The Oil Stove With a CABINET TOP

The New Perfection Wick Blue Flame Oil Cook-Stove differs from all other oil stoves.—It has a CABINET TOP. This means you can keep dishes and utensils within easy reach while cooking, and can keep food hot after removing it from the blaze.

From its wonderful burners to its racks for holding towels—the

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

is without equal. Its principle of concentrated heat means that the work can be done quickly and without the kitchen being heated to an unbearable degree. Can be lighted instantly and turned "high," "low" or "medium" at will. Three sizes. With or without Cabinet Top. At your dealer's, or write our nearest agency.

The Rayo Lamp comes as near lamp perfection as it is possible to get. Gives a clear, bright light that reaches the farthest corner of a good-sized living-room. Well made throughout of nicked brass; perfectly safe and very ornamental. If not with your dealer, write our nearest agency.

THE ATLANTIC REFINING COMPANY (Incorporated)

Gone Forever.

Ten years ago an Allen county, Kansas, farmer put his initials on a dollar bill. The next day he went to the nearest town and spent it with a merchant. Before the year was out he got the dollar back. Four times in six years the dollar came back to him for produce, and three times he heard of it in the pockets of neighbors. The last time he got it back was four years ago. He sent it to a mail order house. He has never seen that dollar since, and he never will. That dollar bill will never pay any more school or road tax for him, will never build or brighten any of the homes of the community. He sent it entirely out of the usefulness to himself and his neighbors.

Plant Lice or Aphids on Apple Trees, Rose Bushes, etc.

In answer to a correspondent writing from Pittsburg a few days ago, as to what treatment to use to destroy the Woolly Aphis on apple trees, State Zoologist Surface gave the following information, which is published for the benefit of everybody interested:

"The Woolly Aphis on apple trees generally works in spots where the bark has been injured and can at such places be easily killed by painting with a very strong soap solution, using a paint brush, and pushing the soap solution well into the cracks of the infested parts. If not treated it keeps the would sore and often results in knots, galls, or other kinds of deformation. Where the pest has spread to other parts of the tree, such as to the leaves, it can be killed by spraying with white oil soap, one pound in six gallons of water; or common laundry or other soaps, one pound in three or four gallons of water; or, perhaps best of all, with an eight percent kerosene emulsion. This emulsion I recommend for all sucking insects, such as plant lice, rose leaf hoppers, young scale insects, etc. It is made by shaving one-half pound of hard soap of any kind into a gallon of boiling water and stirring it until it is dissolved. Into this pour two gallons of kerosene (after removing it from the fire), and beat it or whip it like beating eggs, or, better, churn it around through the spray pump, about five minutes, when it will assume a thick creamy mass, and will be a permanent stock emulsion from which you can take a supply to mix in water when needed. For this take one part of the stock emulsion to ten parts of water, and this will make about eight percent actual kerosene in the dilute emulsion. By this treatment the kerosene loses some of its original qualities, and does not float on the water, but becomes dissolved or absorbed in it, and does not do the injury to vegetation that it would if the pure kerosene were used on foliage. At the same time it is also strong enough to kill such pests.

The Woolly Aphis also works on the roots, often causing serious deformities or knots, and remains at such injured places. Whenever they are discovered they can likewise be treated by painting with strong soap solution or by uncovering the roots and coating them well with finely powdered tobacco dust, and then replacing the earth. The fertilizing value of tobacco dust will alone be sufficient to justify this work.

GRACEY.

We have been having some very rainy weather during the past few days.

J. L. Kesselring is building a new barn this summer. J. M. Foreman and son are the contractors.

S. C. Gracey, is wearing a smile that will never wear off. It is a girl.

Scott Martin from near Eagle Foundry, Huntingdon county, spent a few days recently at the home of his nephew A. L. Shaw.

J. C. Barnett, wife and two children spent Sunday at J. W. Cutchall's.

Russell Gracey and Robert Cromer, two Normal students, spent Saturday and Sunday at Gracey, visiting at the former's home.

