CURES INDIGESTION.

All Distress From Stomach and Indigestion Vanishes in Five Minutes.

Take your sour stomach—or may be you call it Indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50 cent case of Pape's Diapepsin and let you eat one 22-grain Triangle and see if within five minutes there is left any trace of your stomach misery.

The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness and many other similar symptoms.

If your appetite is tickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

Cow Costs State \$75,000.

It will cost the state in the neighborhood of \$75,000 to stamp out the foot and mouth disease among the cattle, which was brought into Pennsylvania by an infected cow from the Buffalo cattle pens, and which spread with lightning-like rapidity through about fourteen counties.

The 200 people engaged in the work of stamping out the disease made reports from 55,000 farms and found infected cattle on 101 farms. They killed 1215 cattle and 1123 swine, costing the state \$58,651. This cost, however, does not include the damages to premises which the state will have to pay.

When They Make Change in New York.

A thin little man, with a long beard and a big bundle, boarded a Second Avenue car at Fifth Street the other day, says the New York "Sun," and when the conductor came around, handed up a \$1 bill and asked for a transfer to the Fourteenth street line.

The conductor handed the passenger a half dollar, a quarter, and three dimes. The thin little man saw the three dimes and quickly thrust his change in his pocket. He didn't wait until the car got to Fourteenth street, but alighted at Eighth street. When he had gone a passenger said to the conductor:

"You gave that man three dimes instead of two." The conductor did not smile, but said:

"Did I? Well, he'll have a devil of a time getting rid of the half dollar."

Your 1909 Advertising.

If it is to appear in Philadelphia should be placed in The Philadelphia Press. The Great Home Newspaper in Philadelphia.

The advertiser in The Daily Press makes the most direct appeal it is possible to make to the purchasing power of Philadelphia.

Because The Press is the paper that goes into the majority of the better class of homes. It is the paper the wife insists upon having. It is the paper the thoughtful parent puts into the hands of son and daughter.

It is the paper the household want for its dependable news, its character, its prestige, its reliability—are the reasons why. There's no scattered-shot circulation, no hit-or-miss advertising with The Press.

There's no guesswork either about The Press circulation; it is the one morning paper in Philadelphia which issues a detailed statement sworn to. The present rate of The Philadelphia Press, for the quantity and quality of its circulation, makes it the biggest value in advertising in Philadelphia.

Chestnut Farms.

By the purchase of 165 acres of timberland in what is known as "Pine Swamp" in Cleveland township, Columbia county, C. K. Sober, of Lewisburg, has secured a place which he considers ideal for the developing of one of his well known chestnut farms.

After clearing the land he will commence the systematic planting of his "Paragon" chestnut trees, with which he has won fame and fortune. It is his intention to make the Columbia county chestnut farm the equal of his Northumberland county property.

Mr. Sober has 400 acres of land on his Irish Valley farm near Shamokin. Here he has planted thousands of native chestnut trees, upon which he has grafted the Italian or "Paragon" chestnuts. Last year he harvested 3,000 bushels, all of which were sold in the State of Washington for the average price of \$6 per bushel.

With new trees coming on this year, and a good crop, there is no present reason, he says, why the crop ought not to exceed 5,000 bushels on the farm.
