A stenographer is at my elbow. Everything is ready. I wonder what I shall write about. -Freeman Tilden in Life.

For hundreds of years manking used the same style and size of razor and had no thought that it could be improved until some genius evolved the safety razor. That genius reaped the benefit of his inventive talent by charging from \$3 to \$5 for each implement, people being glad to buy at those figures. Now comes another inventor who has made possible a still better safety razor, and for only twenty-five cents. That sum in postage stamps sent to the Book Publishing House, 134 Leonard street, New York, will secure a razor postpaid

News From Helland.

We have been examining with in-terest and edification a recent issue of our Dutch namesake, De Courant, Amsterdam. We must applaud the diligence shown in collecting and sorting the news of the Netherlands. A modicum of foreign news is sup-plied in "Reuter Telegrammen." The sport-reducteur tells, in many columns, of the doings of the Nederlandsche Automobielclub; voetbal; cricket; gymnastiek, etc. The im-portant departments of Financieele Mededeelingen and Marktberichten have been duly looked after. There are several stories; the muses also get a show. One poem begins: "Johan en Grietje, broertje en zusje

vochten, Zooals 't gewoonlijk—knap wie dat

verstaat!-Tusschen broerties en zusies gaat. In an illustrated "Zondagsblad," we find portraits of Maeterlinck and Maarten-Maartens; views of the Canadian Alps, Chicago's harbor and new postoffice, Davenport, Iowa; a St. Louis industrial plant, an Ameriharvest field, an American roof garden, Amsterdam's new gasworks, etc.; comic pictures, and "de nieu-wste Parijsche damesmode." The rson desired in some of the want ads, is "een nette dienstbode," and in others "een flinke dienstbode." in others "een flinke dienstood."
The paper used in our Amsterdam namezake's pressroom is crackly and namezake's pressroom paper is that rather sleazy; most paper is that nowdays. We wish De Courant length of days and abundant prosrity. May the reign of H. R. H Princess Juliana's great-grandchild find De Courant fat and flourishing! -Hartford Courant.

States are increasing at the rate of 7.000.000,000 cubic feet a year, the country is using 23,000,000,000 cubic feet of wood each 12 months.

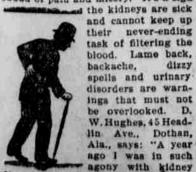

By the addition of Venetian soap and gum lac alcohol has been made into briquettes, inclosed in air-tight metal boxes, so formed that they may be used as spirit lamps.

To measure the amount of air admitted through cracks in buildings a novel instrument has been devised. shaped like a funnel and carrying a small anemometer in its nozzle.

WHEN YOUR BACK ACHES

It is a Warning That the Kidneys Are

Sick and Need Help. A bad back makes every day a dull round of pain and misery. It's a sign

disease, bladder trouble and rheu-matism that I was doubled over and had to walk with crutches. I was racked with pain, and so bad I had to give up my farm and come to town. l only weighed 108. Doan's Kidney Pills quickly improved my back, un-til I was able to walk without a crutch. For five months I have im-proved steadily and now weigh 160. The kidneys are normal."

FATHER ACCUSES DAUGHTER. Cannot Help Stealing Declares The Prisoner.

Reading .- Miss Florence X. Albright, a pretty 17-year-old girl, of this city, who has frequently been in the custody of the police on C. Martz, on the charge of stealing \$5 from her father, Jacob Albright, and two skirts from her sister on May 31 last,

The girl has had quite an experience during the past year. Two months ago she was employed by a Reading physician, and suddenly left, scalded. taking with her, it is alleged, valuables amounting to \$100. She was arrested at Pottstown, but the physician declined to prosecute and Florence was given another chance. Five days later she left the city

and went to Philadelphia, where under the name of "Evelyn Clark" she them with a pointed wire, when they secured a position as a domestic at a hotel conducted by Jacob Rimby at Camden, N. J. She worked there four days and then left with two rings, one valued at \$60 and the other at \$50. Rimby came here to locate the circle by first leading and and locate the girl, but failed.

One of the stolen rings was in her

possession when arrested, and she trunk of the tree with some liquid immediately surrendered it. The material that will prevent the other, she said, she gave to a young man stopping at a Y. M. C. A. As-sociation on Arch Street, Philadel-phia. She furnished the officials with the name of the man and the numher of his room.

When taken into custody she had a magnificent pair of pearl handled opera glasses and a solid silver jewel case, which are believed to have been taken from a hotel. Philadelphia, where she worked for a short time. She also had a key to one of the rooms of the hotel in her purse.

