HAD SEVERE WEEPING ECZEMA.

Face and Neck Were Raw-Terrible Itching, Inflammation and Sore-ness-All Treatments Failed-Cuticura a Great Success.

"Eczema began over the top of my ear, eracked and then began to spread. I had three different doctors and tried sov-eral things, but they did me no good. At last one side of my face and my neck were raw. The water ran out of it so that I had to wear medicated cotton, and it was so inflamed and sore that I had to put a pices of cloth over my pillow to keep the water from it, and it would stain the cloth a sort of yellow. The eczema itched so that it seemed as though I could tear my face all to pieces. Then I began to use the Cuticura Scap and Ointment, and it was not more than three months before it was all healed up. Miss Ann Pearsons, North-field, Vt., Dec. 19, 1907."

Idle Curiosity.

Many well-meaning persons are apt to confuse what they regard as interest in others with idle curiosity. and thereby cause serious annoyance if not actual suffering, besides placing themselves in an unenviable light. Very often the display of curiosity is unconscious and arises from a desire to give evidence to some friend of a willingness on our part to share his confidence, but the friend is very sure not to avail him-self of this opportunity, else he would have sought it himself. There are some sorrows in nearly every-one's life which reach down too deeply into the heart to bear even the kindlest inquisition; sorrows which we are not willing to speak of voluntarily even to those nearest and voluntarily even to those nearest and dearest to us, and yet it often hapdearest to us, and yet it often hap-pens that it is upon such a subject as this that some kind friend is apt to question us. Of course a curiosi-ty of this sort is more than idle; it is an evidence of lack of considera-tion, to say the least, and is sup-posed not to obtain in genteel society, and yet we venture to say that there is hardly a person in this wide world of ours who has not at some period when misfortune has entered his life suffered from the idle curiosity of some supposed friend.—Charles-ton News and Courier.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be s rong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which im-pairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despond-ent, he is losing the nutrition needed to make strength. Such a man should use Dr. Ploreets Goldon Waddad