Mrs. Nannie Gracey, wife of Robert Gracey, of Philadelphia, with her two sons Ralph and Laurence, are spending some time visiting friends and relatives in this vicinity.

Alice Cutchall and Ruth Strait who are attending Normal at McConnellsburg, spent Saturday and Sunday at their home near this place.

There will be children's service at Mt. Tabor, June 13th and at Center, June 20th.

The Yankee Inventor.

Oreille and Wilbur Wright, who returned from Europe, last week, are Ohioans by the accident of parental migration. Essentially they are Yankees of the lean, angular type that has furnished its share and more of the world's inventors.

With the great inventors these two bicycle repairers of a small interior city have placed themselves in ten years, by a combination of courage, ingenuity, persistence and self-won scientific attainments of no mean order. It is not a small thing that they have done in reversing the current of aerial invention and experiment, which recently set so strongly toward the dirigible balloon; in making the aeroplane a practical travelling machine, and in closing foreign contracts for actual delivery.

Like most inventors the Wrights were poor. They had to earn a living while experimenting with costly and fragile material. The plotting of the curves of an aeroplane propeller and of the set of its wings is as complex as the problems of marine engineering; and the Wrights had in effect to make their own text-books. Like Maxim, like Hitchcock, like the Irish-American schoolmaster Holland with his submarine boat, the Wrights found abroad the governmental recognition they could not win at home. They have not revolutionized warfare, as Ericsson did with his Monitor, which turned to junk the wooden navies of the world, but they have added to it new terrors, new complications, new corps d'elite of men ready to die in a desperate cause.

The Zeppelin airship will carry sixteen men, but it is very costly, it can fly only in a large body of water and it is more than 400 feet long, an enormous target for the new Krupp vertical machine guns. The cheap little aeroplanes may yet be seen by the hundred, like flights of battle-birds, wheeling and swooping over the sea field or falling with broken wings to earth. It is a prophetic vision of terror but of beauty that the two Ohio Yankees have forced the world to look upon.

The Philadelphian Press has secured the exclusive right to publish in serial form, "Stradella," the last story written by the great author, F. Marion Crawford, who recently died in Italy. It is a brilliant, fascinating and very entertaining story, with excellent characters and charming romances. The story will not appear in book form until after it has been published exclusively in "The Philadelphian Press." The opening chapters will appear June 6th and the story will be continued both daily and Sunday until completed. Order "The Philadelphian Press" and read the opening chapters of this great story, which begins Sunday, June 6th.

Kodol Dyspepsia Cure Digests what you eat.

Will Wheat Come Down?

Wheat has been quoted for several days in Chambersburg at \$1.48 per bushel, the highest price this staple has brought for many years. Of course this is purely a speculative price. The farmers have little or no wheat to sell and the market again is in the hands of the speculators. But despite this fact there is no doubt a shortage in the supply and this has been a factor in advancing prices. Will wheat come down after harvest? As an aid to the answer to this question is the May crop report of the department of agriculture, which shows an average a little over 8 per cent less than last year. The average condition of wheat in May was two and a half per cent below the average for the past ten years. Therefore, even though the market should break from the present speculative figures, the price is certain to remain high for some time.—Valley Spirit.

BRUSH CREEK.

Several people from our Valley attended the Sunday School Convention in Whips Cove last Saturday. On account of the rainy weather not so large a crowd was present, but the convention was considered very successful.

Miss Gertrude Barton, of Everett, is spending a few weeks with her parents, Mr. and Mrs. M. E. Barton.

Mrs. A. M. Hixson and Mrs. M. P. Barton spent Sunday afternoon with Mr. and Mrs. Ernest Hixson.

Master John Stoutengle is spending some time with his grand-parents Amos Hixson and wife.

Dr. E. D. Akers, wife and children spent Sunday with Mrs. Akers's parents George Truax and wife, at Emmaville.

Oliver Clevenger, wife and daughter Mary, spent Sunday with M. J. Hixson and family.