The young woman was committed to the House of Good Shepherd and expressed great satisfaction at be-

ing placed there. She said: "I just can't help taking things. I don't want to steal, but it seems I can't leave my hands off of things. Perhaps it will do me good to be sent

SIGNS OF PROSPERITY.

Pittsburg Blast Furnaces Double Production Of Year Ago.

Pittsburg.-Evidencing a condition of prosperity in the pig iron and steel industry unequaled for the past six months is the announcement made by a Pittsburg concern that a deal has been consummated for the said children to support and mainsale of 6,000 tons of basic iron for immediate delivery at an advance over the prices of thirty days ago.

A general advance from 15 to 25 cents per ton in the price of basic and bessemer pig iron has already been made. Reports show that Pittsburg blast furnaces producing pig iron are running about 90 per cent, capacity and furnaces making steel are running about 80 per cent. capacity. This is more than double the production for the same period last year.

There are more blast furnaces running at present than at any time since October, 1907.

LIVES IN TREASURE HOUSE. New Tenant Finds Hidden Money Of Snicide Everywhere.

Berwick .- Joseph McCleary, who caught fire, narrowly escaped. recently moved into the house on Spring Garden Avenue, which was the scene of the Charles Podeon suit Voortdurend ruzie, worstelden en the scene of the Charles Dodson sui- an ax. Constable Reilly and a posse lawn when he found a tin can containing a \$5 bill. From the time of the suicide until McCleary moved in the house was unoccupied.

Since taking up his residence there he has found money in many different parts of the house. He will continue a systematic search.

Dodson was known to have considerable money, but all that could be found was \$50 in bills, which was found tucked away in the toes of the boots he wore at the time of his

SUICIDE WAS A MISTAKE. Widower Thought Children Had Been Taken From Him.

Scranton. - Frank A. Marcheck, a miner, went to the Home for the Friendless to call on his three children whom he placed there recently While the forests of the United when the mother died. There is an epidemic of measles at the home and the matron would not admit him. He could not be made to understand about the quarantine and thought he was being permanently deprived of his little ones. Turning away from the door of the home he drew a revolver and shot himself through the head, dying instantly,

Send Pittsburg Briber To Prison. Pittsburg. - Charles B. Richardson, a broker, convicted of conspiracy in connection with the alleged attempts of Charles S. Cameron, president of the Tube City Railroad, to bribe Councilman W. A. Martin. was sentenced to serve one year and three months in the Western Peni-

tentiary and pay a fine of \$500.

Freed By Unwritten Law. Altoona.-The Grand Jury sitting in Blair County Court this week approves of the "unwritten law" defense in murder cases, for it ignored the bill of indictment against John River. E. Craig, who alleged that he caught William Russell with his wife several months ago and shot and killed him. The jury's action is unusual, and perhaps does not have a prece-

Dog Leaps Fifty Feet; Unhurt.
Scranton.—Gyp, a valuable Scotch collie owned by E. A. Keefer, leaped fifty feet from a third-story window, striking on all fours, and still lives to wag his tall, apparently uninjured. He came down on a dare, uttered in the inviting accents of three small boys outside, who saw the dog's head at the upper window.

White Haven, and lost his right arm.

A large frame barn, more than 100 years old, on the farm of Harvey H. Latshaw, near Boyertown, Berks County, was struck by lighting and destroyed. A number of frame buildings close by were also consumed. The loss is \$3,500, and includes farming implements, chickens, pigeons and farm supplies.

Rev. E. S. Leinbach has been glected pastor of the St. Thomas

KILL OFF THE BORERS.

Prof. Surface Tells Farmers How To Destroy Pest.

"There is no more serious pest of the peach tree in Pennsylvania than the peach tree borer," declared State Zoologist Surface. It is the larva of a clear-wing moth, which charges of petty larceny, was arrest-ed at Carsonia Park by Detective H. place to place. The egg is laid during July and August on the bark at the base of the tree, and after some days the larva or grub hatches and commences to feed at the surface of the bark, finally eating its way through and boring up and down and across beneath the bark, often cutting off the sap supply and causing the tree to wither as though

After the pests have passed be-neath the bark they are concealed and can not easily be reached with insecticides. They should then be killed by cutting them out, always cutting lengthwise rather than crosswill die. This, however, is a great loss of time, and is, of course, after some injury has been done to the

By far the best plan, says Prof. Surface, is to prevent this injury and the necessity of cutting them out by covering the base of the moth from laying its eggs; or, stroy the larvas before they enter the

bark The best time of year for this is the latter part of June, when the base of each tree should be sprayed with boiled lime-sulphur wash, either commercial or home-boiled, the same as for San Jose scale, applying to each tree from a pint to three pints according to size. The best way to do this is with a spray pump, with a short extension rod, carrying the nozzles at an angle, but where there are only a few trees it can be applied with a whitewash brush.

