A Pointer For Fisherman.

County treasurers in different parts of the state are advising all people who contemplate taking out fish basket licenses this year to look up the new codification of the law governing this class of fishing.

One of the provisions of the new law, which supercedes all previous acts, is that not over two thirds of the width of any stream where fish baskets are allowed to be placed may be closed.

The baskets must be placed at least one fourth of a mile apart up and down the stream.

It is also provided that any man who had a fish basket located last year may use the same point this year to the exclusion of all other applicants.

Formerly many fisherman lost the improvements of previous years which were jumped by men who took out licenses for the location.

A Novel Idea.

It is free and deeply interests everybody who has aches or pains or who is weak and sickly. Any one can learn the surest and quickest means to get strong and well by accepting that splendid free offer of Dr. Greene, of 9 West 14th St., New York City. He has established a system of letter correspondence through which all sick and suffering people can learn exactly what ails them, and how to get well, without expense and without leaving their homes. All they have to do is write to the Doctor, stating each symptom from which they are suffering. He gives the greatest care and attention to every letter, and tells the cause of each symptom so plainly that patients understand instantly just what ails them. It is a splendid opportunity for those who cannot afford the time or expense to go to the city. Dr. Greene makes a specialty of curing patients through letter correspondence. He is the most successful special list in curing nervous and chronic diseases, and is the discoverer of that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy.

Write to-day for FREE bottle of Dr. Greene's Laxura for all stomach, liver and bowel trouble.

Will be Priest. William Hinkle, son of Lewis H. Hinkle, of southern Franklin county, is studying for the priesthood of the Catholic church. Mr. Hinkle was educated for the Presbyterian ministry and served that church for several years. Then he went into the Protestant Episcopal church and was a rector of a large church in Philadelphia. More than a year ago he became a convert to Catholicism.

Andrew Sixeas, the shoemaker, has in his possession a large brass button surely of Revolutionary days. The initials G. W. are on it with initials of the states circling the rim and a motto "God Save Our President." The button was found in a field under ground, and was evidently a scavenger of some kind.—Repository, Chambersburg.

Father of Thirty.

One of the best exponents of anti-race suicide is John W. Guy, who is the father of 30 children, 20 sons and 10 daughters, of whom there are 21 living, his oldest child, a son 53 years old. His youngest, a daughter, is two years old.

Mr. Guy is a farmer and resides at Melfa Station, Delmar, Del. He was 75 years old on April 6 last. In 1855 he was married to Mary Ann Rayfield, a farmer's daughter, both being in their 22d year. To this union seven children were born.

On September 12, 1868, he was married to Margaret Elizabeth Ayres, 21 years of age. To this union 18 children were born.

His last marriage to Lola Crookett, a beautiful girl of 16 years, has resulted thus far in adding five children to the family. One of Mr. Guy's sons by his first marriage married a sister of his present wife and a daughter of his second wife married a brother of his present wife. Despite the fact that Mr. Guy has raised 21 children, he has 23 grand-children, while 18 of his own are married.

THOMPSON.

The hum of the threshers is now heard where but a short time ago we heard the busy reapers.

Lucy Meyers is visiting her sister Mrs. Martin Dyer, of Johnstown.

Mrs. Roush is spending some time with her sister Miss Mamie Garver.

Miss Florida Clevenger, Washington, D. C., has been visiting her aunt, Mrs. Richard Hollenshead.

Ed. Simpson is home from Washington, Pa., on a short vacation.

Mrs. Abner Hess and daughter Marie and son Jackie, of Kansas City, Missouri and Mrs. Hess' mother, of Washington, D. C., spent some time recently visiting here.

Anna Hyatt is quite ill of typhoid fever.

Miss Mamie Garver and sister Mrs. Roush spent last Wednesday with Mrs. W. A. and Mrs. Mac Lytton.

The children are anxiously looking forward to August 2nd to know who will be their teacher.

Thompson soon will jingle with "wedding bells."

Why Fishes Are Slippery.

Fish of almost every sort are when caught slippery and hard to hold. This slipperiness is due to a sort of mucus exuding through the scales and is of the greatest importances to all finny creatures. One of the important functions of the fish's slimy coating is to protect it from the attacks of fungus, a form of plant life found in all waters, salt and fresh, foul and pure. If the fish is so injured that some spot becomes uncovered by the slime, a barely visible fungus will be likely to lodge there, and when it is once lodged the process of its reproduction is very rapid. It soon extends over the gills and kills the fish. The primary purpose of the slime of the fish is to reduce its friction when in motion through the water and increase its speed. It also serves as a cushion to the scales, which it thus protects from many injuries.

To Do Up Lace Curtains.

A good way to do up lace curtains that are badly worn out and will not stand stretching: After carefully mending all holes wash and starch. Then, instead of putting on stretchers, measure on your line the length you want your curtains and tie a cord so curtains will not slip over mark; then put your curtains on and fold through the centre so that the edges are even. Pull out each scallop and smooth the curtain with your hands. The smoothing will bring out the pattern and the curtain will dry while you are working at it. Be careful to keep the ends square. Your curtains will look like new.

A simple little precaution and yet one of importance is to put a few drops of carbolic acid in the cuspidor if there be one about the home or office. Of course, water should always be kept in it, and it should be cleaned every day. Sawdust cuspidors are very unsanitary and never should be used. No accumulation of dirt anywhere should be permitted to remain.

Kodol

For Dyspepsia and Indigestion

If you Suffer from Indigestion, Dyspepsia, Gas on the Stomach, Belching, Sour Stomach, Heart-burn, etc., a little Kodol will Relieve you almost Instantly

Kodol supplies the same digestive juices that are found in a healthy stomach. Being a liquid, it starts digestion at once.

Kodol not only digests your food, but helps you enjoy every mouthful you eat.

You need a sufficient amount of good, wholesome food to maintain strength and health.

But, this food must be digested thoroughly, otherwise the pains of indigestion and dyspepsia are the result.

When your stomach cannot do its work properly, take something to help your stomach's work—the only thing that will give the stomach complete rest.

Why? Because Kodol does the same work as a strong stomach, and does it in a natural way.

So, don't neglect your stomach. Don't become a chronic dyspeptic. Keep your stomach healthy and strong by taking a little Kodol.

You don't have to take Kodol all the time. You only take it when you need it.

Kodol is perfectly harmless.
