CURES INDIGESTION.

All Distress From Stomach and Indigestion Vanishes in Five Minutes.

Take your sour stomach—or may be you call it Indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50 cent case of Pape's Diapiesin and let you eat one 22-grain Triangle and see if within five minutes there is left any trace of your stomach misery.

The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness and many other similar symptoms.

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food. Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapiesin.

Live Within Your Income.

Have your standard and live up to it. Set that standard according to your own income and your own judgment of what is best for you and yours. This trying to live up to the standard of others is what destroys the happiness of many households. Families with an income of \$1,000 a year make a desperate effort to live up to the standard of those with \$1,500, and those with \$1,500 try to imitate those with \$2,000 a year. We have such a foolish fear of what our neighbors will do or think or say. We have not the moral force to fix our own standard and live up to it as we ought. The courage of one's convictions the independence of one's sense of what is best for one's individual self and family, are valuable possessions of this age of artificiality and striving for effect.

REAL SPORT.

Expanding Beyond One's Means is Poverty's Excitement.

"It is delightful to be rich," says the heroine of a very modern novel; "but I sometimes wonder whether it is not more exquisite to be poor, to do things one can't really afford!"

There is more than a dash of truth in this phrase, for "the things we can't afford" are precisely the things which we imagine will be more amusing than the ordinary routine of life. There is a sense of high adventure in squandering money when your finances are low, and you give a hostage to fortune when you expend your last available \$50 note. In these breathless modern times there is a consensus of opinion that nothing succeeds less than thrift, while parsimony, especially in a young man, is looked upon as a vice.

One recalls a cheery individual who, when he is depressed and in a condition which he laconically describes as "stony," always goes out and buys something expensive, or gets up a dinner party. This, he says, is a sure incentive to work and renewed efforts whereas he would sink into depression and apathy if he had not made the protest against Fortune of squandering his last penny.

The very rich, one is convinced, having no delight at all in spending money. They write a big check with no more emotion than they address an envelope, and the spending of a thousand dollars does not afford them a quarter the delight which the acquisition of some foolish trinket does to one of the leaner kind.

But, when all's said, it is well to think twice before spending money recklessly.

Eat What You want of the food you need Kodol will digest it. You need a sufficient amount of good wholesome food and more than this you need to fully digest it. Else you can't gain strength, nor can you strengthen your stomach if it is weak. You must eat in order to live and maintain strength. You must not diet, because the body requires that you eat a sufficient amount of food regularly. But this food must be digested, and it must be digested thoroughly. When the stomach can't do it, you must take something that will help the stomach. The proper way to do is to eat what you want, and let Kodol digest the food. Nothing else can do this. When the stomach is weak it needs help; you must help it by giving it rest, and Kodol will do that.
