tree on Mr. Bell's farm has been bearing three years. There is no sign of a seed, but there is a small core, which apple men think can be entirely removed by careful propagation.—Chicago Inter Ocean.

When The Weather Was Cold. An American and a Scotchman were discussing the cold experienced in winter in the north of Scotland.

"Why, it's nothing at all compared to the cold weather we have in the States," said the American. "I can recollect one winter when a sheep, jumping from a hillock into a field, became suddenly frozen on the way and stuck in the air like a mass of ice."

"But, man," exclaimed the Scotchman, "the law of gravity wouldn't allow that."

"I know that," replied the tale-pitcher. "But the law of gravity was frozen, too!"

\$100 Reward. \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure takes internal action, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CENEY & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Love.

Howard—And how did the plain widow Perkins capture the fastidious Mawker? Coward—Oh, took him out in her car and showed him a few hundred of her building lots. Howard—Ah, I see—a case of love at first sight.—Harper's Weekly.

HAD BAD ITCHING HUMOR.

Limbs Below the Knees Were Raw—Felt Swollen, Sleep Broken—Cured in 2 Days by Cuticura.

"Some two months ago I had a humor break out on my limbs below my knees. They came to look like raw beefsteak, all red, and no one knows how they itched and burned. They were so swollen that I could not get my shoes on for a week or more. I used five or six different remedies and got no help, only when applying them the burning was worse and the itching less. For two or three weeks the suffering was intense and during that time I did not sleep an hour at a time. Then one morning I tried a bit of Cuticura. From the moment it touched me the itching was gone and I have not felt a bit of it since. The swelling went down and in two days I had my shoes on and was about as usual. George B. Farley, 50 South State St., Concord, N. H., May 14, 1907."

This woman says that sick women should not fail to try Lydia E. Pinkham's Vegetable Compound as she did.

Mrs. A. Gregory, of 2355 Lawrence St., Denver, Col., writes to Mrs. Pinkham:

"I was practically an invalid for six years, on account of female troubles. I underwent an operation by the doctor's advice, but in a few months I was worse than before. A friend advised Lydia E. Pinkham's Vegetable Compound and it restored me to perfect health, such as I have not enjoyed in many years. Any woman suffering as I did with backache, bearing-down pains, and periodic pains, should not fail to use Lydia E. Pinkham's Vegetable Compound."
