Kodol

For Dyspepsia and Indigestion

If you suffer from indigestion, dyspepsia, gas on the stomach, belching, sour stomach, heart-burn, etc., a little Kodol will relieve you almost instantly.

Kodol supplies the same digestive juices that are found in a healthy stomach. Being a liquid, it starts digestion at once.

Kodol not only digests your food, but helps you enjoy every mouthful you eat.

You need a sufficient amount of good, wholesome food to maintain strength and health.

But, this food must be digested thoroughly, otherwise the pains of indigestion and dyspepsia are the result.

When your stomach cannot do its work properly, take something to help you stomach. Kodol is the only thing that will give the stomach complete rest.

Why? Because Kodol does the same work as a strong stomach, and does it in a natural way.

So, don't neglect your stomach. Don't become a chronic dyspeptic. Keep your stomach healthy and strong by taking a little Kodol. You don't have to take Kodol all the time. You only take it when you need it.

Kodol is perfectly harmless.

FOODS AND DIGESTION.

A recent report made in one of the daily papers from Government officials at Washington, gives considerable attention to the digestibility of foods, a subject of vital interest to the human family, yet, about which very little is known.

One of the surprising things is that stone fruits, such as peaches, plums, etc., take as long to digest as fried eels—six hours—while venison can be converted into blood in one hour. In fact, this is one of the easiest foods to be digested.

Boiled fish, raw eggs, rice and apples are quickly digested, while roast veal is hard to manage. While it is pointed out that easily digested food should be eaten frequently, the warning is made that the stomach should not get accustomed to light loads, and the more difficult things to digest should be eaten.

Go With a Rash.

The demand for that wonderful stomach, liver, and kidney cure, Dr. King's New Life Pills—is astounding. At Trout's drug store, they say they never saw the like. It's because they never fail to cure sour stomach, constipation, indigestion, biliousness, jaundice, sick headache, chills, and malaria. Only 25c.
