William Nizart, of Reading, Pa., a pupil of the Pennsylvania Institution for the Deaf, at Mt. Airy, Pa., is visiting in the home of his former supervisor, Miss Ella Kendall, of the Cove.

The best pills made are DeWitt's Little Early Risers, the famous little liver pills. They are small, gentle, pleasant, easy to take and act promptly. They are sold at Trout's drug store.

A splinter that has been driven into the flesh can be removed by the aid of steam. Secure a wide mouthed bottle and fill it nearly full of hot water, place the injured part over the bottle's mouth and press slightly, says National Magazine. The action thus produced will draw the flesh down and in a minute or two the steam will extract the splinter and the inflammation.

Get DeWitt's Carbolized Witch Hazel Salve when you ask for it. There are a great many imitations, out there is just one original. This salve is good for anything where a salve is needed to be used, but it is especially good for Piles. Sold by Trout's drug store.

Joseph Junette, who farms one of the job ranches on the Alton bluff in Illinois, thinks he will engage extensively in "duck" farming and educate the fowls to eat potato bugs at \$1 a day per duck. Just now Junette is enjoying an income of \$15 a day from fifteen ducks which he trained to clear potato patches of bugs. He put the ducks in a pen and fed them on potato bugs exclusively after starving them until they were glad to get the bug diet. Junette tried them first on his own patch which comprised several acres. The ducks went through the patch like a neighborhood scandal. After the performance, Junette shut up his brigade in the bug pens so they would not acquire a taste for other diet. The ducks are in great demand on the farms of Junette's neighborhood.

WANTED—Trustworthy man or woman in each county to advertise, receive orders, and manage business for New York Mail Order House, \$18.00 weekly; position permanent; no investment required. Previous experience not essential to engaging. Spare time valuable. Enclose self-addressed envelope for full particulars. Address, Clarke Co., Wholesale Dept., 103 Park Ave., New York.

To secure a good night's sleep in hot weather, pour cold water into a hot-water bag until it is about half full. Screw the top partly on, then with one hand squeeze the upper part of the bag until all the air has been excluded; tighten the top, and a soft pliable pillow will result. Wrap this in a towel or slip the bag inside a pillow case, and lay your head so that it will be at the back of the neck. In a few moments the most delicious, cooling sensation will pervade your body, and sleep will quickly follow. When I first tried this, my friends prophesied cold, pneumonia and rheumatism; but I consulted two physicians, who assured me that there was not the slightest danger; the heat from the body will soon heat the water in the bag, and in the morning you will be surprised to find that you have passed a comfortable night.—Household Information and Economy, in 'The Ladies' World' for August.

Evidently the editors of the county papers were not aware of this game being played, and of course the Jr. Athletics are not in the habit of having their games published. But I venture to say had the score been reversed the game would have been published in three county papers last week.

Farmers Should Read Insurance Policies.

The attention of farmers is called to the provision appearing in practically all stock and mutual fire insurance policies and permitting the use of a steam threshing machine on the premises under certain conditions only. These conditions should be followed out to the letter, as otherwise, should a fire occur there might be difficulty in collecting your insurance money.

The most important of these provisions usually is that the engine shall not be located within twenty five feet of any building or stack; that a cap or screen in perfect order shall cover the smokestack during all the time there is fire in the furnace; that at least three pails of water shall be kept close at hand while there is fire in the furnace; that during the absence of the person engaged in threshing a competent watchman shall be left in charge as long as there is any fire in the furnace. Perhaps your policy may contain other and further conditions; better get it out and read it over, as the permit usually ends with "The violation or non-observance of any of these conditions or restrictions will render this policy absolutely void."

Dead Doe Found.

One night last week as two young men, a son and grandson of Wm. J. Cline, Sr., were fishing in the stream near Fort Littleton they found a dead doe lying in the water. The young men reported the matter to Wm. J. Cline, Sr., who made an examination and found its throat cut and badly lacerated. At first it was thought it had been killed by dogs, but on closer examination it was decided that it had ran against a barbed wire fence and in that way its throat was cut.

Is She Working Herself to Death

Does your wife complain of too much dairy work? Do you ever hear her say she'll never get through washing milk things? How often does she say, "Oh, if I only had fewer pans, corks and cans to wash, I could read, write or sew more, or even take a little rest each day."

AN EASIER TIME.

Ask her about it. Arrange to make the dairy work one half easier, one half neater, one half more pleasant, and 25 to 100 per cent. more profitable by using a Sharples Tubular Cream Separator. Until you try the Tubular, you can't imagine the difference it makes. It skims the milk immediately after milking—there's no milk standing around no cans or pans to wash. The Tubular is entirely different from all others, so much more simple and convenient. Bring your wife and let me take a Tubular apart for you.

THE THRICE-A-WEEK WORLD

The Greatest Newspaper of Its Type.

It Always Tells The News As It Is. Promptly and Fully.

Read in Every English-Speaking Country.

It has invariably been the great effort of the Thrice-a-Week edition of the New York World to publish the news impartially in order that it may be an accurate reporter of what has happened. It tells the truth, irrespective of party, and for that reason it has achieved a position with the public unique among papers of its class. If you want the news as it really is, subscribe to the Thrice-a-Week edition of the New York World, which comes to you every other day except Sunday, and is thus practically a daily at the price of a weekly.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and THE FULTON COUNTY NEWS together for one year for \$1.75. The regular subscription price of the two papers is \$2.00.