Painting near the ground and below with white lead and raw lin-seed oil will serve the same purpose. and be safe, as has been proven by Prof. H. A. Surface in his experiments.

J. L. Shroy, of Lancaster County, writes to Prof. Surface that he has succeeded perfectly in preventing the borer by rubbing the base of the tree with equal parts flowers of sulphur and salt, in June and again in August.

Must Support Their Father.

Stroudsburg.-The overseers of the poor of Tunkhannock Township have petitioned the court of Monroe County for citation against the chiltain their said father. The petition been granted; there are seven married daughters living.

STATE ITEMS.

While Warren White and wife, of Oneida Township, were attending the funeral of Mr. White's grandfather, ex-Auditor Adolphus P. White, at Huntingdon, his residence burned to the ground. His two small children, who were in the house when it

cide about a year ago, was digging overpowered him and brought him abouts the roots of a tree on his to the county prison at Huntingdon. Peter Bolich was crushed to death by a fall of coal in his chamber in the Maple Hill mine, in Mahanoy City, and his buddy, John Ambrose, narrowly escaped a similar fate.

While enlarging a spring on the farm of John Dewitt, at Stroudsburg, Sydney Slutter unearthed a large old-fashioned double clasp pocketbook which he found to contain a large sum of money in bank notes. The money was decayed be-yord all possibility of redemption.

At the annual meeting of the Board of Trustees of Bucknell the fund of \$60,000 for the erection and com-pletion of the new East College was reported as assured. President Mil-G. Evans, of Crozer Seminary, was elected a member of the board The financial report showed that the annual income of the college for the current year was \$108,000, expenditures \$107,000.

James H. Brennan, who has figured prominently in the Gould case as castler at the St. Regis, used to work in the mines at Scranton.

Mr., Minnie Firthsule, 18 years old, of New Castle, received a cable-gram from Seville, Spain, informing her that her husband had been shot and killed by an assailant. No details were given. The Firthsules were married last month and he left for Spain May 28 to claim an estate.

The Thomas G. Peiffer Flouring Mills twelve miles west of Newville. Cumberland County, and the Peiffer wooden bridge over the Conodoguinet Creek, were burned with a loss of \$10,000.

The Hetrich family, of Bernville, held its annual reunion at the home of H. B. Hetrich, when all the de-scendants of Mr. and Mrs. Charles W. Hetrich were present.

John Van Pelt, Berks County's noted angler, died at his home at Seyfert's, this station, of a paralytic stroke, in his 86th year. He was a great fisherman in his time and caught some of the largest bass and carp ever taken out of the Schuylkill River. He fished almost daily up to a week or two ago, when he was

Harry Dougherty, of Weatherly, fell beneath the wheels of a coal train from which he was alighting, on returning from a fishing trip to White Haven, and lost his right arm.

ens., pigeons and farm supplies.

Rev. E. S. Leinbach has been elected paster of the St. Thomas Charge in Berks County, consisting of St. Thomas, Christ Church, known as Little Tulpenocken, in Jefferson Township, and Zion's, at Blue Mountain, to succeed the late Rev. Thomas C. Leinbach

COMMERCIAL

Weekly Review of Trade and Market Reports.

R. G. Dun & Co,'s weekly review of trade says:

"The advance recently made in industrial activity and business confidence is fully maintained. From the leading cities come advices of wider wholesale and retail distribu-tion, larger employment of labor, additional work for contractors and builders, increased demand for manufacturing materials, satisfactory advance fall sales. Broadening of demand from the railroads has a feature in the markets for iron and steel, and this development strengthens the general feeling of optimism regarding the future outlook. Orders for equipment from the transporting companies already comprise a liberal tonnage and further substantial business will shortly be placed.

"Construction work is still undertaken with considerable vigor, the erection of new bridges and buildings calling for a good tonnage of material and extensions and improvements are constantly being made. Reports also indicate a slight hardening of quotations named by fabricators. Activity continues in the pig iron division at firmly held prices, sales reaching substantial dimen-

"In the primary dry goods market futures are universally higher than current quotations and the market generally shows a strengthening

RAISING DUCKS.

Case in Point Where They Did Better Without Water.

We confess that after raising ducks in a small way for three years we sannot satisfactorily say whether it is profitable to raise ducks without giving them access to water. This year we raised them without letting them have access to water, excepting for irinking purposes. During the summers of 1906 and 1907 we raised 200 Mammoth Pekins and the youngsters cook to the water within eighteen aours after being taken from the insubator or within twenty-four hours after the old hen came off the nest with them.

