Monotony Too Much for Tramps.

The sheriff of Burlington county, New Jersey, has adopted a novel method of ridding his county of tramps, and incidentally, saving a good sum of money for the taxpayers. Be in soup was the agency employed. For a long time the Burlington county jail was a favorite haven for members of the "hobo" tribe, until the sheriff began the bean soup treatment. He gave it to them at every meal, with the result that the tramps, who began to see beans and talk about them in their sleep begged for a change in the menu. The sheriff was obdurate, however, and the result is that Burlington county has been stricken from the itinerary of work and hope I won't find it" class.

The thirteenth day of July, 1909 will be long and pleasantly remembered by Miss Mary, Deshong, near Andover. The surprise had been so well planned that she never suspected that anything unusual was doing, and when she returned home from having spent the day with a friend, she found about a hundred of her relatives and friends awaiting her arrival. A bountiful supper, consisting of chicken swallop, ice cream, cake, fruit, &c., was served, after which the young folks assembled on the playgrounds prepared by Mr. Deshong, and spent the hours very pleasantly until time for returning to their homes. To Press the Electric Button.

On October 19, at the moment when President Taft presses the electric button which starts the historic festival in San Francisco, 650,000 school children of New York will cheer for the resurrected city. Philadelphia school children and those of every other city, town, and cross-roads, in the United States should raise their voices at the same moment in honor of the proud achievement of the Pacific metropolis in rising from her ashes in three years.

Surviving Veterans.

According to the estimate of the record and pension office at Washington the number of survivors of those who served in the Union army in the Civil War are at the present time 665,832 out of 1,652,175 Union soldiers living at the close of the war. This is 39,368 less than were alive a year ago, showing that the veterans are dying off at the rate of 108 a day, or one in less than every fourteen minutes. We congratulate these survivors that they have seen another natal day of our great Republic. We expect and hope to have some of them with us for many years yet, even though their rate of death increases with the years. The same official estimate fixes 1945 as the latest date for the probable decease of the last surviving veteran of the Civil War. This is eighty years after the Civil War closed, and the youngest soldier who was mustered out in 1865, at the age of 19 or 17, will be then nearly through his nineties, even if he survives that long. The presumption is that the strongest would pass away earlier than that were it not for the preserving influence of a Government pension on some organizations.

The Mexican war ended in 1847, and June 30, 1908, sixty-one years later, 2028 surviving soldiers of the Mexican War were still drawing pensions from the Government. Daniel F. Bakeman, of New York, a soldier of the Revolution, continued to draw a pension from his grateful country until April 5, 1869, when he passed away at the age of 109 years, 6 months and 8 days. Hiram Cronk, of New York, a pensioned soldier of the War of 1812, died in May, 1905, aged 105 years.

With the precedents of Bakeman and Cronk drawing pensions eighty-eight and ninety years after the end of the war in which they served, it is highly probable that some of the Civil War veterans will continue to gadden us with their presence in 1945, eighty years after Appomattox, and possibly several years later.—Ex.

A Remarkable Case.

A sturdy constitution, assisted by medical skill and good nursing has done wonders for Charles Moore, one of the Williamsport bridge men, who was injured in the disaster at that place last December. For seven months Moore has been a patient at the hospital in Hagerstown, and on Tuesday, for the first time, he stepped outside the building to enjoy the sunshine and cooling breezes. Moore was as happy as a boy, and enjoyed the recreation and scenes about him. One of the first requests he made after being taken out on the porch was for a chew of tobacco.

Moore's case has been one of the most remarkable in the history of the hospital. He was taken there the day of the bridge accident apparently a mangled and helpless piece of humanity. It was found afterward that his back was broken, and a delicate operation was performed on him. A piece of the spinal bone was removed and for months, Moore was compelled to lie in a plaster cast fighting against unequal chances for his life.
