Natural Forces.

It was the study of the natural laws affecting water in contact with heat that gave Fulton his idea of propelling vessels. It was the Wright's study of the natural laws of the resisting or sustaining power of the air that has enabled them to construct the aeroplane.

It has been the study of electric waves and the natural laws attending their production and their trans-mission without wires that enabled the French naval officers, Jeance and in, to carry on wireless telephonic communication on Wednesday last between Toulon and Port Vendres, a

distance of 155 miles.

The air, the steam and electricity were the same in the time of Solo-mon as today in nature's domain, governed then by the same laws as they are today, available then to our progenitors if they had known the processes by which they could have utilized them. It is a transformed world as compared with a century ago, transformed by dents of natural laws. The changes of the next 25 years bid fair to be as complete and wonderful as those of any century that has gone by.— Cincinnati Enquirer.

Question Of Economy, "I can get my daughter a coronet fer a million."

'Seems extravagant, Si,"

"I know; but mebbe it would be cheaper in the long run than buying hat every year."-Washington Herald.

PRESSED HARD Coffee's Weight on Old Age.

When prominent men realize the injurious effects of coffee and the change in health that Postum can bring they are glad to lend their testimony for the benefit of others. A superintendent of public schools

in North Carolina says: "My mother, since her early childbood, was an inveterate coffee drinker, and had been troubled with her beart for a number of years, and com-

plained of that 'weak all over' feeling and sick stomach. Some time ago I was making an official visit to a distant part of the

country and took dinner with one of the merchants of the place. I noticed a somewhat peculiar flavour of the offee, and asked him concerning it. He replied that it was Postum. "I was so pleased with it, that af-

ter the meal was over, I bought a sackage to carry home with me, and had wife prepare some for the next The whole family liked it so well that we discontinued coffee and used Postum entirely.

"I had really been at times very anxious concerning my mother's condition, but we noticed that after using Postum for a short time she felt so much better than she did prior to its one, and had little trouble with her heart and no sick stomach, that the beadaches were not so frequent, and her general conditionmuch improved. This continued until she was as well and hearty on the rest of us.

"I know Postum has benefited myself and the other members of the family, but not in so marked a degree as in the case of my mother, as she was a victim of long standing." Read "The Road to Wellville," in;

There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human in west.

What is Rest?

Ask This Her This Ougstion

"Do you know of any woman who ever received any benefit from taking Lydia E. Pinkham's Vegetable Compound?"

If any woman who is suffering with any ailment peculiar to her sex will ask her neighbors this question, she will be surprised at the result. There is hardly a community in this country where women cannot be found who have been restored to health by this famous old remedy, made exclusively from a simple formula of roots and herbs.

During the past 30 years we have published thousands of letters from these grateful women who have been cured by Lydia E. Pinkham's Vegetable Compound, and never in all that time have we published a testimonial without the writer's special permission. Never have we knowingly published a testimonial that was not truthful and genuine. Here is one just received a few days ago. If anyone doubts that this is a true and honest statement of a woman's experience with Lydia E. Pinkham's Vegetable Compound write and ask her.

Houston, Texas.-" When I first began taking Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had been sick for three years with female troubles, chronic dyspepsia, and a liver trouble. I had tried several doctor's medicines, but nothing did me any good.

"For three years I lived on medicines and thought I would never get well, when I read an advertisment of Lydia E. Pinkham's Vegetable Compound, and was advised to try it.

"My husband got me one bottle of the Compound, and it did me so much good I continued its use. I am now a well woman and enjoy the best of health.

"I advise all women suffering from such troubles to give Lydia E. Pinkham's Vegetable Compound a trial. They won't regret it, for it will surely cure you."—Mrs. Bessie L. Hicks, 819 Cleveland St., Houston. Any woman who is sick and suffering is foolish surely

not to give such a medicine as this a trial. Why should it

not do her as much good as it did Mrs. Hicks.

STOMACH OLIVER 6

weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which zeem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also. The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY .- Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

TWENTY DIFFERENT FOUR COLUMN VIEWS AT NEW YORK, GOREY ISLAND BUT A LIBERTY CITY WITH Biamps The Hayal Mrg. & Dis Co. Baltimore did

used the same style and size of razor and had no thought that it could be improved until some genius evolved the safety razor. That genius reaped the benefit of his inventive talent by charging from \$3 to \$5 for each im-

plement, people being glad to buy at those figures. Now comes another inventor who has made possible a Pittsburg, Pa. — Cattle—Supply light, steady; choice, \$6.25 @ \$6.50. Sheep—Prime wethers, \$4.65 % \$6.50. calls and common, \$1.50 % 2; ambs, \$4 @ 7.25; aml calves, \$9 % 50. still better safety razor, and for only twenty-five cents. That sum in postage stamps sent to the Book Publishing House, 134 Leonard street, New York, will secure a razor postpatd
