29TH ANNUAL CONVENTION.

(Continued from first page.)

tion of the city of Allahabad, giving a description of the city as to its buildings, streets, general surroundings, and its inhabitants. The city's name—Allahabad—Miss Wishart stated, means "A City of God," but in reality it is a "City of gods," as on all sides are temples to the many gods which the natives hold in great reverence. Miss Wishart related an account of a great religious fete of the natives as she had witnessed it, in which two millions of people participated. One could not but be strongly impressed by the pitableness of the ignorance of these people displayed in their worship of their priests. The speaker made an earnest plea in behalf of these people, dwelling on the responsibility of the enlightened nations to take to them the gospel of the Lord Jesus Christ, who alone can save them. Miss Wishart closed her address with some interesting personal experience in the work. The audience counted it a rare treat to hear these words from one so experienced and so competent to tell of her knowledge of this interesting country and people.

The second speaker Mr. Landis, after some well chosen remarks expressing his delight to be with the convention and paying a pleasing tribute to the beauties of our mountains and valley, spoke on the subject, "The Main Spring of the Movement," in which he placed unlimited value on the Sunday school as a power for bringing persons to Christ.

Mr. Landis' genial manner and pleasant words won for him the perfect attention of the entire audience.

The services closed with music by the choir and a benediction pronounced by the Rev. Rice.

WEDNESDAY, A. M.

At 7 o'clock on this morning a service of prayer and song was held. Considering the early hour of this service, the number present was commendable. The service was led by Mr. Lysinger, president of the Bedford county Sabbath School Association.

The regular morning session convened at 9 o'clock, presided over by Rev. Diehl, in the absence of the vice-president, Geo. W. Hays. The devotional exercise was conducted by Rev. Moyer of the Hustontown M. E. church. The Superintendents' Conference, next on the program, was short owing to lack of time.

Mr. Landis spoke on the subject of Sunday School Management, giving much that was clear and practical for every school. He dwelt emphatically on four essentials for every successful Sunday school; promptness, order, program, and results. Every school must begin on time, as a matter of education to the pupils; no school can accomplish spiritual good for the pupils without order—an order which must not be confused with stillness; a program adapted to the lesson of the day will add to the interest always; and then results will follow as reward for earnest effort—results in form of large numbers of young persons deciding to stand for Christ and His church.

Rev. Bryner of the M. E. church, talked on the Grading of the Sunday school, showing the benefits of the grading by illustration of the advantages the graded day-schools have over the ungraded ones. Mr. M. R. Shaffner followed Mr. Bryner, giving a plea for the continued attendance of adults upon the Sunday school.

Prof. H. M. Griffith, of Wells Tannery, who was to speak upon the relation of the Public School to the Bible School, was unable to be present. The convention was fortunate to have present Prof. Gailey Chambers, a former Fulton county teacher, and now a professor in the University of Pennsylvania. Prof. Chambers made an able talk on the subject assigned to Mr. Griffith.

Miss Mollie Seylar made a short talk on the subject, "The Teacher Training Class at Work."

Mrs. S. M. Cook took the subject of "Value of Enrollment and Examination," in the place of Miss Baumgardner, who was assigned that on the program.

The latter part of the session was given over to Mr. Landis, who conducted a general conference on Sunday school work. Any one in the convention was given the liberty to ask Mr. Landis questions upon any phase of this line of work, and much that was helpful and interesting resulted from the conference.

The convention adjourned to meet in session again at 1:30.

"Fresh" Eggs.

Among a quantity of freight consigned to a Philadelphia dealer by a York county farmer the other day, were several crates of eggs marked "fresh." While the crates were being handled in Columbia by one of the transfer men, he heard a sound which he believed was made by a young chicken.

He became curious, opened the crate, and was much surprised to find in the top layer of eggs a live and fully developed "peep," beside which lay the broken egg shell. The egg was no doubt just about "ripe" when packed for shipment and the intense heat completed the task of incubation.

Is She Working Herself to Death

Does your wife complain of too much dairy work? Do you ever hear her say she'll never get through washing milk things? How often does she say, "Oh, if I only had fewer pans, crocks, and cans to wash, I could read, write or sew more, or even take a little rest each day."

AN EASIER TIME.

Ask her about it. Arrange to make the dairy work one half easier, one half neater, one half more pleasant, and 25 to 50 per cent. more profitable by using a Sharples Tubular Cream Separator. Until you try the Tubular, you can't imagine the difference it makes. It skims the milk immediately after milking—there's no milk standing around—no cans or pans to wash. The Tubular is entirely different from all others, so much more simple and convenient. Bring your wife and let me take a Tubular apart for you.
