### LESS MEAT Advice of Family Physician.

Formerly people thought meat necessary for strength and muscular

The man who worked hard was supposed to require meat two or three times a day. Science has found out differently.

It is now a common thing for the family physician to order less meat, as in the following letter from a N. Y. man:

"I had suffered for years with dyspepsia and nervousness. My physician advised me to eat less meat and greasy foods generally. I tried sev. eral things to take the place of my usual breakfast of chops, fried potatoes, etc., but got no relief until I tried Grape-Nuts food.

"After using Grape-Nuts for the cereal part of my meals for two years, I am now a well man. Grape-Nuts benefited my health far more than the \$500.00 worth of medicine I had taken before.

"My wife and children are healthler than they had been for years, and we are a very happy family, largely due to Grape-Nuts.

"We have been so much benefited by Grape-Nuts that it would be un-grateful not to acknowledge it."

Think Leas Met Foul Play.

York.—That Albert Leas, whose body was found in a barn on his brother-in-law's farm near Hellam met with foul play, is indicated by a further investigation by the authorities. The theory of suicide was exploded at a post-mortem, it being revealed that Leas met his death by heart trouble, hastened by a blow on the bead. A thick salve had been smeared on the dead man's face when his body was discovered. It is the opinion of the authorities that the salve was placed on the injured nose and forehead in order to relieve the suffering of the injured man.