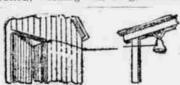

The water, a small stream, was within 300 yards of the hatching place and every duck, with one accord, took a bee line for it, says a writer in Farm and Home. We had good luck with them. This year we kept watch of the youngsters for several weeks, keeping them away from the water. In a few weeks they would range around the feed within twenty paces of the brook but have never taken a swim. We have the Pekin and the Indian Runner breeds, and for the past sixty days or more they have grazed in the pasture, often going almost to the edge of the

They seem to be perfectly healthy and content and we have not lost a duck by disease, nor had any sick or ailing. After eating, they go through all the motions of a swim, dipping themselves and going through the

motions as if they were in the water. We like ducks because they are so healthy and so easily controlled. We alm to market the Pekins at ten weeks old and expect such ducks to average fully five pounds or over. To reach these figures they must not have too much range or too much exercise. It seems to me that the breeding ducks should have free access to water. I believe the eggs will be more fertile and the ducks healthier and stronger.

Alarm For Poultry House,

By arranging a wire to pass from the hen house door to a bell on the veranda of the house, after the manner shown in the accompanying illustration, warning will be given when

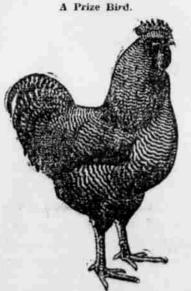

A Poultry House Alarm,

the door of the poultry house is opened. If anything is wrong in the hen house and the alarm is given, a man can close the door of the hen house while standing on the veranda by nulling the wire which is attached to the bell. During the day the wire beneficially and combining them most can be unbooked and thus relieve the skillfully, in the right proportions, with bell from duty.

If desired, suggests Prairie Farmer. the bell can be placed outside in a California Figs. box, which will make it sound louder. As there is only one genuine Syrup of

of food per chick to weigh one pound, on ground grain, is three cents; on whole grain, three and seven-tenths cents. After making repeated tests in feeding, this station says tho ground grain ration proved considerably more profitable than the whole grain ration for the growing chicks; and the same was true of capous of equal weight and age, fed alike before caponising. No difference was noticed in health or vigor of chicks er capons fed either ration.

BARRED P. RUCK COCK.

Good Morning Feed. Two parts oats, two parts cracked corn and one part wheat, make a good morning feed to be thrown into litter. Feed what they need to keep them busy till noon-about a quart to ten fowls, amount needed varies with different breeds.

The beginner finds many stumbling blocks in the artificial methods, but experience shows the trick of how to easily step over them.

There is an agitation on both sider

of the Atlantic Ocean for a reduced cable rate and in this connection Vice

President Ward, of the Commercial

Cable Company, maintains that a lower rate than the present one is impossible because of the short international business hours. The great bulk of the cable business takes place in about three hours each day, during which period the working day of England and America overlap. The experiment of a lower schedule was tried and found impractical.

"Of course," said the half regret-ful wooer, "if your family doesn't think I'm good enough, why, I don't want to intrude where I'm not want-ed."

'I'll look out for that," said the businesslike young woman. "I think you are good enough, and my brother is a lawyer. Do you appre-ciate the combination?" did, and remained in.-Cleveland Plain Dealer.

The only part that counts for anything

is the binde. But good blades—even he best of bl. des—d in t warrant the price usually demande i for the razor.

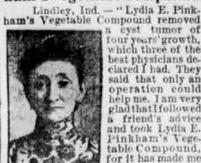

The biggest part of what you pay for the regular safety-razor is for the trame and the box—details that don't figure at ail in the razor's value. Prove this for yourself.

It is no use advertising unless you have the Goods, and no use having the Goods unless you

FOUR YEARS GROWTH

Removed by Lydia E. Pink* ham's Vegetable Compound

a cyst tumor of four years growth, which three of the which three of the best physicians de-clared I had. They said that only an operation could help me. I am very glad that I followed a friend's advice and took Lydia E. Finkham's Vegetable Compound, for it has made me a strong and well woman, and I shall recommend it as long as I live."—Mrs. May Fry, Livelley Ind. a friend's advice and took Lydia E. Pinkham's Vege-

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Com-pound is the conquering of woman's dread enemy—tumor. If you have mysterious pains inflammation, ulceramysterious pains inflammation, ulcera-tion or displacement, don't wait for time to confirm your fears and go through the horrorsofa hospital opera-tion, but try Lydia E. Pinkham's Vege-table Compound at once. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots andherbs, has been the standard remedy for fearsh ills, and such manystion.

for female ills, and such unquestionable testimony as the above proves the value of this famous remedy, and should give confidence and hope to If you would like special advice

about your case write a confiden-tial letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

The population of Manitoba would about fill Scranton, Pa.
