The fact that there are at least five cases of typhoid fever in the County, should be a sufficient warning to be careful in the use of water. If there is any reason to suspect that the drinking water is not entirely pure, it should be boiled before using. This does not necessarily mean that the water should be boiled hot, or even warm. The boiled water may be placed in a clean vessel, and placed where it may become cold enough to be entirely palatable.

Do not be deceived by unscrupulous imitators, who would have you believe that the imitation pills are as good as DeWitt's Kidney and Bladder Pills. Any one can take DeWitt's Kidney and Bladder Pills as directed in perfect confidence of good results. Sold by Trout's drug store.