Geo. Lodge spent Saturday and Sunday with friends and relatives at McConnellsburg.

Scott Bequeath and wife were visiting relatives at Gapsville last Sunday.

Mrs. Geo. Hixson and children—Marshall, Grant and Margaret—were visiting friends and relatives in Buck Valley the latter part of last week.

E. D. Hixson and wife were callers on friends at Akersville last Wednesday.

A number of members of the McKendrie church met last Wednesday to clean the church and graveyard.

HEALTH HINTS.

Persons who complain of having no appetite for breakfast will do well to remember that in most instances it is their own fault.

The majority of those in the "no appetite" class are persons who are in the habit of sitting down to breakfast within a few moments after rising. Such a habit is not conducive to good health. There is an easy and altogether pleasant way of overcoming the absence of appetite for breakfast.

Arise a half or three quarters of an hour earlier than has been the habit and get out in the open air. Take a brisk walk of ten or fifteen minutes' duration, breathe deeply, but do not tire yourself.

Then rest for a few minutes and you will find that the breakfast will be most welcome. After a few days of this general system will become accustomed to this natural, but long-delayed stimulant, and the appetite will increase. After breakfast a short rest should be taken.—Philadelphia Press.

A Question of Etiquette.

The custom of men rising and stepping into the aisle to let a woman enter the pew in church dates from a period when good Christians were not safe, even in church, and as the enemy might appear at any moment, the men had to be in positions of advantage. Why the custom has been preserved in these peaceful days it is hard to say, unless it be attributed to the masculine desire to get out of the house of prayer as quickly as possible when the service is over. Men who step out of the pew so politely into the aisle doubtless would let a woman crawl over them in her effort to reach a seat in a street car. In church and street car considerate men move up in the seat.

Better Not Get Dyspepsia

If you can help it, Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. The Kodol and preventing having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it. Ordinary peptic dyspepsia tablets, physicians, etc., are not likely to be of much benefit to you, in digestive ailments. Peppals is only a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Your Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and you will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to bottles in a family. The large bottle contains 24 times as much as the fifty-cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

For Sale at Trout's Drug Store.

BUGGIES

I have just refilled my sheds with a fine lot of new Top Buggies, both factory and hand-made; ranging in price from \$45.00 up to \$75.00 for the best hand-made Milling-buggy. My \$45 buggy is a good, strong, substantial one that I will guarantee to give good satisfaction. I will sell on time to suit customers. It will pay you to examine my stock before you buy elsewhere.

Thanking the public for past patronage and soliciting a continuance of their favors I am,

Very truly yours,

W. R. EVANS
 HUSTONTOWN, PA.

WHAT ABOUT YOUR VACATION

DO YOU KNOW WHERE TO GO, HOW TO GO, WHAT TO TAKE, WHAT IT WILL COST AND THE DOZEN AND ONE OTHER THINGS THAT MAKE OR MAR A VACATION?

All this information can be had for the asking through RECREATION'S INFORMATION BUREAU and absolutely without cost to you; the only condition is that you are a reader of RECREATION either by subscription or by purchase at your newsdealer.

JUNE NUMBER OF RECREATION

is the GREAT VACATION NUMBER, and contains more valuable and accurate information on outdoor vacations, and reliable and interesting articles on all clean, wholesome recreation than was ever before published in any magazine.

ALL THE ARTICLES AND ALL THE UNUSUAL PICTURES (OF WHICH THERE ARE MORE THAN 100) ARE FURNISHED BY MEN WHO HAVE "BEEN THERE." 6400 SQUARE INCHES OF LIVE OUTDOOR ARTICLES AND PICTURES IN THIS JUNE NUMBER.

We want you to become acquainted with RECREATION and all its helpmates. This June number, especially, is a gem and the greatest value for the money you ever saw. BUY THE JUNE NUMBER AT ANY NEWSDEALER'S. IF HE CANNOT SUPPLY YOU, SEND US 25 CENTS AND WE WILL SEND YOU A COPY BY RETURN MAIL.

RECREATION
