Wage War Against Flies. House flies have not become, up to this time, as numerous as they usually are at the outset of July.

This is the information sent out from the Division of Zoology of the Penna. Department of Agriculture, which brands the house fly as about the worst enemy of mankind.

Sticky fly paper, traps and liquid poisons are among the things to use in killing the flies, but the latest, cheapest and best is a solution of formalin or formaldehyde in water.

To quickly clear apartments where there are many flies, burn pyrethrum in the room. Keep the fly nuisance at a minimum by the use of disinfectants in garbage boxes and cans.

Four kerosene into the drains. Cuspidors should be cleaned frequently; certainly once a day. Keep a 5 per cent. solution of carbolic acid in them constantly.

We are having the harvest weather, and the farmers are making good use of it. There will be preaching at Cedar Grove, third Sunday in this month at 10:30 a. m.; Sunday school, at 9:30.

There seems to be quite a lot of sickness in our vicinity. Quite a number of the students passed through here on their way home from McConnellsburg Normal last week. Maye Carnell has returned home, after having spent some time in Indiana. The cherry crop seems good around here.

Steam Power to Harvester. Something novel was seen in a wheat field near Greencastle on Friday when steam power was used to pull the harvester. John Diller, who is tenant on the old Immel farm, was the progressive farmer who was among the first if not the first, to use this power in Franklin county.

Elaborate refreshments were served, and many presents were received.

The account sent us of a family reunion is not published for the reason that no date is given, no place designated and no name of writer. Thursday last was the hottest July 1st in eight years, and Sunday was the second coolest 4th of July ever recorded at the Harrisonburg weather bureau.

Miss Olive Unger, daughter of the late Wm. P. Unger and Mrs. Amanda Unger, of the Cove, left last Friday for Colorado Springs, Colo., to join her sister Miss Margaret, who has been a resident of that city for several years. Miss Olive is a stenographer, and has a position waiting for her in Colorado Springs.

Cultivate the Orchard. "The young orchard should be cultivated," says State Zoologist Surface, "but not with grain or grass crops. Corn, potatoes, beans, or other vegetables, well cultivated, are ideal for a young orchard. The ground should be stirred every two or three weeks until the middle of August. In going through the orchard with the harrow, care should be taken not to injure, bruise, or 'bark' the trees. To avoid this the horses ought to be muzzled and the outside portions of traces and whiffle-trees padded."

In going through some young orchards early in the season, for the purpose of demonstrating pruning, Prof. Surface found many cases of trees which had been seriously damaged through being grazed by whiffle trees, or struck or bitten by the horses. In going through the orchard rub off all unnecessary sprouts.

Try These Useful Hints. Burn dried orange peel throughout the house frequently, it purifies the atmosphere, dispels any musty odors and leaves a dainty fragrance that nothing can surpass. White clothes that have become yellow from age may be restored by soaking in butter milk for several days, changing the milk each day. Never pour sugar over the whites of eggs while beating them, but add from the side of the platter, a little at the time, in order not to break the air cells. An excellent remedy for sore throat is pineapple syrup, taken a teaspoonful at the time. If a painful of lime is kept in the closet with preserves and jellies, it will prevent them from moulding. Salt water will clean bamboo furniture, Chinese and Indian matting and will prevent it from turning yellow.

Reward of The Faithful Servant. The Merchant Prince had sent for the Faithful Clerk, who confronted his master tremblingly. "Jenkins," said the Merchant Prince, "you have been in my employ for twenty five years." "Yes, sir," faltered the Faithful Clerk. "Twenty five years to day, is it not?" "Yes, sir. Thank you, sir, for remembering it." "Tut! Tut! You have been an honor to the House." "Thank you again, sir." "You have proven yourself worthy of my confidence." "Oh, sir!" "You have grown gray in my service." "Yes, sir."

"Jenkins, as a slight token of my recognition of this fact I have a present for you. Pray accept this bottle of hairdye!"—Woman's Home Companion for July.

WEST DUBLIN. Denley Mumma, son of Mr. and Mrs. Frank C. Mumma, of Wilkensburg, recently visited in the home of Hiram Clevenger. There was a fair attendance at the Fairview Epworth League service on Sunday evening and an interesting meeting. It is to be regretted that there are a few who attend this meeting who seem to be afflicted with chronic misbehavior. They should try to get rid of the disease. Luella and Edna Laidig, of Minersville, are spending this week on their father's farm in this township. A few of the people from this vicinity attended J. L. Kesselring's barn raising last Wednesday. Mrs. Susan King accompanied her granddaughter, Gertrude Laidig, to Minersville where she will visit in the home of her daughter, Mrs. Joseph Laidig. Daisy Hoover spent a few days recently with friends and relatives at Hustontown. A number of our people attended Independence Day exercises at Hustontown on Saturday. Esie D. Laidig of Dublin Mills spent a few days last week with relatives in this part of the township. Among those at Hiram Clevenger's on Sunday, were Calvin Benson and wife, of Trough Creek and Martin Laidig and wife, of Hustontown. Last Sunday evening a young man of color, accompanied by a woman several shades lighter than her dusky companion, and saying that she was the colored man's wife, passed through this place. They seemed to be quite well informed except upon the subject of geography, saying that they had come from Bedford that day. Later reports would show that they were at New Grenada on Sunday morning.
